From where I sit ... by Joe Marsh

Slim Gets in the Swim

Shorty Johnson's eldest boy, Slim, is as tall as his dad is short, and when he heard about an opening for an assistant lifeguard at our local kiddie pool, he figured there was the perfect job for him.

Right away he made a bee-line over to see the head lifeguard, who asked him how long he'd been swimming. "Well, to tell the truth," says Slim, "I never learned."

"You don't know how to swim?" asks the lifeguard, puzzled. "No," says Slim, who's 6'7", and still growing, "but I sure can wade!"

From where I sit, it's not how you get a job done, but how well you do it that's important. Most folks have their own way of working — a way that suits them best. It's the same when it comes to personal preferences. I may like an occasional glass of beer with my meals; you might rather have butter-milk. Neither of us is "right" — it's just a matter of taste. Recognizing this fact is one sure way to get along "swimmingly" with your friends and neighbors.

THEY'RE NEW...ALL THROUGH!

Size up the BIG WAGON!

The new TRAVELALL® by INTERNATIONAL is stylishly low in height, big and roomy inside. With all 3 seats in, it carries 9 big people. With seats adjusted, 6 and big loads, or 3 and giant loads. V-8 power is standard. Some models offer torsion-bar front suspension and box-section frame.

MEET THE SCOUT!

Made for work — and plenty of it — with a dash of fun thrown in. Carries 3 people up front. All-steel body hauls man-size loads of cargo. INTERNATIONAL 4-cylinder Comanche engine saves on gas and oil. Optional all-wheel drive provides traction anywhere. The Scout strips for action in minutes — doors, windshield and top come off. The Scout converts to a town delivery with an optional steel Travel-Top complete with side, rear windows, and lift gate.

PICK OUT A PICKUP!

INTERNATIONAL's new light-duty trucks are different inside, outside and underneath. Plenty of head room, yet stylishly lower in overall height. Extra ground clearance, too — because mufflers and gas tanks do not hang down below frame level. INTERNATIONAL V-8 power is standard. Some models offer torsion-bar front suspension and box-section frame.

NEW IS THE WORD FOR INTERNATIONAL!

SHERMAN FAIR

Here's where the excitement is! Hundreds of cars and people running every which way, making a fair. It takes many hands, many sets of brains to make a fair before the fair-goer can plop into his seat

and be entertained. The exhibits take most and some are planned a year. Don't miss them! Kids and calves, kids with cakes, lots to see and hear about wheat, cattle, sheep, swine, baking, canning, sewing, living.

Watch them crown the Queen Friday night, don't miss the Rodeo Saturday night nor the finale Sunday

It's all good. Don't miss a thing. You'll feel better next week if you do.
