A green melon peddler from Wasco county struck Moro last week. Why don't people buy their fruit at home of producers like Matney and others, whom we are acquainted with?

Come in and subscribe for THE OBSERVER. Now is the time. You don't want to miss a whole lot of good, hard reading, that is now being published in The People's Paper.

The Leader says 80 acres of the Ginn place near Weston which was threshed last week averaged fifty-two bushels to the acre. This is the largest yield yet heard of in the Wasco region.

Pendleton farmers are talking of one-dollar-wheat and indications are that very nearly that price will be realized. Wheat in San Francisco is creeping up toward the dollar mark, which means an advance here.

The C.C. Co. have lumber on the ground for a platform at Wasco. They are under no obligation to any wheat concern or exporter. They handle wheat at all points and at any shipping station, from The Dalles up.

N. P. Hansen, the popular Monkland merchant, returned from the metropolis Monday. He has taken stock in the Moro Mercantile Co. and his store will be included in the new arrangement. An account of his stock is being taken today.

Messrs. Swann & McInnon were in Moro on the 15th, looking over the new residence of Hon. W. H. Moore with a view of contracting for the painting. The improvements going on here revealed to them the idea of at once becoming residents in Moro.

Page & Parry at Moro city market have constantly on hand fresh beef, bacon, bologna sausage, etc. They will run their wagons over same routes that they have for past two years and will make it a special object to get meat to their customers early in the day and in good shape.

The German traveler Von Hering has discovered in Brazil a species of ants which have regular summer and winter resorts. In winter they live on the ground, in summer in big nests constructed on trees in order to escape the danger of inundation when the snow melts and the rivers rise.

Do you appreciate what a fine stock of saddlery, etc., Heydt & Co. carry in Moro? Call and see their padded seat and roll saddles. Extra fine buggy and team harness, whips, robes, etc., too numerous to mention at bed rock prices. Repairing done to order on short notice at lowest rates.

Dr. Smith's conversations about things seen from and upon the top of Mount Hood are very interesting talks. For years people have heard varied reports about climbers experiences on the trip. Dr. Smith gives one a clear impression of what is to be seen there—the lessons learned from the trip.

Mrs. Briggs, the leading milliner of this region at The Dalles, carries an elegant stock. A fine display of suit and dress hats in new and exclusive styles, millinery trimmings and novelties latest styles of trimmed hats from \$2.00, upwards. Call when in The Dalles at Mrs. Briggs millinery store, Second street.

Mrs. Nellie Smith, Flora Bolton and Miss Cordia Ragsdale are enjoying a respite from the heat and dust of Moro in a shady camp on DesChutes under vines and branches at the J. E. Harris place. With the exception of a scare one night when Harris' pet cat attempted to enter the tent without speaking, the ladies are having a really good time.

Merit wins in the long run—always. Never fails. So with printing. Baltes & Co., 228 Oak, Portland, are doing a better business this year than ever before. One job calls for 30 tons of paper. There is not a printing establishment on the Pacific coast that can duplicate Baltes' work on brief for time; nor his average work for style and price.

Manufacturing industries are already reviving under the new tariff law. Reports from all directions show an increased activity, factories reopening and increasing time, and a general revival of industry.

Papers which are copying that screed about what Whitelaw Reid said about The Independent Press at that N.Y. banquet are simply advancing a libel. Mr. Reid never has uttered any such lying sentiment.

At Grand Rapids, Ohio, August 17th, \$1.00 per bushel was paid for 300 bushels of wheat by a seed company. It was No. 1 grain, according to account, but no better than the average Sherman county wheat this year.

Picnics on the Columbia are an almost daily happening now by the DPANCO steamers. The tourist finds them an oasis in the desert of dust stained travel from the Atlantic to the Pacific and the tendency is to cause cheerful recollections of the stop over privileges in Portland.

People who are not invited to social gatherings very naturally conclude they are not wanted; and people who trade feel the same way toward the merchant who does not advertise. If he doesn't ask for trade he evidently doesn't want it and it's a poor dog that isn't worth whistling for.

Master Rollin, son of Rev. Frank Spaulding, is 11 years old and having spent five years of his life in Brazil, speaks the Portuguese language fluently. He also sings songs in that language and has undertaken to make enough money by singing to pay for a lot in a cemetery in far-off Brazil in which sleeps the child of a missionary.

The abusive attacks of The Oregonian upon prominent men who do not fall down and worship Scott in his vagabond's attracting considerable notice. No man is exempt from vile utterances of The Oregonian if he attempt in any way to express an opinion contrary to Scott's idea and yet nobody in the state gives Scott the least credit for acting for any good purpose.

CASTORIA.

THE BEST CASTORIA IN THE WORLD.

Criminal neglect of some people is astounding. The barbed wire fence for miles along the north line of a section west of Rosebush is a menace to teams, not to say anything about damages liable to be inflicted by it to loose stock.

The fencing on 640 acres of bunch grass pasture, on the north side of the same road, will soon be as bad. Whose duty is it to attend to such matters?

The Pacific Coast Steamship Co. has established service on the route between Portland and all points in Alaska. Steamers carrying freight and passengers stop at Metlakatla, Mary Island, Ketchikan, Juneau, Fort Wrangle, Douglas Island, Dena, Glacier Bay, Kallistnoo and Sitka. This establishes first-class service to the Klondyke and Yukon. For rates and information call on or address A. H. Gayland, agent for O.R.N. Grant, Oregon.

