### Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—driven from the system.

**Liko Sogots Liko.** surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted by the parent.

**The Six of the Parent.** In an early life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued. It not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

#### OUR DALLES CITY LETTER.

It has been some time since your columns have contained a contribution from my pen. I am glad to notice that your city is improving by building. There is no reason why Moro, with its fine surroundings should not become a city. Its splendid schools, churches, progressive people, all go far toward making the substantial nucleus of a good sized town.

The Tahoma has taken the place of the Gatzert on the river. When the submerged rock is blown out, just below the locks, explosives will be used.

Nearly all the wheat that will come to the Dalles has arrived. The White Collar Line pay 52c at their dock. Xty.
