...for the women of our time...

This is Dr. George N. Papanicolaou, the physician who many feel has done the most for the women of our time. His development of the cell examination for uterine cancer has made it possible to diagnose cancer of the uterus, or womb, in very early stages.

Cancer in this site strikes about 33,000 women a year and claims the lives of almost half of them. The tragic fact is that many of these lives are lost needlessly, for cancer of the uterus is highly curable. If every woman had her doctor perform this simple, painless procedure once a year, thousands of those who have cancer of the uterus could be saved.

Don't gamble with your life! See your physician about a cell examination for uterine cancer soon.

AMERICAN CANCER SOCIETY

The North Sherman Livestock club met March 19 at the Wasco Methodist church with their leader Leonard Fields.

Leaders checked over the members records books to help them if needed, and to see if they were up to date.

Future plans are to check record books at all meetings. In the future there will be separate meetings of the sheep members, and also for the swine members.

SCALE WATCHING IS AN EXCELLENT HABIT
 Prescription Pharmacist

A scale in every home might be very beneficial to personal health, for weight is an excellent guide to future well-being—and should be watched carefully.

There is no short-cut to weight control. With each person, it is an individual problem, and subject to personal discipline.

Normal living and eating are likely the keys to health. If over-weight or under-weight, see your Doctor. He is the one qualified to determine the necessity and prescribe for such treatment.

Only with his guidance should you engage in any weight control project.
