THE GREATEST MODERN MOVEMENT Toward Improved Health

More than one-third of our nation's people voluntarily and freely pay for medical or hospital care in advance through cooperative insurance plans. This is probably the greatest voluntary movement toward improved health and welfare in the history of the world.

Every phase of this activity is laudable. The cooperation of industry and its employees, and the foresight of breadwinners to invest money in their families' health in advance of actual need, are evidence of progress. Active participation of the medical profession is evidence of its stature.

The desire for improved health, and the newly found personal pride and dignity of the individual are universal; and you may depend upon us, as upon your physician, in the achievement of these objectives for your family.

TRAVELALL® LEADS A DOUBLE LIFE

You'll find your TRAVELALL two servants in one: it'll work as hard as you want all week and play all weekend.

The TRAVELALL is the only station wagon with an extra-duty, truck-built V-8 engine as standard equipment. An engine designed to stand up under a 1000-hour, full-throttle, full-load torture test—a test two to ten times longer than those given other V-8's you'll find in station wagons. Every V-8 off the INTERNATIONAL assembly line is built well enough to take and pass this test.

TRAVELALL quality doesn't stop with its fine engine—there are two suspension systems and frames: for light loads, you can get independent torsion-bar front suspension with a box section frame. For heavier work, there's a model with an I-beam front axle with leaf springs and a sturdy channel frame. All-wheel-drive is available if you should plan to go beyond the road's end.

And TRAVELALL has the capacity to match its ability to carry big loads: you can lay a 4x8 sheet of plywood flat in the back. Its 124 cu. ft. load area can be stacked up to 42-in. high with a multitude of things from packages to potted plants.

These are only a few of the reasons why TRAVELALL can lead a double life. We can give you more. Stop by for the details and a demonstration.
