Here's what P.P.&L. customer Mrs. Norris Syverson says about electric living ...

"Electricity gives us more comfort and convenience than anything else we buy"

"With three youngsters in the family, a homemaker's time is more precious than ever. It's really wonderful to have lots of electric helpers ... and believe me, we keep them busy. From cooking, or mixing milkshakes for the children, to automatic jobs like laundry, water heating and refrigeration, our electric service is always working for us. When we consider how often we use our 45 appliances we think our electric bill is our most reasonable item of household expense."

Like thousands of other Pacific Power & Light customers, Mrs. Syverson and her family live better because they make generous and effective use of modern electric service.

How about you—are you making full use of Reddy Kilowatt's helpful service?

In the typical U. S. home Reddy works 327 hours per month

In the average Pacific Powerland home Reddy works 717 hours per month.
