Rufus News

by Mrs. George Fox

The Rufus church of the Nazarene announces that there will be special services Friday night August 11 at 7:30 p. m. A trio of singers with a piano accompanist will delight the ones attending with numerous songs. This group is from Nampa, Idaho and travels around calling on the different

parishes.

This area is getting used to the hot weather as the thermometer got up to 108 degrees one day last weekend. It is still a little warm with 88 degrees and a west wind to follow it up. Harvesting has been going along pretty well with most of the farmers through in the north end of the county. The elevator at Rufus is just about full to capacity of wheat. Fay Brackett is still bringing some of Mrs. Pearl Brackett's

wheat into Rufus. It is getting cooler nights and the farmers that are through are talking of taking vacations before school starts again. The mountains or the beach are a welcome change to hot dry Sherman County, and we come invigorated to start the fall planting in the hopes of getting another crop to harvest next year. Wonder what it will bring? Very few farmers were ready for the news of the light crop this year. Some even said they followed the combine to see where the machine was wasting it until they realized the truth that there just wasn't any more! Sherman County has a lot to be thankful for with the previous year's crops, about the best of anywhere.

Mrs. Bert Swigart had the Rufus Grange Home Ec club at her home Thursday, August 10 at 1:30 with a dessert luncheon. The group had planned to go see Camp Columbia but due to the busy season thought it would be better to go later.

The apricot harvest is over and it won't be long until the peaches are ready for harvest at the orchards in Rufus.

The Rufus Grange and auxiliary expects to put on the hamburger stand at the Sherman County Fair again this year.

Some Places There Are Grasshoppers; Can Be Killed

Some areas throughout the state have been reporting excessive damage from grasshoppers. A few people have reported some minor damage to yards and flowers here in Sherman County. No heavy infestation of grasshoppers has been reported to date.

Grasshoppers can be controlled by the use of several chemicals which are available from local feed, seed or fertilizer dealers. Chemicals recommended are Aldrin, Dieldrin, Heptachlor, Toxaphene and Malathion. Malathion is most desirable to use around the flowers and yards and in vegetable crops.

The Dalles, Oregon

The SHERMAN COUNTY FAIR

will be held

in cooler weather

SEPTEMBER 14 15 16 17

The exhibits will be wonderful from the 4-H calves to the women's gadgets in the pavilion. Almost no man ever outgrows his liking for cake. Women still make clothing and sometimes piece quilts even in this electric blanket age. Pretty, too.

IT'S YOUR FAIR

Entertainment will include amateur rodeo with Sonny Bain's wiry, little cuitans from off the Wasco county ranges where they've been gathering fleas and meanness for nigh onto a year. There's good music coming up to suit the dancers and listeners.

BE THERE
