Here's what PP&L customer Mrs. Ben Peterson says about electric living...

"With seven children and a busy schedule, I'm especially thankful for electricity's help"

"I just can't imagine raising this wonderful big family without the help of electricity. In addition to two washers, the girls and I use two sewing machines, two vacuum cleaners, and two irons. The older children are wonderful about housekeeping, and we all agree that our 49 electric appliances are a great help. For all the work electricity does for us, it's the biggest value in our budget."

Like thousands of other Pacific Power & Light customers, Mrs. Peterson and her family live better because they make generous and effective use of modern electric service.

How about you—are you making full use of Reddy Kilowatt's helpful service?

In the typical U. S. home Reddy works 327 hours per month.

327 KWH

In the average Pacific Powerland home Reddy works 717 hours per month.

717 KWH

In Mrs. Peterson's home Reddy works 1405 hours per month.
