The dead beat, like the poor, we have always with us. Most country merchants are liberal and generous; the nature of their business seems to make them so. They do not hesitate to subscribe liberally to charitable institutions; they assist in the support of churches and other worthy organizations; they are members of the best lodges; they are ready to aid those deserving persons who cannot always support themselves, but it isn't the drain of these things which is most keenly felt by the merchant. He knows what these expenses are and accepts them, after having calculated his ability to meet them. The dead beat is a strain upon the merchant's good nature and his pocketbook at the same time. If consumers realized what these parasites do to their community, how they compel higher prices and weaken general credit, they would take more vital interest in the dead beat and would drum him out of town. We have a few in our mind now whom Moro might well afford to dispense with.

The Dalles is getting a move on relative to the roads in the eastern part of Wasco county. Judge Lake opened his eyes and exposed sundry question marks and exclamation points in the dilating pupils, when The O. Man told him of the situation. The free bridge, on the road to and from this county, is about ready to topple over into DesChutes because of criminal neglect on the part of county officials on both sides of the river, and the vandalism of travelers who are cutting away the wood work to get fuel with which to cook their meals. That bridge cost \$9,800. Shall we let it go because certain grafters want to have the road leading to it abandoned. We respectfully invite the Judges of the county courts, Messrs Bourhill and Lake, and the Dalles Commercial Club, to investigate the necessity of prompt action in this matter.
