The firemen were fortunate to secure the services of Mrs. Jas Tomlin to prepare the cakes, pies, etc., for their party July 4th. The culinary was just splendid.

"I have used Chamberlains' Cough Remedy, in my family for years and always with good results," says Mr. W. B. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by A. D. Bolton & Co

When death has laid its cold and relentless hand upon a kind and loving husband, the wife cannot be blamed for asking herself if all her years of devotion and work and helpfulness were worth the while, when it comes so soon to this tragic end.

If men would only take the most common sense precautions against the encroachments of ill-health, there would be fewer houses of mourning, and fewer women left alone almost helpless before the battle of life is half over. A man's liver and stomach are twin machines that work together, either to make or unmake. If they work wrong, they deplete and poison his blood. Impure and impoverished blood mean sickness and death. If they work right, they purify and enrich the blood. A man whose blood is rich and pure, and whose liver is active cannot well be unhealthy. Headaches, biliousness, indigestion and costiveness, which men generally disregard, are Nature's warnings that the twin mechanism, stomach and liver, is working against, instead of for him. Dr. Pierce's Golden Medical Discovery is the best medicine to use under these circumstances. It creates appetite, corrects all disorders of the digestion, invigorates the liver and fills the arteries with rich, red, healthy blood. As an invigorating, restorative tonic, it is far superior to all the malt extracts. It is the great blood-maker and flesh-builder. It does not build sickly, flabby fat as cod liver oil does, but the firm, muscular tissues of health.

"For the last nine years," writes William Miller, Esq., of 651 Mulberry Street, Reading, Pa., "I have been very poor in health. I suffered with a running sore leg. I tried many kinds of different medicines, and doctors without relief. Then I used three bottles of 'Golden Medical Discovery' and can say that I am entirely cured. I can now do as good a day's work as the next man."

Unfailable—Dr. Pierce's Pleasant Pellets for constipation and biliousness.

J. H. Berger was a visitor on the 5th. He and Mr. Vintin were down on business.

Huydan cures sleeplessness, bad dreams and night sweats. 50 cents. All druggists.

We do not like making any further apologies for nasty, dusty days in Moro. All sorts of palliating talk has no effect in producing a reformation here of the disgusting pranks of the wind.

A brilliant comet broke into fragments in sight of Moro one evening last week distributing itself over British Columbia, Alaska and other parts of the universe and into space north west of the pole.

Contract was let on the 1st to A. F. Peterson of Corvallis, to build the Sherman county court house on his bid of $6,665. Warrants for $6,000 will be issued by the commissioners and Moro subscribed the balance. Work has already begun.

Oliver Powell is the first farmer in this county to invest in one of Patison & Anderson's weed destroyers. It is a cheap machine for the farm when one considers its wonderfully destructive qualities on a fallow-field covered with weeds.

All irrigation at Harris', is done by a wheel in the DesChutes which carries 18 7-gallon self emptying buckets conveying 4800 gallons per hour to the irrigating ditches which carry water all through the place and causes the desert to blossom like a rose.

We found Mr. Vanderpool at Des Chutes receiving logs from the Metolis when we reached there Saturday for a two days rest at the Harris Resort. The logs reach the boom at the mill site in much better condition than the promoters of the enterprise expected.

Carl Peetz left 10 lbs of his surplus adipose at the Hadley Hot Springs, and came home to celebrate the 4th. He speaks in the terms of highest praise of the medicinal properties of the springs, and will return soon for additional treatment for his rheumatism.

A new and attractive feature, at Harris', one which will be a lasting benefit too, is the hot soda spring just tapped. The spring is 500 feet above the hotel, which is located in the finest grove in Oregon. The water is conducted through 2460 feet of pipe and runs all the time.

Hon. E. O. McCoy one of the squarest dealers that Sherman county farmers ever bought goods from, and the pioneer in trade; paid us a social call on the 4th. He and Geo. N. Crosfield, and J. S. Amos, married sisters, daughters of Mrs. McDonald at Grant, and all were here to celebrate our birth-day.

Ben Messinger lost a trail wagon over the grade on the Wasco side of the DesChutes last week. The rig was loaded with wool. Eight horses were hitched on at the time but four of which were useful for saving the entire outfit. The wagon and load was recovered after several days hard work. Isn't it about time that the Wasco commissioners did something to work that grade. Mr. M. has a legal right for damages.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G.M.Law, Keokuk, Iowa. For sale by A.D.Bolton & Co.

On their last trip to Harris', on the DesChutes J. M. Filloon caught 4, and Wm Henrichs 5, as pretty trout as we ever looked at, one of Mr. Henrich's catch would measure 13 inches and weigh proportionately. Besides trout they had one perfect white fish.

A quartet of Indians with four dozen coyote scalps were in town last week to get the much talked of bounty. So much red tape is required to make connections between coyote, Indian, magistrate, County court, Secretary of State and State treasurer—that Lo returned to his haunts clearly disgusted, muttering anathemas about the cutlus hyas tyees who framed the law.

The Farmers' Warehouse at Biggs is certain to be built. At the Locust Grove meeting Saturday enough stock was subscribed to insure the building of the best warehouse in Sherman county. The organization was perfected by electing the following named practical farmers a board of managers: J. M. Powell, Dell Porter, John C. and J. R. Kassberg, and O. W. Richardson. The building to be erected at Biggs will be 60 x120 feet in size finished in in rustic and painted.

Persons troubled with diarroea will be interested in the experience of Dr. W. M. Bush, clerk of Hotel Dorrance, Providence, R.I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by A. D. Bolton & Co.

