The Observer.

OFFICIAL PAPER of SHERMAN CO.

MORO, OREGON.

D. C. IRELAND & SONS. . PUBLISHERS

WEDNESDAY..... NOVEMBER 10, 1897

Our old time friend Wm. Newton at Huntington has a mine which will turn out to be a wealth producer next year.

Hon. H. H. Gilfrey paid Oregon a brief visit last month and was agreeably surprised at the material advancement and substantial growth manifested on every hand.

The Gallagher mine in Baker county is taking out $400 to the pan, about $20 to the pound of dirt. Specimens of conglomerate worth $30 a pound were taken into Baker City recently.

The Dalles begins to reflect seriously about releasing her impending environment by constructing a railway Moroward. There may yet be time, perhaps, but it is precious; to meet the emergency.

A Walla Walla farmer threshed three large stacks of wheat this fall that were stacked in 1894 at a time when the more wheat a farmer had the poorer he was, for the reason that the grain barely paid for the sacks and threshing.

The "yellow jim jams" has turned greater New York back into the hands of Tammany, the very worst offenders in this country against the laws of political morals. In these recent elections Scott and his Simon-Corbett push greet the warning with ghoulish glee.

From the best authorities attainable the United States and Canada stand alone as the fortunate producers this year of even fair crops. From what can be learned from reliable sources one will have to go back decades to find such another serious and general shortage as exists especially on the continent.

One thing that operates to hold wheat down is that advices from the Australian fields are more flattering than a month ago. This causes English purchasers to hold off for better figures in America and since Liverpool is our market, we have to study conditions there. If Liverpool will not buy, we cannot sell. Another factor that depresses prices at Pacific ports is a scarcity of ships and the high freight rates. It is more than probable that some wheat will be carried over.

But few people in the Klondyke scramble recollect the old Alaskan enterprise back in the early '60's to connect the Pacific coast with England by a telegraph line through Siberia. After expending $3,000,000, building nearly 1,000 miles, the Atlantic cable caused abandonment of the project. Dalls' "Alaska, and its Resources," is about all that is left to tell the story. How differently might have been the history if the telegraph boys, in digging those post holes, had discovered gold!

The Dalles Chronicle has made a careful diagnosis of the distinctive characteristics of the disease which afflicts Harvey W. Scott, and pronounces it yellow jim jams. The unfortunate fellow "eats, sleeps, drivels and dreams gold! Sees nothing above, below or around, but gold! The very air is auriferous and everywhere he sees the magnified image of John H. Mitchell, feeding upon and destroying the golden glamour. Hobgoblins pursue his thoughts; visions of devouring fiends in the shape of free silver advocates, haunt him."

The great question in American politics today is sound money, but sound money is not an issue in the republican party, and any man who attempts to make it such is a disorganizer, and so far as his influence goes exerts it in the line of republican defeat. There is never any danger that a wrong cause, if presented on its own merit solely, will triumph in this country. The people of the United States are sound at the core. But they are liable to misleading and sometimes defenceless against subtle falsehood uttered by designing disorganizers whose ambition is to rule or ruin. The element conducting the Simon-Corbett push in Oregon revealed their selfish and mercenary motive at Salem last winter. They propose to kill off anybody standing in the way of their own political ambition, as Horace Greely was killed off, as Gov. Ferry was killed off, as Gen. Banks was killed off—but read the history of these and similar political slaughters to find how swiftly Justice has overtaken the offenders.

MORO MANUFACTURES.

Moro is now in fine progressive mood. The foundry building is nearing completion and the flouring mill project is ripe for incorporation. After that will come the woolen mill project. It has been decided not to wait any longer for the Great Falls Electric Co. A steam engine can be put into the foundry that will drive a dynamo to generate all the power that will be required for the flouring mill and woolen mill, at least for the first year.

When it was decided by the liberal hearted business men of Moro that, no matter what comes, Sherman county has elements of prosperity which must be accelerated, and every citizen in the county appeared to "second the motion," these enterprises, beneficial to all alike, were undertaken with a determination which means success. An evidence of that success is now visible to the eye in the imposing structure reared for the foundry and machine shop—let the good work proceed.

It is enterprises such as this that will keep Sherman county money at home and create here an Empire within our boundaries, developing dormant resources of the best county of its size in the United States. As we sit by the window and cast our eyes over the country seeing the best land that ever sprouted a grain of wheat we thank the providence that guided our footsteps in this direction. Our neighbors, wherever dispersed over the county, are all prosperous and feeling in good spirits. They are generally out of debt and have money left, so why not? And when they take our hand and express compliments for courteous treatment in Moro, they inquire about the flouring mill project and express a determination to become more closely identified, and are ready to subscribe for stock in the mill as they have in the foundry and machine shop. It is business like this which makes the people homogeneous.

Deer have been protected so long in Vermont that the beautiful animals cannot recognize man as an enemy. A recent law made the month of October open. The hunters went out and found enough deer but like Jersey calves they walked toward the gunners expecting the usual pinch of salt. Under such circumstances none but pot hunters would shoot the game.

The Hicks 1898 almanac is now ready and judging from its past history it will not be many weeks in finding its way into homes and offices all over America. It is much larger and finer than any previous issue. It contains 116 pages, is splendidly printed and illustrated on fine book paper, having the finest portrait ever given of Prof. Hicks. It can no longer be denied that the publications of Prof. Hicks have become a necessity to the family and commercial life of this country. Word and Works, aside from its storm, weather and astronomical features, has taken rank with the best literary, scientific and family magazines of the age. Do not believe hearsay and reports. See the almanac and paper for yourself. You will then know why they are so popular. They are educators of the millions and unrivaled safeguards to property and human life. It is matter of simple record that Prof. Hicks has foretold for many years all great storms, floods, deaths and tornadoes, even the recent terrible drouth over all the country. The almanac alone is 25 cents a copy. The paper is $1.00 a year with the almanac as a premium. Send to Word and Works Pub. Co., 2201 Locust street, St. Louis, Mo.

Cracker Jack Wasco Notes.

Carl Peetz was in Wasco last week.

Our postmistress was quite ill last week.

Dr. Sutcliffe returned from Goldendale last week.

Mrs. F. L. Bunnell returned to Centerville last week.

C. M. Brock has returned from a long stay in Potlach.

Members of the G. A. R. and W. R. C. visited Wasco last week.

Messrs. Chip and Hill of The Dalles were callers in Wasco last week.

The infant child of J. M. Hoag has been under the doctors care for the past week.

G. A. Brock was called to The Dalles last week on account of sickness of his child.

E. M. Leslie and family have returned and intend to make their future home in Wasco

A Dalles City gentleman was looking at our town last week with the idea of establishing another restaurant in Wasco.

THE WONDERS OF SCIENCE.

Lung Troubles and Consumption Can be Cured.

An eminent New York chemist and scientist makes a free offer to our readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of THE OBSERVER writing for them. His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by heartfelt letters of gratitude filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial chest and lung troubles lead to consumption which, uninterrupted, means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in THE MORO OBSERVER.

Total valuation since October 1, . $39,497 08

SCROFULA in its worst form yields to the blood cleansing power of Hood's Sarsaparilla. Thousands of cases have been perfectly **CURED.**

It is no more than fair that everyone should enjoy a part and parcel of this prosperity. We have accounts on our subscription books which we have been carrying for years and we need the money. Wheat is a good price and the yeild is fair. Perhaps another year may be unfavorable. If so we will be as lenient as possible but this year we must have our money and that right away in order to place the paper on a firm basis.
