One of Elwood Thompson's horses stepped on a stone in the road Saturday causing it to fall flat. In its struggle the carriage pole was broken. The family of John Kunsman arrived from Falls City last week and now John will be more at home in Moro—whenever his business will permit. Miss Inez Kunev, one of the examiners at the teacher's examinations last week, returned to Wasco on the 14th accompanied by Miss Rose Stanley. They found one man who has 29,000 acres of government land under fence in Oregon, and one with 30,000 in California. Warsaw Indianian: The silaced piece of wood to be seen in the show window of this office, is a specimen brought to this part of the world by C. H. Toms, of Sherman county, Or. Last winter Mr. T. visited his mother, near Milford, and brought this petrification along for the editor of the Indianian, but returning as he did without visiting Warsaw, there was no opportunity of sending it to us until a representative of the paper called at the home of Mrs. T. when she took the opportunity to send it to us. Mr. T. is engaged in fruit culture in Oregon and uses irrigation from the DesChutes river. He has been in Oregon for the past 19 years and likes that country for many reasons, though he still has a longing hankering for the "old folks at home."

What's the Matter with Moro? Talk of Cross Hollows does not seem to dampen the ardor of loyal citizens in Moro. There is more building going on in the city this year than last. Besides the court house, S. S. Hayes is finishing a fine residence, E. Peoples another one, Geo. P. Higinbotham a massive ware house, J. B. Mowery a large fine barn and other betterments to premises in various parts of the town make a substantial showing. All of our mechanics and tradesmen are busy, shops turning out more work than ever before, and not a room nor shack in the place to rent. What's the matter with Moro? She's all right.

Sam McDonald's Moro Market has as good a selection of vegetables and meats as any market in the state. On Saturdays and Wednesdays you can get apples, tomatoes, squashes, turnips, egg plant, cucumbers, potatoes, onions, beets, carrots, string beans, chili peppers, cabbage.

Will Raymond took possession of the Moro art gallery like a man of experience last week. We are all sorry to lose Bro. Thompson from our midst, "for he is a jolly good fellow," but with Mr. Raymond at the head of the gallery counterfeiting the human presentment will go on just the same.

Dufur Dispatch: We have been informed that Moore Bros., of Moro, and the C. S. Ry. Co. have purchased land at Cross Hollows and will build feed yards, warehouses, etc., making that the terminus of the road, and anticipating that it will greatly affect the Dalles, not only as a shipping point but as a trading point as well.

Portland is making preparations for an exposition next month "that will excel any efforts heretofore." And as usual the country press are puffing it up for "head head tickets" hurrying their readers away to blow in dollars at the metropolis that might better be expended with the local dealers who advertise and scatter their profits at home.

The Dalles Chronicle: A few days ago a letter was delivered here that had been mailed in New York to L. Coster, Dallas, Texas, care of The Umatilla House. It fell into the hands of some one in Texas who knew where The Umatilla House is located, thus showing that the hotel is about as well known as the city of the Dalles.

All teachers who expect to teach in the schools of the county must be present at a teachers meeting to be held in Moro Sept. 7th, 8th, 9th, for the purpose of thoroughly studying the Oregon State Course of Study, which has been recently issued by the State Department and ordered introduced into the schools of the state this fall. No excuse except sickness will be allowed.

One day last week as Mr. and Mrs. Lot Rust Sr., were coming home from Wasco, an uncontrollable pair of horses behind them ran into and upset their buggy. Mr. R. was quite seriously injured and was taken to Mr. Leslies in Wasco, where medical attendance was quickly secured. At last accounts he was resting easy, but in consequence of his previous part paralysis is not considered out of danger.

If you want a real good old-time Johnnycake, put three cupsful of corn meal to soak with three cupsful of sour milk over night. In the morning add half a cupful of flour, two tablespoonsful of molasses, one beaten egg, a teaspoonful of salt, and finally a liberal teaspoonful of soda which has been dissolved in about half a cupful of sweet milk. Stir the batter thoroughly and pour it into shallow baking-pans which have been buttered well. Bake in a hot oven. When done it should have a fine crust and be about an inch and a half thick.

