A MAN OF PLUCK.

Senator Patterson's determination to fight it out with his democratic colleagues over his right to vote as he pleases on the Santo Domingo treaty does not surprise anybody who knows anything about his record.

The Colorado senator owns a morning and an evening newspaper printed in Denver, and some years ago he had a quarrel with the union which resulted in a general strike.

The union succeeded in inducing every big advertiser in the town to take his patronage away from Mr. Patterson's newspapers.

Mr. Patterson thereupon bought a controlling interest in one of the largest department stores in the town.

He established an era of cut rates the like of which Denver had never seen.

He ran the entire range of department store offerings from needles to pianos and took ten or twelve pages in his newspapers every day to advertise the bargains.

Finally a delegation of advertisers waited on him and proposed a return to the former cordial relations.

Patterson, of course, accepted the proposition. He simply wanted to show them that he would not be bulldozed.

Hon. E. L. Smith was speaker of the house when Sherman county was created.

He fought the bill until Hon. E. O. McCoy consented to the present southern boundary line.

Gov. Penney signed the bill Feb. 25th, 1889, 17 years ago.

But for Mr. McCoy no Sherman county would have been created, and even after the act became a law a few hot headed zealots burned him in effigy.

While out south a few weeks ago Gov. Chamberlain hit the Soldier's home, at Roseburg, and was being entertained by an Old Veteran-unaware, and after the O. V. paid the governor and Com. B. F. Pike of this city some compliments for their attentions, he was informed that his guest was none other than Gov. Chamberlain, which was more pleasant than as if he had known to whom he was talking.

One of the latest big business deals reported from New York is that J. J. Hill sold his vast iron ore properties in the Mesaba range to the steel corporation.

He then bought all the Harriman stock in the Northern Pacific and Great Northern, and Harriman used the proceeds to buy the Illinois Central railroad.

In the deals a few hundred millions of new securities were placed on the market, and the railroad earnings will pay good returns on them.

A musk rat feast brought several hundred idiots together in the old town of Monroe, Mich.

The banquet was given by a model yacht club. After the Blalock rabbit chase last week, a dozen or 15 idiots assembled in Walla Walla to fill up on the dead trophies, feasting with disease.

Examinations made by physicians and by veterinarians show that rabbits generally are affected with a tubercular disease closely resembling tuberculosis. There are running sores.

There is one newspaper man in Detroit who recently had a glimpse of what the millennium may be.

Two successive visitors, when they came to announce their errands, stated that they had called to express their thanks for the course the paper had taken in certain matters with which they had no personal connection.

The life of an executive editor is one long vista of sour faces and his ears constantly ring with querulous objections.

The thousands who are pleased are much too apt to keep silence, while the individual who is disgruntled will climb four flights of stairs to tell of it.

How much pleasanter it would be if this were reversed, the kindly things said and the grumbling suppressed.

It may be remarked that this policy would be as advantageous elsewhere as in dealing with the newspaper.

The merchant who says he has all the business he can do and proclaims that he is perfectly satisfied with trade lacks the pluck and push of a true American.

The farmer who declares he is producing every pound of produce his farm is capable of, and will not put forth an effort to make a few more bushels of grain good on each acre when prices are high, is lacking in enterprise.

The mechanic who says he cannot turn out more trade from his shop and does not feel justified in putting forth an effort to do more work is behind the times.

Progress and advancement are the watchwords of the time, and the individual who is satisfied with present surroundings and has no inclination to better his condition or business is out of date.

This is a moving age, and the person who is not ambitious enough to get on top of the wave is liable to roll under the surf and be drowned.

What is true of the individual is true in connection with communities. The city, town or hamlet that does not get on top and ride is going to fall into disrepute; it is certain to not keep pace with the more progressive and up-to-date places.

Public spiritedness will bring a place that has no natural advantages into prominence, while conservatism will kill the best place in the world.

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on.

Millions of people throughout the world are living and in good health on one lung.

From time immemorial the doctors prescribed cod liver oil for consumption.

Of course the patient could not take it in its old form, hence it did very little good. They can take

SCOTT'S EMULSION and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

We will send you a sample free.

If you see that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Scott & Bowne Chemists 409 Pearl Street New York

Howard Turner, who has been working at Ashwood, arrived here Saturday bringing news that the Oregon King mine will be opened up and start work as soon as wood for fuel can be secured.

This is one of the richest mines in the Inland Empire, but it has been tied up for a number of years on account of disastrous litigation.

The Inland Empire. CENTRAL OREGON. Madras Pioneer.

Down in the Beaver Metropolis is an old chronic drunk named Hill, whom the police recommend for Oler treatment.

Sample copies of this paper may be had at The Observer business office—5c. per copy.

Novels, in great variety at the Rudolf Confectionary in Moro. All the most popular authors.

You can always find it profitable to use the classified adv. columns of The Observer. They bring buyer and seller together.

Early next month our stock for commencement programs will arrive, and teachers anticipating use of such material will do well to call at The Observer Book Store and see our samples.

Keep an eye on the Summer Lake region. Seventeen townships of so called desert land over there, which the government withdrew for irrigation purposes a year ago, are to be thrown open to homestead, and the district will enjoy the largest settlement this year of any in the state.

Madras has a hot air well, with the flavor of asphalt.

The Observer is the Sherman county paper you want.
