Cadelle beetles—and other free-loaders on grain—die a quick death when they get a lethal whiff of Diamond's patented Brand "A."

Brand "A" penetrates fast and sure with a heavy vapor that blankets every kernel of grain. And...

It's Thorough—the active vapor mixture kills adults, larvae and eggs. 100% active mixture, that's what.

It's cheaper—less gallonage is required per bin.

It's safer—non-explosive, and has no flash point. Has no effect on seed germination. Leaves no odor or taste when used as directed.

Diamond offers a complete line of standard fumigant formulations in addition to Premium Brand "A." For information write Diamond Alkali Co., 300 Union Commerce Building, Cleveland 14, Ohio.

Prescription Pharmacists

A GOOD NAME is the FINEST ENDORSEMENT

Almost daily, new drugs appear which we are urged to offer. To reject the unproved products is just as important to this pharmacy as is the service of being alert to provide the newest and the best.

There are certain helpful guides on which we rely. Reliable pharmaceutical manufacturers, such as Parke, Davis & Company, establish quality and effectiveness with exhaustive clinical tests before a product is announced. Your Doctor is then given facts, and on his judgment we rely in making our decision.

Thus, if a preparation is in our stock, you are assured of its reliability.
