THURSDAY............ OCTOBER 1, 1896

Oregon a doubtful state? Pooh; What are ye talkin' about? McKinley will carry Oregon by 20,000.

The gold democrat who ran for governor in Maine the other day hasn't decided yet whether he fell or was pushed.

"It is a mere pretense to attribute the hard times to the fact that all our currency is on a gold basis. Good money never made hard times." Maj. McKinley.

Returns from Maine cause populists to threaten to pull down the boy talker altogether and place Watson at the head of the ticket unless Sewall is withdrawn.

Any one with an insect powder warranted to exterminate gold-bugs, will hear of something to his advantage by addressing James K. Jones, Chicago, inclosing stamp for reply.

Every one of the eight congressmen elected so far this year is a stanch republican. A republican congress to support a republican president, is what is needed to bring about the return of prosperity.

Sewall is a gold-bug after the style of Altgeld or Pennoyer. He is a money lender as well as the Illinois anarchistic governor and his Oregon prototype; and makes sure to put a gold payment stipulation into every contract he makes.

If we fail, explains Groot, the official spokesman of the silver party, "our country will be despoiled, our institutions will be destroyed and our civilization will perish." Here 's a fine chance for somebodys little liver pills to demonstrate their worth.

Since Hoke Smith's accession to the Bryanites Mrs. Lease says ten thousand old soldiers who have been voting with the populists in Kansas will return to the republican party. Hoke's management of the pension bureau has hopelessly alienated the veterans.

Coin Harvey, who ought to be called Gold Coin Harvey now, is organizing a secret political order, the Patriots of America, all members of which must buy his new book. If the scheme works Harvey will soon have another batch of gold to lock up in a safe-deposit vault.

Senator Dubois bolted his party to get populist endorsement in Idaho as a certainty for his return to Washington, but he has been emphatically turned down all around. As a contemporary remarked, "he simply has committed the stupid blunder of throwing away his dirty water before he had secured a supply of clean aqua."

So great is the demand for Senator Mitchell from all parts of the state that the state central committee find it hard to meet all calls. The Oregonian says Sherman county has sent at least 20 demands for Mitchell but no date has yet been fixed for him. Senator Mitchell's time will be fully occupied this month, including many places in Eastern Oregon.

A cartoon in Punch, represents England as a good grandmotherly old lady on her way to market fallen asleep by the wayside, while a German peddler with his shears cuts off her spacious skirts. It expresses a situation the English have begun to appreciate. The leading press of England are now trying to arouse the old lady and induce her to bestir herself about her marketing.

"Better a thousand times enlarge the markets for American products than enlarge the mints for the silver product of the world," is what Maj. McKinley said to a party of visiting farmers. The utterance describes the whole situation. Free coinage will not create a demand for one extra bushel of wheat. It would not give employment to an idle laborer nor increase by the smallest fraction the demand for labor products. To the popocrat cry, "open the mints," McKinley says, "open the mills." The solution of the whole question is industry. Restore to us a policy which banishes idleness and the financial heresies which vex our politics will speedily vanish.

SOME POSSIBLE RESULTS.

A recent dispatch from New York refers to some possible results in the Empire state based upon calculations of the Vermont and Maine returns, by Chairman Hackett of the state committee. Mr. Hackett stated that the estimates made may appear to be so startling as to seem impossible, "but I see no reason why they should not hold good. The same reasons that actuated people in Vermont and Maine affect the people of every state and affecting the percentages of republican gain in Vermont New York should give a republican majority in November of 725,000. Taking the Maine vote as the basis New York should give 630,000 republican majority. When people talk about a republican silver sentiment in New York state they talk about something that does not exist."

* * *

Similar speculation in Maine was indulged on the result in Vermont. It was also highly satisfactory to the political experts who have noted that when the republican majority in the state election of Vermont preceding a national election exceeds 25,000 the republicans carry the union and elect their president. When it has fallen below that amount the democrats have won. The Vermont election is therefore always noted with interest as the vote affords a good basis for calculating the vote to be cast in November. Now that Maine has followed in the footsteps of Vermont and has gone almost solid for protection and sound money, but little calculation is needed to carry out the conclusions reached by Chairman Hackett. Whether the figures in his estimate are reached or not the magnificent republican victory in Maine is a certain precurser of victory in November and sends a thrill of cheer through all patriotic hearts in the nation.

If Tom Watson is so fast to make Sewell get off the popocrat ticket he ought to refund Sewall's $10,000. Sewall may know that he has had enough but he seems determined to keep his feet in the trough just the same. It is urged that the reason they desire to take him from the ticket had its inspiration in the fact that he is the only man connected with it who has ever shown any capacity for practical business.

The Washington organ of the popocrats, the old Intelligencer, runs the text: "A false balance is an abomination to the Lord, but a just weight is His delight," at the head of its 1st column and next to it is a map showing all states west and south of Pennsylvania as being for silver, while New England, New york, New Jersey and Pennsylvania are classified as doubtful. This may not be inconsistent but the map is a lie, all the same.

