

Moro Personals

William G. Kramer, diesel technology, GPA 3.687 made the honor roll for the fall term at OTI, Klamath Falls.

The Moberg Christmas letter tells how that grown family is getting along. Kathryn, Susan, Joan and Georgia are married and Audrey is a junior at the University of Oregon. Jim and Bill are both working for additional degrees at the university and Mr. Moberg teaches at Knappa while Mrs. Moberg keeps watch on the absent children.

Mr. and Mrs. David Moore and children left Christmas to spend the holiday with her mother at Multnomah where all her family gathered.

Mr. and Mrs. Carrel Bennett and son, David, spent Christmas here with her mother, Mrs. Havie Brisbine. He helped local Masons install new officers Tuesday night, being himself an exmaster of this lodge, before moving to Lebanon.

Mr. and Mrs. Bon Christianson and family were here to spend Christmas with their parents, Mr. and Mrs. A. B. Christianson. They live at Pullman, Wash.

Another native son now residing in Washington was here for Christmas. Mr. and Mrs. Edwin Balsiger and children were down Monday returning to Kennewick the same day.

Mrs. J. C. Freeman came home from the hospital a day before Christmas after some repair work on her broken hip. Her children were here with her for the holiday, Neal from Eugene and Mrs. Greta Wiley from Hermiston.

Mr. and Mrs. Ernest Goodenberger drove to Portland Friday to meet their daughter, Dorothy, who flew in from Lewistown, Montana where she is teaching school, for the holidays. Other guests at the manse for Christmas were Mr. and Mrs. Glen Virtue and daughters and Mr. and Mrs. Martin Zimmerman and children.

Mr. and Mrs. Donald Martin, Donnie and Marcia, Mr. and Mrs. Kenneth Martin and LeRoy, Mr. and Mrs. Dale Padgett, were Christmas eve visitors at the Bernard Martin's new home in Grass Valley.

Moro phones increased some 15 in 1961, raising the total number now serving the area to 271, according to Pacific Northwest Bell's local manager, C. P. Horn.

Mrs. Frank Sayrs came home from a Portland hospital Wednesday with her back in much better condition than before.

Mrs. Frances Henrichs and her daughter, Maxine Henrichs of Yuba City, California came up last week to spend the holidays with Mrs. Henrichs' son, Lloyd Henrichs and family.

County Ramblings

County Agricultural Agents

Livestock producers in Sherman County were requested to make appointments for Bang's vaccination. Arrangements can be made through Dr. Milt Skov, private veterinarian; Dr. Pete Kullenberg, state veterinarian at The Dalles or the Sherman county extension office.

Feeding Pregnant Cows

The majority of the growth of the fetus in beef cattle takes place in the late part of the gestation period. At this time it is particularly important that a cow be given adequate nutrition, from the standpoint of both energy and protein.

Good quality grass hay will meet the requirements if it is full fed. However, if there is a shortage of hay, it may be necessary to supplement the cow's ration with other sources of energy or proteins. Feed grains generally are not recommended for beef cows. But in cases of emergency, it may be necessary to stretch the existing hay supply so these cattle may be wintered without losing an excessive amount of weight.

Cottonseed meal may be the most desirable source of protein supplement. Three-quarters to a pound of cottonseed meal daily will take care of the protein requirement, as long as the cows get a fill of lower quality roughage.

Good quality legume hay will normally take care of vitamin A requirements. However, it may be necessary to supplement a ration with some synthetic vitamin A.

Production Testing

Proper identification of calves is one basic essential in the production testing program with beef cattle, as well as with sheep.

Calves may be identified in a number of ways. It appears that the metal ear tag is the most suitable. There is an open-ended plastic tag that also works extremely well. Although it is not necessary to have the exact birthdate of commercial calves, it is highly desirable.

With the identification of calves it is also imperative that the cows be identified either by name or by number. In large herds, numbers are a necessity. There is a plastic tag that goes inside the ear. This seems to be the most desirable one at the present time.

Neck chains are good. Some producers use a double entry system with their calving records. In one case, the cows are listed in numerical order, and in the second case, the calves are listed in numerical order. Each list is cross-indexed, with the calf's number listed with its dam, and the cow number listed with its calf.

