GRANGE NEWS

by Laura Sather

The following officers were installed Jan. 2 at Harlandview Grange No. 682: Earl Gentry, master; Max Belshe, overseer; Carrie Belshe, lecturer; Josephine Gentry, chaplain; Florence Bruckert, secretary; Richard Bruckert, treasurer; Geo. Benson, asst. steward; Agness Benson, asst. lady steward; Walter Bruckert, executive committee, Donald Martin, Orlow Martin and Dean Reynolds; Home Ec. chairman, Agness Benson; co-chairman, Josephine Gentry, Legislative chairman, Helen Bruckert, agriculture chairman, Walter Bruckert.

Harlandview Grange met in regular session Monday night following a pot luck dinner with Earl Gentry, master, presiding. Plans are being made to put the 1st and 2nd degree on before the next meeting. Our next meeting being a social meeting we expect to have an exchange student as our guest speaker. Committee for next meeting is Mr. and Mrs. Max Belshe and Mr. and Mrs. Tony Miller.

YEARS AGO when the physician fought to bring a patient through a siege of pneumonia there was little he could do but help conserve the patient's strength, make him comfortable... and hope for the best. In fact, the doctor sadly signed death certificates for 33 out of every 100 pneumonia patients he treated. For those who survived, recovery was slow and expenses were high. The cost of an average case was about \$1,000, including three or four weeks' time lost away from work. Happily, this grim picture has changed. Under the onslaught of sulfa drugs... and now the antibiotics... pneumonia has steadily laid ground. Now, uncomplicated cases clear up in four to five days. And instead of losing 33 out of every 100 cases, the doctor saves all but a very few.

Just as striking as the cut in deaths and disability is the cut in the cost of curing pneumonia. More and more patients can now be cared for at home. As a result, the average case of pneumonia may cost no more than \$100... including loss of income, the doctor's visits and the "expensive" new medicines!

Today, more than ever before, an investment in prompt and proper medical care may well represent one of the biggest bargains of your life.

This early warm spell is sure to set the housewife to thinking about changing something, moving the furniture, painting the kitchen, redecorating the living room. It's as regular as the sparrows at Capistrano.

We're ready for it. Have some very pretty designs of wall paper suitable for rooms to laugh in, rooms to sleep in or rooms to feel solemn in.

Paint, of course, rubber base paint in a line of colors reaching from just a little off white to dark purple and browns and blues and nearly every shade between. Really a fine line.

Then if you'd like some new cabinets to make work around the kitchen handier we can supply plywood. Oh, all kinds of boards, plaster, paper, anything that's made and there's lots made.

Reddy Kilowatt's Helpful Hints

HOW TO MAKE YOUR HEATING DOLLAR GO FARTHER!

- Make certain your house is well insulated, and that your doors and windows are weather-stripped. This cuts heat loss and gives you more value for your heating dollar.
 - Try to keep drapes drawn and shades pulled at night and in rooms not in use because heat passes readily through window glass.
 - You can save heat by closing off rooms at night where windows are raised. If the room has a separate thermostat, set it as near the outside temperature as possible.
 - If your furnace has air filters, keep them clean. Dirty filters slow down air circulation and make your furnace work harder.
- Reddy Kilowatt hopes these hints will help save you heating dollars. And remember, Reddy's always at your service for home comfort and convenience. Live better electrically.
