TRAVELALL® LEADS A DOUBLE LIFE

You'll find your TRAVELALL two servants in one: it'll work as hard as you want all week and play all weekend.

The TRAVELALL is the only station wagon with an extra-duty, truck-built V-8 engine as standard equipment. An engine designed to stand up under a 1000-hour, full-throttle, full-load torture test—a test two to ten times longer than those given other V-8's you'll find in station wagons. Every V-8 off the INTERNATIONAL assembly line is built well enough to take and pass this test.

TRAVELALL quality doesn't stop with its fine engine—there are two suspension systems and frames: for light loads, you can get independent torsion-bar front suspen-

sion with a box section frame. For heavier work, there's a model with an I-beam front axle with leaf springs and a sturdy channel frame. All-wheel-drive is available if you should plan to go beyond the road's end.

And TRAVELALL has the capacity to match its ability to carry big loads: you can lay a 4x8 sheet of plywood flat in the back. Its 124 cu. ft. load area can be stacked up to 42-in. high with a multitude of things from packages to potted plants.

These are only a few of the reasons why TRAVELALL can lead a double life. We can give you more. Stop by for the details and a demonstration.
