There are few teachers in Sherman county this week what with spring to attract them out of

doors, the OEA meeting for the faithful, and the ever present job of looking for a better job.

Prescription Pharmacists

... can you count the factors entering into your prescription. Pharmacy deals with a multitude of details, and the many thousands of items in your pharmacist's stock prove the point.

Your prescription specifies drugs, amount, strength, size, and dosage. Add to these the order of mixing, compatibilities, and hundreds of procedures and diversities within the knowledge of your pharmacist. They are the selective factor of medicines, and establish a most complex profession. All of these skills are to serve you when we fill your prescription.
