OFFICIAL PAPER OF SHERMAN CO. MORO, OREGON.

B. C. IRELAND EDITOR

THURSDAY AUGUST 6, 1896

THE CAMPAIGN IN OREGON

Senator John H. Mitchell advises his friends in Portland that he will arrive in Oregon about the middle of August. It is also stated that he will take an active part during the campaign in the interest of McKinley and the St. Louis platform, which means not only the advocacy of protection, but also of sound money, and opposition to free coinage of silver.

As proposed by the republican state central committee, the campaign is to be opened in Oregon on Saturday, August 15th. Chairman Hirsch of the committee, is at Clatsop beach says the Oregonian, while Secretary Bourne is at Yaquina. Aside from the work of the state central committee, a campaign of education will be carried on by the national republican committee through Geo. A. Steel, its representative in Oregon. The republican clubs throughout the state, are also falling into line, and evincing great interest in the presidential campaign. Individual members of these organizations are in hearty accord with the St. Louis nominees and the sound money platform. There will be no death of local speakers during the campaign. All the republican electoral candidates have been on the stump in times gone by, and will canvass the state this fall. An effort will also be made to secure some prominent eastern republican to come to Oregon. Thomas B. Reed and Henry Cabot Lodge are most favored, but the great demand made on these men may make it impossible for them to come so far west.

The Record says some of the very worst anarchistic and communistic literature comes from Portland, Ore. Wagon loads of the stuff is being distributed in Chicago, from the east as well as from the west, but is the same in general tone, and of a character that causes the racials fairly to dance with delight. No secrecy is used in the distribution.

Do not get demoralized over that state portage "right of way" at Cascade Locks, Bro. T. M. Be thankful that it has stood so long when, at best, the conditions were only temporary. Besides this, of what use is the portage railway now? The locks are finished. Get a move on you that will aid us to compel the secretary of war to open them; then send your steamers through and give us the portage railway at Celilo.

The rinderpest is carrying off Africa's cattle by wholesale. Not one head of cattle in a thousand had escaped for five hundred miles along the route traveled by Explorer Moffet. The lake region and on the plateau of the great Masai tribe and among the herds north and far to the south, nearly to the border of Cape Colony, its ravages extend over millions of square miles. The disease is said to be due solely to a vegetable parasite that spreads easily and rapidly, and to be, so far as investigation has gone, incurable.

A few lies of the opposition press were exposed last week by the Oregonian which made the circumstance an occasion to remark to its inquirer, J. L. Kline of Portland: "The free silver campaign is based largely on impudent lies, like the famous bankers' circular, the pretended prophecy of Lincoln, the forged extract from the London News now going the rounds, the garbled quotation from the Congressional Globe, referred to and the invented extract from the Bankers' Magazine. Rascals can invent fictions faster than they can be proved false by ordinary evidence, but all of these contain evidence of flimsy within themselves, to minds trained to weigh and comprehend evidence. They are started by liars and believed only by fools."

E. D. McKee, clerk of the United States district court, and former member for Oregon of the democratic national committee has a dispatch from Gen. E. S. Bragg, of Wisconsin, chairman of the sound money democratic committee, asking him to confer with sound money democrats and report promptly a member of the national committee to represent Oregon at the meeting to be held in Indianapolis August 7th. Mr. McKee has called on a number of prominent democrats throughout the state to meet in Portland at an early date to choose a national committee man for delegate, as requested. This goes to show that every state in the Union has been called upon to co-operate in this movement, and that the nomination of a sound money democrat as a candidate for president is an assured fact.

THE OBSERVER X-RAYS.

Chronicle. A sound money democrat is not obliged to vote the republican ticket, but that is the easiest and best way for him to show that he means what he says.

The Dalles T. M. High jinks reigned in the east end last night, a number of parties from the country having been too promiscuous in sampling beverages, and as a result one of them who slept in the streets is short \$40 that were extracted from his pockets during the night. Another who was overburdened with cash loaned \$50 to a supposed friend and today is unable to locate the borrower.

Glacier. Neighbors are kind up in Sherman county. Bro. Ireland of THE OBSERVER says: "We have sympathy for the poor man who has to work for low wages, but we have just as much sympathy for the poor farmer whose blighted fields make it impossible for him to pay more. If THE OBSERVER force had to pay bond this paper wouldn't be published." Say, Sam; we batch.

John P. Irish claims that the gold standard was established by the democrats in 1860.

The trouble in the Nebraska candidate's case is that there are too many band wagons.

Mr. Sewall still has plenty of time to withdraw, and thereby save his leg from being drawn out.

