Figures Don't Lie.

It doesn't take much knowledge of mathematics to figure out the facts about that dread disease—consumption. Statistics long ago demonstrated that one-seventh of all the deaths in Christendom each year are due to consumption and consumption is the leading cause of death.

There is an almost certain cure and a positive preventive for this fatal disease if taken in time. The story of what it will do is told in the following letter:

"About two and a half years ago, when I was at Flat Rock, Ky., I was taken with severe pains in the chest which I began to spit up blood and was also troubled with night sweats. I was so short of breath that I could hardly walk half a mile at once, and I got the least bit worried. I would have an attack of phthisis (asthma) and almost die for about two or three days. I continued to try Dr. W. Pierce, and I related my case to him. He wrote me that I should take his 'Golden Medical Discovery' and use about six cents' worth. I began to see that it was helping me, and I continued to use it. I did so and have completely recovered in strength and in weight. I have not had the phthisis nor spit up any blood since last spring."

This great remedy—Dr. Pierce's Golden Medical Discovery—cures 90 per cent of all lung, bronchitis, throat and kindred ailments which, if neglected, lead up to consumption. It strengthens the stomach and makes the appetite keen and hearty. It invigorates the liver and aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect. It is the great blood-purifier and flesh-builder. Honest dealers will not urge you to take a substitute said to be "just as good."

Send for Dr. Pierce's Common Sense Medical Adviser. Price, Enclose 21 cent stamps to cover mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., for a paper-covered copy. Cloth binding ten cents extra. It is a thousand page book with over seven hundred illustrations, formerly sold for \$1.50. For limited time can be had for cost of mailing.

The Wood Proposition.

Union Warehouse Company Supplying all Customers at Actual Cost—Storage Rates Disclosed.

R. C. Atwood, Manager of the Union Warehouse Co. in Sherman county, was in Moro on the 18th, and informed us that the company have lately made a big deal in cord wood which enables it to supply its customers—that is, Farmers who haul to the Union Warehouse—with their winter supply of wood at lower rates than were ever before quoted for wood in Sherman county.

This deal enables the company to deliver wood at Hay Canyon or Demoss at \$4.50 per cord and at the Moro Union warehouse at \$5.00 per cord. Outside parties will be supplied at Hay Canyon or Demoss at \$5.00 per cord, or at \$5.50 per cord in Moro.

This offer is of course limited to the fall wheat hauling season. The company is not making a cent for itself in the transaction—but its aim is to accommodate patrons of the Union Warehouse.

During the discussion, concerning rates, Mr. Atwood stated that the Union Warehouse charges are but 50 cents per ton "from the time of delivery of this season's wheat until time for receiving the next year's crop—or until the wheat is sold or removed, at any of our warehouses in Sherman county."

Furthermore, said Mr. Atwood, we give the farmers the privilege of storing their grain in sacks without weighing or grading it if they wish to do so, piling it in lots separate and apart from other lots, and weigh it out to them in the identical sacks when sold or shipped, thus giving the farmer the full benefit of the increase in weight. We do this at any of our warehouses in the county, added Mr. Atwood, excepting Biggs and Rufus, barred on account of the sand which is there.

On Every Bottle of Shiloh's Consumption Cure is this guarantee: "All weak of you is to use two-thirds of the contents of this bottle faithfully, then if you can say you are not benefited return the bottle to your druggist and he may refund the price paid." Price 25c, 50c and \$1.00 at Bolton & Co.

Stencils to order at The Observer office. Mark your wheat sacks.

A Stringent Food Law.

Prohibits the Use of Arsenic or Alum in all Articles of Diet.

The law enacted by the Missouri legislature, a copy of which was recently published in our columns, and which prohibits the manufacture or sale of any article intended for food or to be used in the preparation of food, which contains alum, arsenic, ammonia, etc., places that in the lead in the matter of sanitary legislation.

Laws restricting the use of alum in bread have been in force in England, Germany and France for many years. In this country, in Minnesota, Wisconsin, Ohio, Michigan, Kentucky, and several other states, direct legislation in reference to the sale of alum baking powders has also been effected.

In several of these states their sale is prohibited unless they are branded to show that they contain alum, and in the District of Columbia, under the laws of Congress, the sale of bread containing alum has been made illegal.

Following are the names of some of the brands of baking powder sold in this vicinity which are shown by recent analysis to contain alum. Housekeepers and grocers should cut the list out and keep it for reference:

Baking powders containing alum:
K.C. Brand, Contains Alum
Mand. by Grant Chemical Co., Chicago
CALUMET Brand, Contains Alum
Mand. by Calumet Baking Powder Co., Chicago
HOMY Brand, Contains Alum
Mand. by Home Baking Powder Co., San Francisco
WASHINGTON Brand, Contains Alum
Mand. by Pacific Chemical Works, Tacoma
CRESCENT Brand, Contains Alum
Mand. by Crescent Baking Powder Co., Seattle
WHITE LILY Brand, Contains Alum
Mand. by D. Forster & Co., Tacoma
BEE HIVE Brand, Contains Alum
Mand. by Washington Baking Powder Co., San Francisco
BON BON Brand, Contains Alum
Mand. by Grant Chemical Co., Chicago
DEFIANCE Brand, Contains Alum
Mand. by Portland Coffee & Spice Co., Portland
PORTLAND Brand, Contains Alum
Mand. by Bono & Bunn, Portland

The housekeeper should bear in mind that alum makes a cheap baking powder. It costs but two cents a pound while cream of tartar costs thirty. The quality of the powder is therefore usually indicated by the price.