Lord Salisbury cannot justly be censured for inaction when the Powers are hesitating and when evidence is lacking that the moral force of the nation is really behind him in a determined effort to reorganize Asiatic Turkey. The Westminster Gazette cartoons, appealing frantically for an hour of Mr. Gladstone is in vain as that veteran is out of the lists for a popular agitation, and can only write letters about the unspeakable assassin on the worm-eaten, crumbling Turkish throne.

Revised returns from the Arkansas election afford republicans considerable satisfaction. Jones, democrat, received 3164 less votes than Clark, democrat, received two years ago. The populists lost 13,000 from their poll of two years ago. The republicans gain 400. The significance of all lies in the tumble from the heavy plurality of over 80,000 to a plurality of 33,000 or 15,000 less than two years ago, which has taken place since the first reports of the recent election were given to the public by the democratic managers with a view to offsetting the Vermont tidal wave.

This matter of the free coinage of silver and the degradation of the standard of value involves not only questions of money, but of honor and good faith. When their honor is involved the people have never failed to respond. They have complied with every promise and paid every debt contracted since the organization of the national government, as it became due. They have paid four-fifths of the debts contracted during the civil war and the prospect was hopeful that all of it would be paid before the close of this century, but this reversing of the standards of value, like the fire bell at night, has startled and alarmed the people. It must be settled by following the action of Washington, Hamilton, Jefferson, Benton, Hunter, Lincoln and Grant. Maintain silver and gold at par with each other at the present ratio until a conference among nations can prescribe common standards of value. Meantime, let no act be done, no policy be adopted, no expedient resorted to, that will tarnish the honor of this great republic.

NERVOUS Troubles are due to impoverished blood. Hood's Sarsaparilla is the One True Blood Purifier and **NERVE TONIC.**

Our Bigelow inquirer wishes to know why the boy orator Bryan carries a rabbit's foot in his pocket as a talisman, with the belief that it will bring him good luck and land him in the White House? This is an old superstition among the colored people of the south, as absurd as it is ridiculous. The legends of "B'rer Rabbitt" among the negroes, the clever devices in outwitting his natural enemies, the dog, fox and wolf, and thwarting every scheme designed for his punishment, are almost without number. From these legends of the prenatural sagacity of the living rabbitt came the idea that the dead rabbitt had certain magic powers. The negroes believe that to carry a rabbitt's foot in the pocket is not only sure to bring good luck, but is also a specific for certain diseases. The left hind foot of the rabbitt is believed to have the most efficacy, and if it is taken from the rabbitt that runs in a graveyard its preternatural properties are believed to be irresistible.

While THE OBSERVER is strictly non partisan it never fails to embrace an opportunity to do good; hence it is positive in the conviction that the only salvation for this government is the election of McKinley and Hobart next month. The editor of THE OBSERVER has seen 42 years service in the sanctum; never yet publishing a paper in a decaying town or city. He believes what he proclaims and is proud of his newspaper record.

"It is immaterial, in my judgment," said William J. Bryan, in the house of representatives, when the Wilson bill was under consideration, "whether the sheep grower receives any benefit from the tariff or not. Whether he does or does not, I am for free wool."

That Wonderful Churn!

I want to add my testimony to the list of those that have used the Lightning Churn It does all that is claimed for it; you can churn easily in one minute, and get a large percentage more butter than with the common churns. I never took the agency for anything before, but so many of my neighbors wanted churns, that I ordered 30 and they are all gone. I think in a year every farmer will have a Lightning Churn in fact they can't afford to be without one as they make so much more butter and a good little bit of money can be made in every township selling these churns By writing to J. F. Casey & Co., St. Louis, Mo., you can get circulars and full particulars about the churn. 3 A READER

I MEET DALLES PRICES.

I shall not wait to rent a hall, or obtain speakers, or hire a brass band. I have already placed on sale my first consignment of new fall goods. Either "gold bugs" or "silverites" can share in the distribution of seasonable merchandise at prices which will at once be the surprise and delight of those who appreciate exceptional values.

There has never been a season when shrewd buying could accomplish so much. The result is that the goods I offer this fall are the best value I have ever been able to give. It will be to your own best interest to pay me an early visit.

Marry this Girl, Somebody!

I have been reading in your paper about several men and women that have been very successful selling self-heating flat irons and I concluded I would see what a girl could do. I have worked 12 days and have sold 151 irons and have 218 dollars left after paying all expenses. Everybody is delighted with the iron and I sell one almost every place I show it, as people think they can't afford to be without one as they save so much fuel and time and don't burn the clothes. I know I can clear five thousand dollars in a year. How is that for a girl. 3 A GRADUATE

Splendid my girl, splendid, you are a true American girl. Anyone can get complete information about the self-heating iron by addressing J.F.Casey & Co., St. Louis, Mo. It seems to be a winner, as everybody selling it writes in its praise.

A dandy Windmill make it Yourself

I have a neighbor that made one of the People's Windmills and I have been watching it closely, it is the best mill I have ever seen and anyone can make one for less than $10. I am going to make two immediately and don't see why every farmer cannot have a wind mill when he can make it himself for so little money. The mill is durable, powerful and runs easily. Any person can get diagrams and complete directions by sending 18 two cent stamps to E. D Wilson & Co., Allegheny, Pa., and any active man can undoubtedly make money any where putting these mills up for others, and I see no use of paying $50 or $60 for a mill when you can make one just as good for $10