Popocrat is the suitable designation to distinguish between democracy and the Bryan usurpers.

Tired to death by political combinations Chairman Harrity retires to private life leaving democratic head-les.

Oregonians who will be at the Milwaukee meeting of the National Republican League on the 25th are preparing for the trip.

Several thousand populists and democrats may now be heard calling Mr. Sewall's attention to the fact that "it is up to him."

The fools be not all dead yet. Watson thinks his candidacy "has saved the populist party!" How about the party saving Watson?

A great peace discussion has been in session in London, contemporaneous with the work of completing more new big ironclads for the British navy.

Joquin Miller says that if any man is caught in the act of saying that he (Miller) is going to assist the populists in this election—"shoot him on the spot."

It is enough to make even Mark Hanna's work look unimportant to see Senator Jones in his great speciality of conducting affairs in three rings simultaneously.

It is only a matter of eighty-seven days, and the public can stand it until that time, but after Nov. 3d the first man who begins an explanation of the currency question will be deservedly and promptly slain.

If Mr. Watson cannot show up for publication a picture of a home having a portico around the front, he is certainly lost. He may be forced to get out of the middle of the road so that the rest of the candidates may get by anyhow.

"It is immaterial, in my judgment," said William J. Bryan, in the house of representatives, when the Wilson bill was under consideration, "whether the sheep grower receives any benefit from the tariff or not. Whether he does or does not, I am for free wool."

A private dispatch from Senator John H. Mitchell, dated Atlantic City, N. J., says: "I expect to reach Portland not later than August 15th and will do all in my power to hold Oregon in the republican column, but I cannot make any arrangements to speak until after reaching home."

If the sound money democrats fail to support McKinley, when sound money or free silver repudiation is the vital issue, they will place themselves in the attitude of a man who is willing to see his neighbor's house set on fire, with the wind blowing toward his own, because of some old grudge about the boundary line.

Ben. Harrison's decision to take the stump for McKinley and sound money offends two classes—the silverites, who fear his arguments, and the fossils who think it a lowering of the dignity which should hedge about a former occupant of the presidential chair. But the office of president was never intended to deprive its occupant, on retirement, of any opportunity for future usefulness.

Business Locals.

L. Clark is agent for the Buckeye and Osborne reapers and mowers. Best machines made. Terms easy.

Fresh fruit, oranges, bananas, cherries, strawberries, etc. in season at C. H. Williams' in the Delmonico building Main street Moro.

Any one wanting small packages from Portland instead of having them sent by express can get them cheaper by the Regulator and Dalles Moro stage line.

A full line of crockery, glassware etc., has been added to R. J. Ginn's stock. Young people setting up in households, bachelors, heads of families—all are invited around to inspect these goods and prices.

Donnell's drug store is still at the old stand opposite A. M. Williams & Co.'s store. Call when in need of drugs or any thing in the drug line. Orders sent by the Dalles-Moro stage will receive prompt attention.

While making a special feature in the line of fine and fashionable hats at the very lowest prices, Mrs. M. E. Briggs the leading milliner at The Dalles, always has a complete stock of other goods bought in the east, and sold at eastern prices. Give her a call.

The Eastern Oregon Land Company has one more Section of land in Sherman county for rent. See 33 Tp 28 R 17 E. This is a fine body of agricultural land and can be leased for a long time on easy terms—for full particulars apply to F. A. Hudson, The Dalles, Or.

The Wasco Warehouse Co. The Dalles have established a feed department in connection with their other business and have constantly on hand bran, shorts, rolled barley, whole barley, oats, etc., which they will sell at very lowest prices. They also keep on sale "Byers Best" Pendleton flour. If you need anything in their line give them a call.

Hayor & Co., the Moro Saddle and Harness dealers, have a splendid stock of harness and saddles on hand now from which to make selections, and they invite the attention of purchasers. The quality of these goods is equal to any in the market and the prices are as low as the lowest. Chain harness, carriage harness, saddles, etc. Call and sample these goods and prices before purchasing elsewhere.

Persons who are buying second-class fruit trees from abroad can get the same kinds of trees of Tillett for less money the Glacier says. He has 2,000 second class trees, two to three feet high, well rooted—Yakima, Spitzbergen, Ben Davis, Gano, King, Red Russian, Delaware Red and Jonathan—which he will sell for \$25 per thousand. Or, if you wish first class trees at regular rates, he can accommodate you.

NERVOUS Troubles are due to a suppressed blood. Serravallo's Sarsaparilla is the One True Blood Purifier and NERVE TONIC.