Livestock 4-H Scholarships

Thirty-six \$25 scholarships to the 1962 4-H club Summer School will be awarded by Safeway Stores, Inc., to 4-H members with outstanding livestock breeding projects. One scholarship is offered to each of Oregon's 36 counties.

Livestock members who have breeding projects and are eligible for 4-H summer school may make application to their county extension agents. The 4-H summer school will be held at OSU Jan. 11 to 16, 1962.

This award program was started in 1946 with 34 scholarships awarded that fall to the 1947 summer school. During the past 15 years 477 4-H summer school scholarships have been awarded by Safeway Stores to livestock club members with outstanding livestock breeding projects.

A breeding project is one in which the 4-H member keeps female animals for the production of breeding or market animals. He may sell the offspring or may keep some or all of his breeding animals to expand his herd or flock. Most 4-H herds and flocks have been developed in this manner. Many commercial and purebred livestock producers got their start with a 4-H herd or flock.

Oregon boys and girls were enrolled for 11,333 livestock projects in 1961. These included 2,183 sheep, 2,050 dairy, 1,994 beef, 954 swine, 524 rabbit, and 102 dairy goat projects. Other livestock projects are horse and dog.

General Weed Control

Weeds and grasses in patches around buildings, on ditch banks, and along roadsides constitute one of our big weed problems. Such growth is not only unsightly but increases fire danger around buildings and serves as a constant source of contamination for new weeds.

Simazine and Atrazine are new soil active chemicals for the control of many weeds. These chemicals, even at low rates, do an excellent job under Sherman county conditions. When used as soil sterilants along ditch banks, fencerows, roadsides, or around buildings provide effective control for one to five years depending on rate of application.

In Eastern Oregon and other areas, particularly in regions having an annual rainfall of about 15 inches a year, Simazine probably will give the longer period of effective control. In regions under 15 inches of rainfall a year, atrazine would be the chemical of choice. As the soil becomes increasingly heavy, however, atrazine would be the product chosen for use because of its heavier solubility. Throughout most of the Eastern Oregon region, the most effective time of application of either atrazine or simazine is in early winter when advantage can be taken of the winter moisture to carry the chemicals into the soil.

One of the great advantages of either material is the fact that they are rapidly fixed in the soil and show little tendency to move with surface water. Another advantage is that these materials are practically non-toxic and do not create a fire hazard. The low toxicity of these two chemicals permits their use where livestock is likely to have access to the treated area.

A red and white color theme was carried out in the recent wedding of Peggy Alberty and Jerry Miller, at the home of John E. DeMoss, December 16. The ceremony was solemnized by Rev. Ernest E. Goodenberger.

Poinsettias and white tapers centered a holly and candle advent wreath on a fire place mantle.

In the wedding party were Mrs. William Beers of Rufus, sister of the groom, matron of honor; and William Beers, best man. Nancy Alberty, cousin of the bride, lit the candles and Johnny DeMoss Jr. ushered.

The wedding music was played by Janice DeMoss who accompanied Arlean DeMoss, soloist.

A reception was held immediately following the ceremony, with the wedding cake flanked by white tapers, gracing the lace covered table.

Mrs. Grace Medler served at the coffee service, Mrs. Floyd Lane, aunt of the bride, served at the tea service, Mrs. Sam Alberty, aunt of the bride, served the wedding cake and Miss Julia Bayer served at the punch bowl. Miss Darlene Gochbauer was in charge of the guest book and gift table.

The bride is the daughter of Mr. and Mrs. Alonzo Alberty of Moro. Parents of the groom are Mr. and Mrs. Loren Miller of Condon.

After a short honeymoon to Portland and the Washington coast, the couple will make their home in Moro.

The bride is employed at the ASC office. The groom will leave January 9 for the Navy. Both the bride and groom are graduates of Sherman High School.

Wasco News

By Fanline Broughton

Mrs. Karin Zollikofer, a brown-eyed girl from Brazil, is a holiday guest of Mr. and Mrs. Hildred Zell. She is attending the University of Oregon on a scholarship given by the Federated Women's clubs and has already graduated from the University of Brazil in Rio de Janeiro which is her home. The name, incidently, is Swiss.

P. M. Morse of Eugene is here for the holidays with his daughter, Mrs. Paulen Kaseberg and family, still hale and hearty at 85.

