Subscriptions

We have decided that we could use a few more subscribers in Sherman County, elsewhere, too on demand. We have arranged to get the needed paper and have quite a bit of ink on hand so we can supply more newspapers to customers.

These new subscribers will come from those who have not lived here very long and who want to get acquainted with the county and its people. Inasmuch as they will not see this advertisement, some of the present subscribers will have to tell them about it or show it to them before this can be effective.

Even a newspaper ad has to be read to have a good result.

It isn't the biggest newspaper. Quantity is not our ideal. Sherman County, itself, has operated on the same principle. It is small but good.
