**HEART DISEASE PROBABLY
HAS NOT INCREASED...**

The increasing number of reports of heart disorders as a cause of death has been brought about by the success of medicine. Many persons who formerly might have died of other diseases now live long and useful lives—eventually to succumb to a failing heart which has performed its lifetime of duty.

Therefore—as we grow older, the care of the heart must be considered in our every activity. Have regular check-ups by your Doctor, and follow his guidance carefully. He probably can help to keep your heart functioning for many extra years of buoyant and happy life. Whenever medication is required, we will be happy to have you bring your prescriptions to this Pharmacy.

Low-cost
RUST protection

Chevron Utility Coating makes it easy to rust proof equipment stored outdoors. This quick-drying asphaltic coating gives 6 to 12 months protection. Just spray or brush it on metal implements, orchard heaters, pipe, tanks or idle farm equipment.

Won't smear when used for branding sheep. It stays on top of wool, reducing loss when wool is sorted.