### To Remove Freckles.

The July Ladies' Home Journal: A good cure for sunburn is made by slicing and soaking a cucumber for a few hours in milk, and bathing the face two or three times a day with it. Dry the face carefully afterward, using a soft towel. To remove freckles, mix one ounce of lemon juice, a quarter of a drachm of powdered borax, half a drachm of pulverized sugar, and let it stand in glass for a few days; then apply it and let it dry on the skin. Or apply with a linen cloth two tablespoonfuls of grated horseradish mixed with a teacupful of sour milk. If a girl freckle easily she should keep this lotion and use it frequently, being carefil not to allow it to touch her eyes.

### Is it Malaria or Alum?

Popular Science Monthly: Languor, loss of appetite, indigestion and often feverishness are the common symptoms of a physiological condition called "malaria." All these symptoms may be and frequently are the effect of the use of alum baking powders in food making. There is no question about the poisonous effect of alum upon the system. It obstructs digestion, prostrates the nerves, coagulates and devitalizes the blood. All this has been made clear thanks to physicians, boards of health and food commissions. So "highly injurious to the health of the community" does the eminent head of the University of Pennsylvania, Dr. Barker, consider the alum baking powders, that he says "their sale should be prohibited by law."

Under these circumstances it is worth the while of every housewife to employ the very little care that is necessary to keep so dangerous an element from the food of her family.

A pure cream of tartar baking powder, which is the only kind that should be used, ought to cost about forty-five to fifty cents a pound. Therefore, if you are paying twenty-five cents or less per pound, the powder is certainly made from alum.

Always bear these simple facts in mind when purchasing baking powder.

Miss Mary Smith, daughter of Mrs. Shastine of Grass Valley, personated the Goddess of Liberty. The honor of holding the ribbons over the prancing black and white horses in the team was given to Ike Lemon, also of Grass Valley.

Down at Harris' the good folk began celebrating Monday. The 3d being Johny's 53d birthday anniversary, two daughters, one daughter-in-law and four or five grand children grappled with the old gentleman and literally rolled him in the dust. It wouldn't have been so bad if he hadn't resisted the customary birth-day whipping.

### The Kind of Help They Had in Early New England.

**Menials Were in Some Cases Transported Convicts and Malefactors Who Sold Themselves Into Servitude.**

Domestic service in America has passed through three distinct phases. The first extends from the early colonization to the time of the revolution; the second from the revolution to about 1850; the third from 1850 to the present time.

During the colonial period service of every kind was performed by transported convicts, indentured white servants or "redemptioners," "free willers," negroes and Indians. The first three classes—convicts, redemptioners and free willers—were of European, at first generally English, birth.

Protests were often made against this method of settlement, both by the colonists themselves and by Englishmen, but it was long before the English government abandoned the practice of transporting criminals to the American colonies.

Of the three classes of whites, or Christian servants, as they were called to distinguish them from the Indians and negroes, the free willers were evidently found only in Maryland. They were received under the condition that they be allowed a certain number of days in which to dispose of themselves to the greatest advantage.

It is impossible to state the proportion of servants belonging to the two classes of transported convicts and redemptioners, but the statement is apparently fair that the redemptioners who sold themselves into service to pay for the cost of their passage constituted by far the larger portion. These were found in all the colonies, though more numerous in the southern and middle colonies than in New England. In Virginia and Maryland they outnumbered the negro slaves until the latter part of the seventeenth century. In Massachusetts apprenticed servants, bound for a term of years, were sold from ships in Boston as late as 1730, while the general trade in bound white servants lasted until the time of the revolution, and in Pennsylvania even until this century.

The first redemtioners were naturally of English birth, but after a time they were supplanted by those of other nationalities, particularly by Germans and Irish. As early as 1718 there was a complaint of the Irish immigrants in Massachusetts.

It has been said that a great majority of the redemptioners belonged at first to a low class in the social scale. A considerable number, however, both men and women, belonged to the respectable, even to the so-called upper class of society. They were sent over to prevent disadvantageous marriages, to secure inheritances to other members of a family or to further some criminal scheme.

Many of these bond servants sold themselves into servitude, others were disposed of through emigration brokers and still others were kidnaped, being enticed on shipboard by persons called "spirits." The evil of "spiriting away," both children and adults, became so great that in 1664 the committee for foreign plantations interposed, and the council created the office of register, charged with the duty of keeping a record of all persons going to America as servants, and the statement that they had voluntarily left England. This act was soon followed by another fixing the penalty of death, without benefit of clergy, in every case where persons were found guilty of kidnaping children or adults. But even these extreme measures did not put an end to the evil; and it is stated that 10,000 persons were annually kidnaped after the passage of the act.

The wages paid were, as a rule, small, though some complaints are found, especially in New England, of high wages and poor service. More often the wages were a mere pittance. Elizabeth Evans came from Ireland to serve John Wheelwright for three years. Her wages were to be three pounds a year and passage paid. Margery Batman, after five years of service in Charlestown, was to receive a she goat to help her in starting life. Mary Polly, according to the terms of her indenture, was to serve ten years and then receive "three barrels of corn and one suit of penistone and one suit shirts of dowlas and one black hood, two hifts of dowlas and shoes and hose convenient."

J. M. Hansen died suddenly on the 3d. He was at home with his wife doing some light work when a faint took him. He told his wife he was dying, then passed into unconsciousness, again rallying, and expired within an hour. The shock is a very sad and severe blow to the family, with whom we deeply sympathise.
