It's on right now,
this very minute
and you'd better
start changing
your duds and hie
over.

The best of all possible fairs
is your fair, right in your
own county where you can

and visit with his family.
Its friendliness makes a fair,
seeing something you under-
stand and know about.

A fair is evidence of
man's dependence on
the earth, on nature,
and the success of a
fair depends on how he
utilized the resources
of Mother Earth during
the year past.
