CHEAP RAILROAD TRAVELING. A reduction in fares from Pacific Coast points to New York, Boston, Montreal and intervening points, make the through fare \$58, is announced by A. I. Craig, general passenger agent of the Harriman lines in the Northwest, after a conference with passenger officials of other Northwestern roads.

The new rate becomes effective immediately and will continue until further notice. This rate is the result of a cut in tariff by the Soo lines and the readjustment in the east called for a similar cut in the price of through tickets. The rate from Spokane, Pendleton, Walla Walla and common points is now \$53. Tickets sold at the \$58 and \$53 tariffs will be good by way of Montreal and St. Lawrence River gateways, over either the Grand Trunk or Wabash out of Chicago.

How long the reduced rates will continue is only a matter of surmise. Some railroads predict that they will not last longer than the final week of June, although a continuation after that date is considered likely.

Publicity—did it. Taking advantage of his sudden boost into the center of the political arena through the passing of the most inspection bill by the senate on the spur of the disclosures said to be contained in the Neill report, Upton Sinclair sent a telegram to Roosevelt, urging him to make that report public, and in a newspaper article, said that the game of the meat trust depended entirely upon the suppression of this report. He ridiculed the talk about a congressional investigation, for which the packers would have ample time to clean up so that Packingtown would be turned into Spolestown, while the committee would march through with banners flying and the bands playing "We Never Done Nothing to Nobody." Thus the fears of the public would be set at rest, and "the condemned meat" industry would go merrily onward.

"You insist that you don't want anything disturbed there?" she responded meekly. "Well, I don't want my papers disturbed, but I don't want this sheet of postage stamps left there. Where shall I put them?" she inquired demurely, as she took them up. "Don't ask so many questions," he snapped, "put them anywhere out of my sight." "Very well, sir," she cooed, as softly as a dove. And licking them with her pretty red tongue she stuck the sheet on his bald head and walked out to seek a new situation.
