

Moro Personals

Tom and Aggie Woodcock spent last week in Seattle to visit relatives and have a look at the fair, which Tom pronounces as worth seeing.

Mrs. Zella Dyer returned to Centralia, Wash., and the care of her grandson until school starts next month.

Mr. and Mrs. Darwin Van Gilder returned from a two day visit to the river Sunday with one steelhead and two rattlesnakes and that may be indicative of the kind of year it is going to be.

Jack Tone of Stockton, California was in town early Tuesday morning on his way home from showing his Arabian horses at the Calgary show. His big van held 11 horses with room left over for four small humans and some hay.

Mr. and Mrs. Bob Jones came up Saturday from Portland to spend the weekend with her parents Mr. and Mrs. E. E. Barnum.

James Woods of Portland was in Moro Tuesday to see how his wheat crop was turning out, and he seemed pleased with the results.

A drivers license examiner will be on duty in Moro, Tuesday, August 7, at the courthouse between the hours of 9 a. m. and 4:00 p. m.

Mollie McLachlan was showing a New Zealand gooseberry around town Wednesday. It weighed 2 1/2 ounces and is nearly four inches long covered with a brown fuzz. It looks no more like a gooseberry than it does like a well fed mouse.

Mrs. May Nordin, who is visiting her daughter, Mrs. Irving Hart while finishing her recuperation from a broken leg bought the gooseberry in Portland.

The county court met briefly Wednesday morning to order the payment of bills and went back to the combines to finish harvest during the good weather.

Wily Knighten jr. was here to visit his parents for a few days. He is on a vacation from his job in Alaska. Mrs. Knighten went to LaGrande for some summer school work and the two Wilys went to Portland and later will go to Seattle.

Mr. and Mrs. Bill Frees returned Wednesday night from a week

spent in California, somewhat longer than anticipated because of car trouble. They rented a house in Santa Clara, near San Jose and will move when their household equipment arrives from Georgia.

Mr. and Mrs. George Reed were in Portland Wednesday on business and to visit her father in law, a patient at Kaiser Hospital.

USE OF OLD TIN CANS NO LONGER PERMISSIBLE

Re-used tin cans in which liquid or semisolid foods are stored are going into the discard pile at Oregon bakeries, or any other place where food is processed for public sale.

Only two things can save them for future life. One is that they have no seams of the "crimped" type into which food particles and bacteria can cling and cling. Either the used container must be of seamless construction or have smooth soldered or welded seams.

The other is addition of a new food grade plastic liner each time the can is used for food storage. This is known in the trade as a "single service" liner—and is a lot less expensive than a new can. Housewives will recognize the cans in question as the size of "one of those big lard cans".

The state department of agriculture has put its foot down on the use of re-used tin cans because of the contamination which can result, regardless of how well the cans are cleaned.

"We've conducted an educational program with the industry on this subject and everyone should be well informed on what the Oregon Food Law requires. Now we will start enforcement, which means penalty action for violations where necessary," declares Kenneth E. Carr, chief, division of dairy and consumer services.

The state department of agriculture has put its foot down on the use of re-used tin cans because of the contamination which can result, regardless of how well the cans are cleaned.

NO MAN EVER FOUGHT A FIERCER BATTLE TO BELONG AGAIN!

TONY CURTIS

THE OUTSIDER

It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862... the same year that

IN OREGON, to protect their frontier against marauding Indians and rebel sympathizers, patriots formed the First Oregon Cavalry. No outfit performed more essential service or displayed more bravery in battle than the Oregon troops. Throughout the state folks toasted their success with foaming steins of beer.

For then, as now, beer was the traditional beverage of moderation—light, sparkling refreshment that adds a touch of Oregon hospitality to any occasion. Folks in Oregon have always enjoyed the good fellowship that goes with every glass.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

married life in Rufus. Patricia's fiance is studying for the ministry and she will teach this fall. She spent her last few summers doing waitress work at Dinty's Cafe to help out with her college expenses.

Rufus friends of Mr. and Mrs. D. D. Williams have received wedding invitations to their son Paul D. and Joan Smiley, daughter of Mrs. Joseph Smiley of Monmouth. The wedding is August 4 at four o'clock in the afternoon at the First Baptist Church at Monmouth.

Mrs. Harland McDonald was pleasantly surprised last Friday when a former school pal, Mrs. Dick Dalzell of near Seattle, her son and two sisters, stopped to visit her. They enjoyed reminiscing until lunch time when Mrs. McDonald took them out to lunch.

The D. D. Williams and family are well remembered here for he was principal of Rufus school for several years in the 1940's. Mr. Williams is an employee of the state department in Salem, and the family has made their home in Salem for the last few years. Mr. and Mrs. Harland McDonald expect to attend the wedding.

Also of interest to friends here was the wedding of Joan Jenkins, daughter of Mr. and Mrs. John Jenkins who now live in Portland. Joan was married last Saturday

BENZABOR®
 NO-MIX, DRY, DEEP-ROOT
WEED KILLER

Easiest, surest way to destroy these noxious weeds: BINDWEED (Creeping Jenny, Wild Morning Glory), CANADA THISTLE, LEAFY SPURGE, RUSSIAN KNAWEED, HORSE NETTLE, WHITETOP.

No water or chemicals to mix! No hard-to-clean equipment needed! BENZABOR's proven, granular combination of trichlorobenzoic acid and borates does it all. Carry Shaker Applicator on tractor and treat weeds on sight. Or treat larger areas using PCB Sprayer pictured. (It lets you treat 10,000 sq. ft. in 10 minutes.) Either way, BENZABOR is your fastest, easiest way to kill weeds!
