HOW TO
MAKE YOUR
HOUSEHOLD
DOLLAR
GO FARTHER!

• Be sure your house is weather-stripped and insulated. You'll save heat and heating dollars.

• Leaky faucets waste hot water. Usually a new washer will stop this waste.

• Plan to iron a number of things at one time. This is more economical than turning the iron off and on several times a day.

• Today's automatic dishwashers are large enough to do most families' dishes on a once-a-day basis, saving hot water and dishwasher running time.

These are just a few of the ways you get your biggest value from dependable P&L electric service. Use it often and efficiently. Live better electrically.