VanBiber, the good old dairyman who hasn't missed serving his Dalles city patrons with the lactical fluid daily for 34 years, drinks milk. He is proud of his record, but in telling it he invariably speaks of what he calls "a more wonderful record"—that of a man who worked in a brewery for 40 years "and never tasted" beer. Inferentially Mr. Van drinks milk. John Mathias, a well known stock dealer of Pulaski, Ky., says, "After suffering for over a week with flux, and my physician having failed to relieve me I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the satisfaction of stating that the half of one bottle cured me. For sale by AD Bolton & Co. The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. All the latest numbers of Leslies, Harpers, Pucks and Judges Publications kept in Holder's Free Reading Rooms, when one and all are freely invited to come in and spend a pleasant hour looking over the papers and magazines. About one month ago my child, which is 15 months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases but as nothing gave relief we sent for a physician and it was under his care for a week. At this time the child had been sick for about 10 days and was having about 25 operations of the bowels every 12 hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better, by its continued use a complete cure was brought about and it is now perfectly healthy. C. L. Boggs, Stumptown, W. Va. For sale by A. D. Bolton & Co.

It Was the Small-Pox.

Editor Shutt of the Heppner Times was able last week to write about his tussle with the small-pox. His copy was given to a convalescent, who read it aloud on the outside of the pest-house to one at a safe distance who took down the words and carried the article to the printer. One paragraph is as follows: "They may call it German measles, Norwegian mumps, Hungarian dyspepsia or Madagascar jim jama, if they choose; but if I haven't just emerged from a most horrible, loathsome, sickening, awful case of the small-pox, then I do not care to take any further active part in trying to reach a mutually satisfactory conclusion as to what the disease is. Three of the best doctors of the county have pronounced it a bad, though not necessarily dangerous, case of small-pox, and if 'seeing is believing' 'feeling' ought to be a whole lot worse. Therefore, I am in a position to corroborate the doctors' announcement with all the force of a prejudiced witness. Of all ailments and diseases, with perhaps the single exception of leprosy, small-pox is surely the most loathsome, painful, sickening, both for patient and attendant; of them all. A description of its horrible appearance on the surface of the body would be too repulsive for publication, and I should utterly refuse \$50,000 in gold coin to again come through what I have in the past three weeks."

We should be interested in having Bro. S. explain how it came to him. It would be a subject of public importance. We gladly appreciate his recovery. From the day that a young man starts out to seek his first position to the end of his business life, his health has a world to do with his success. When a young man applies to a business man for a position, his personal appearance has a deal to do with his outcome. "Personal appearance" does not mean dress alone. It does not mean exterior cleanliness alone. A young man may be clean, so far as soap and water will make him, but be disgraced by unsightly pimples, eruptions and abscesses on his skin. These are due to impurities in the blood. The blood becomes impure because it is improperly nourished. Instead of receiving the life-giving elements of the food, it receives the foul emanations of indigestion, biliousness and constipation. The reason that Dr. Pierce's Golden Medical Discovery is the best remedy for disorders of this description is that it goes right to first cause. It gives a man an appetite "like a horse." It facilitates the flow of digestive juices. It corrects all disorders of the digestion, and makes the assimilation of the life-giving elements of the food perfect. It invigorates the liver. It purifies and enriches the blood. It makes the muscles strong and active. It tones and steadies the nerves. It makes a young man look as he should—strong of body, alert of brain and clean and wholesome of skin. Medicine dealers sell it, and have nothing "just as good."

"I had written to my dear friend," writes Austin Ramsey, Esq., of Safford, Huntington Co., Pa. "I tried Pierce's doctors but got no relief. I thought it would set me up, it ticked and burned my body. The neighbors thought I would never be cured. I took your 'Golden Medical Discovery' and am now well."
