CHEAP RAILROAD TRAVELING. A reduction in fares from Pacific Coast points to New York, Boston, Montreal and intervening points.

Make the through fare \$58, is announced by A. L. Craig, general passenger agent of the Harriman lines in the Northwest.

After a conference with passenger officials of other Northwestern roads, the new rate becomes effective immediately.

This rate is the result of a cut in tariff by the Soo lines and the readjustment in the east called for a similar cut in the price of through tickets.

The rate from Spokane, Pendleton, Walla Walla and common points is now \$53. Tickets sold at the \$58 and \$53 tariffs will be good by way of Montreal and St. Lawrence River gateways, over either the Grand Trunk or Washab out of Chicago.

How long the reduced rates will continue is only a matter of surmise. Some railroaders predict that they will not last longer than the final week of June, although a continuation after that date is considered likely.

Demoss springs will celebrate on the 4th in a good, old fashioned basket picnic, in the grove.

M. M. S. POULTRY FENCING. HAS POINTS OF MERIT WORTHY OF ATTENTION.

The best features of merit in this fencing are found in its multitude of horizontal wires, that are set at right angles and cable every foot in the height of fence, to say nothing of the connecting wires; this, coupled with its peculiar construction, bars any possibility of its containing sagging or protruding together between posts doing away with the top and bottom board rail and fully one-half the number of posts ordinarily required, which reduces the actual cost of the completed fence. These items alone insure a saving of fully 50 per cent. to the user, without taking into account the fact that a fence with a top rail will be much higher than one without to be of equal service, for a top rail, being visible, marks the height of the fence and gives chickens something to light on.