On the first day of July the bill permitting the printing and use of private mailing cards, with a 1-cent stamp affixed, went into effect. The progressive business man will have his own advertisement conspicuously displayed and the printing of millions of cards will make more work for the American printer. The bill is approved by the postoffice department as it tends to popularize postal cards, besides effecting a saving to the government of the difference between the cost of the cards and the stamps.

Nothing equals an outing trip to Portland at this time of the year by the steamers of the DP and ANCO. The cool breezes on the Columbia are inviting, but there are numerous other conditions to be considered. Attentive officers, a luxurious dinner, a ride through the locks, the never ending and always alluring majestic scenery by this route contribute to make the trip one ever to be remembered. With a cuisine reputation and a spotless reputation the DP and ANCO will sustain the reputation acquired by the old time OSNCO.

Tue O. MAN spent a day last week with the harvesters. Wheat is turning out plump and nice but the yield has been overestimated. He made a trip around the field with J. W. Engberg in the new combined harvester and thrasher. That machine is all right. It ought to be advocated by all farmers' gives for the saving it is to the culinary department. With six men Mr. Engberg harvests and sacks 40 acres per day and every sack of it is under cover by 7:30 p.m. On summer fallow he uses 36 head of horses in the team, on volunteer 26 head does as well. This week this machine is at work in Bigelow. Farmers call and see it.

Horticultural Affairs.

An enthusiastic meeting of the Sherman county horticultural society was held in Moro Saturday. Vice President Huff presided and D.C. Ireland acted as temporary secretary.

It having come to the knowledge of the committee on pests that diseased apples, wind falls, etc., were being retailed to farmers at the price of good healthy fruit, it was resolved that the committee secure evidence of the fact sufficient to prosecute vendors of such stuff at the October term of the circuit court.

People who buy any such fruit are requested to make a record of it together with day and date of purchase and the name of the person or persons from whom such diseased fruit was purchased.

The secretary was instructed to furnish a copy of these proceedings to Hon. E. Schanno, and The Dalles and Goldendale papers for publication.

Verbal reports favorable to the prospects of the October fair in Moro were received, and committees continued.

On motion the meeting adjourned until Saturday, September 14, 1907.

A Valuable Prescription.

Editor Morrison of Worthington, Ind., Sun, writes: "You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for constipation and sick headache, and as a general system tonic it has no equal." Mrs. Annie Stehle, 2025 Cottage Grove Ave., Chicago, was all run down, could not eat nor digest food, had a backache which never left her and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50 cents and \$1.00. Get a bottle at A. D. Bolton & Co's drug store.

The Glacier says that a sheep herder left a fire near Cloud Cap last week which required a desperate fight to extinguish, after which the herder returned and upon being questioned regarding the fire said he had left it so he would have to light his pipe with when he got back. There is law to punish a man like that.

The Moro Mercantile Co. is up to the eyes of every member in business. Besides carloads of sugar arriving, carloads of flour, etc., etc., and lumber on the way and arriving for three new stores, Matt Musgrove put in two days last week taking orders for dry goods, etc., and Newstatter Bros. man was obliged to stay here 24 hours taking additional orders. The M. M. Co. means business, sure and certain. The inventory at Ginn's closes today. The capital stock of the company will be increased \$20,000 more this week.

The Foundry Meeting held in Moro Bros. hall Wednesday evening was largely attended by a class of representative citizens. Sheriff Holder was called to the chair. After stating the proposition to be to incorporate and establish a foundry and repair shop in Moro stock books were duly opened and incorporated, named, viz: John Daily, Wm. Henrich and D. C. Ireland, and a committee appointed to complete the organization. This is to be an institution in which every farmer and individual in the county should become interested. Besides repairs of all kinds, castings will be made, and in course of time farm machinery of every name and nature may be manufactured here at home.

Common ginger is a little ginger and something else. Schilling's Best

are what they are labeled and nothing else.

Major's Wasco Letter.

Mrs. W. R. Brock is quite sick with typhoid fever.

Mrs. C. Dunlap and daughter Mollie spent a few days in The Dalles last week.

Mr. Crossfield of Portland, brother of the genial George N., is up to spend a few weeks in our little town.

The C.C. Co. have lumber for the platform and will soon be prepared to receive and weigh all the wheat that is brought to Wasco.

A sad accident happened at the home of C. C. Huck Saturday evening about 10 o'clock. Two of the little girls, aged 10 and 6, were sleeping in a tent near the house. During the night the tent caught on fire. The flames awoke the oldest child, but she was not strong enough to get little Lucy out and before she could call her parents the tent was a solid flame. Mr. H. rushed in and grabbed the child, but before he was out of the tent the flames caught his breath and caused him to fall with the child. His oldest son and wife succeeded in getting them both out of the fire but the child only lived a short time. Mr. Huck is so badly burned that he was at once put under the care of a doctor. It is thought he will recover within a short time.

Sadie Steward

OF KINGSTON, N. Y.
Cured of Spasms by Dr. Miles' Nerve.

THE many cases of spasms, St. Vitus' dance and epilepsy that Dr. Miles' Restorative Nerve has cured, would alone give this great remedy wide reputation. Mrs. Walter A. Steward, 771 Broadway, Kingston, N. Y., says March 1896: "In 1901, while on a visit to friends our little girl was taken with spasms. We hastened home to our family physician. He did all he could but failed. We called several physicians but her tongue became partially paralyzed and the doctors said she would never talk again. Night and day we watched the poor little suffer and tried every remedy we saw advertised for such cases but got no relief. We began giving Dr. Miles' Nerve, and after taking four bottles she was running about as well and happy as ever." Dr. Miles' Remedies are sold by all druggists under a positive guarantee.