The Tuesday Club met Dec. 19 at the home of Mrs. Hildred Zell on Fulton canyon road. The afternoon was spent in playing bridge, though because of so much illness among the members, and the inclement weather, present were only enough for one table of play. Mrs. Mabel Haven won the prize for high score. Others present to enjoy the afternoon were Mrs. Art Smith, Mrs. R. M. Johnson and Mrs. Harry Van Gilder.

Mr. and Mrs. Gordon Harper drove to Portland late last Sunday (Dec. 17) and spent Monday and part of Tuesday doing some last minute Christmas shopping. They plan to spend the holiday weekend in Salem with their son and daughter in law.

Harold Winegar, game biologist in charge of this area, now living at Prineville, was in Wasco on official business early in the week. He reported very little snow, and comparatively nice weather in Prineville.

Tuesday, Dec. 19, Taylor lodge No. 99 AF & AM, held a special meeting for the purpose of installing new officers and to conduct a candidate through the EA degree. New officers included Frank Reid W. M.; John Hilderbrand, Sr. Warden; Hildred Zell, treasurer; Doug Shull, Marshall; Harlan McDonald, chaplain; Richard Skiles, Jr. deacon; Bill Broughton, Jr. steward; Gordon Hilderbrand,

Taylor. Not present but to be installed later are Vernon Root, secretary and Jack Morris, Jr. steward.

Mr. and Mrs. Arthur Sargent left Thursday for Corvallis, where they spent the Christmas holiday with their son in law and daughter, the Rev. and Mrs. Charles Neville and children.

Due to the absence of Den Mother Mrs. Joy Richards, Mrs. Mark White, assistant Den Mother, was in charge of the meeting of Den No. 3 of the Cub Scouts Tuesday, Dec. 19. The meeting was held in the social rooms at the Wasco Methodist church, and the boys spent the time making Christmas gifts for their parents, and singing Christmas carols. Boys present for this Christmas meeting were Joe White, Billy Nisbet, Danny Richelderfer, Danny Richards and Billy Swett. The boys enjoyed Dixie cups, cookies, and candy canes for refreshments.

Mr. and Mrs. Bill Broughton left Saturday for Edmonds, Wn., where they spent the Christmas weekend with Mrs. Broughton's brother and sister in law, Mr. and Mrs. George Lyons and their two children, Carol and Steve.

Mr. and Mrs. Eldon Lane and three children left on Saturday. They will spend the holiday in Scattle with relatives.

Arriving Friday to spend the holidays with the Mar's White family was Mrs. Lovenia Randal of Grandview, Washington.

As these items are being noted the sun is shining, and we sincerely hope that all those in the community who are or have been ill, will be up and able to enjoy a happy holiday. Happy New Year to all!

CARD OF THANKS

I wish to thank all my friends for the lovely cards, notes, flowers, for the visits and other acts of kindness shown while I was in the hospital. Thanks so much.

Lloyd Royce

4-H CLUB NEWS

The Knitting Knitters under leadership of Lavelle Dormaier met Wednesday Dec. 20 at 4:00 p. m. at the Al Dormaier home.

First we played a game, then sang some songs. After that we opened our presents, then had refreshments and everybody told the other people what they got. Then everybody left.

PRESCRIPTION PHARMACISTS

YOU CAN ENJOY GOOD HEALTH IN OLD AGE

Retain your good health right through your later years. It may be necessary to give the body some extra care, but this is simply routine. More attention to diet and rest can be helpful — and moderate exercise is essential.

But most important is regular attention by your Doctor. He will guide you in the use of necessary medicines, which should be taken only at his direction. He will prescribe only the best medicines, such as those of Parke, Davis & Company.

We invite you to bring your prescriptions here promptly, as we are prepared to serve you every pharmaceutical need.

This extra care can do much toward making old age your most healthful and pleasant years.

Clowers Reports On Farm Bureau Convention

Wiley Clowers, president of the Oregon Farm Bureau federation, said after returning from the AF-BF convention in Chicago, "The policies of the American Farm Bureau federation are basic to the individual's freedom to farm in this country."

Clowers reported that Farm Bureau took sharp issue with Secretary of Agriculture Freeman, who spoke before the convention delegates. Freeman challenged the Farm Bureau, claiming the Farm Bureau program would actually cut farm income.

Clowers said that Charles B. Shuman, president of the American Farm Bureau federation, accepted the secretary's challenge to present a program that will im-
