Lightning set a fire Saturday night northeast of Kenneth Fridley's house. A group of the neighbors were out until 3 a. m. Sunday morning to get the fire under control. However, at 11 a. m. it was reported the fire broke out again on the north end of the fire along the John Day river and burned a number of acres before it was brought under control. Again the neighbors all came to help put the fire out which burned about five hundred acres of grass land on the James Fox pasture. The fire burned from Emigrant canyon along the John Day river up to Draper canyon. Usually the rain puts out a fire started by lightning, but in this case it didn't. George Fox killed a rattlesnake on the way back from the fire Sunday in Emigrant canyon. The snake has fifteen rattles and is about as large as they get in this area.
