A woman suffragist says "women can vote as easily as they can try on a new hat." That statement is not encouraging enough to win over many opponents.

Small waists are again the style with women. However, there will be no change in the fashion of masculine arms. They remain very much the same as those our grandfathers wore.

A sure remedy for chilblains: Put the feet in water as hot as you can bear it; then add gradually more hot water for 20 or 30 minutes as hot as you can bear it; then dry off and the chilblains are gone. This treatment will prevent, as well as cure chilblains.

T. Clay Neece was a Moro visitor Tuesday.

Mr Pinkerton is here from Seattle for the season of 1907.

That boy and cow in the street will yet be the result of a horse play that may kill somebody. Then it will be stopped.

Church Sunday school, has been changed to an Ice Cream and Coffee Social. Admission free. U. S. Senator Fulton arrived in Portland on the 11th. Those who have seen him say that his appearance shows that the work of the winter has been very hard upon him. During the summer he will have an opportunity to regain his strength, and now that Oregon has once more a complete representation in congress Mr. Fulton may derive some pleasure from the next session, and all are harmonious workers.

Mr and Mrs M. E. Miller, late of Antelope, are now at home in Moro as well as they can be awaiting the arrival of their household goods. Mr Miller has opened a law office in the Opera House building, next door to the Dental parlors of Dr J. F. James. The Herald says, "the family will be greatly missed from Antelope, where they have resided so long, and a large circle of friends will wish them much prosperity and happiness in their new home."

Chris Anderson was in the city Monday, attending to business. An accident happened to him a few days ago which took from him his best pair of horses—that big span of handsome blacks. Davidson & Stranahan, of Hoodriver, have for a long time wanted the horses and calling Chris up by phone asked him to name his lowest cash price. Hastily, in a fit of abstraction, Chris by accident said: "\$400." Quicker than a scared rabbit could, cross Gordon ridge the buyers arrived, exchanged their check for the team and hiked back to the land of big apples. Chris watched the departure regretfully, but he kept his word and has other horses growing just as good.

Having purchased the Astoria and Columbia River Railway, the offices will be consolidated in Portland with the Great Northern and Northern Pacific system.

Road Supervisor B F Shull has abandoned the old Cohorn grade but is building a new and better one. That is the correct thing to do—good roads are indispensable.

County School Superintendent Bryant has been doing more than his duty in the interests of the rising generation. His visits to the various schools of the county are pleasing, sociable and profitable.

Buy the genuine imported avian carbolineum; the imitation being offered is only a temporary remedy if at all. If genuine one application lasts for all time. Ask to see our sealed packages. The Observer Book Store.

Dr Wainwright, of Scranton, Pa., advocates municipal ownership of public water plants as a permanent remedy for typhoid fever epidemics. We quite agree with you, doctor; but our observation teaches us that in some cases a healthful climate has more to do with "a permanent remedy for typhoid" than municipal ownership.

The predicted rush is on. All trains from the East now arrive heavily loaded with homeseekers, which means 55,000 new residents in Oregon in March and April. Moro can accommodate 30 families with means to purchase 30 comfortable little homes in a thriving, healthy community, where farming pays 25 percent annually on investment.

Secretary Garfield and Commissioner Ballinger, expect to spend considerable time in the Pacific Northwest during the coming summer "familiarizing themselves with the work of the Interior department." It is hoped that they will condescend to talk with a few representative citizens in Oregon, our Senators and Congressmen particularly.

A H Barnum of Lone Rock Stock Farm, spent a pleasant hour with us Wednesday. He lost several acres of his best hay land during the winter freeze, but it wasn't destroyed for pasture. He is making a specialty of pure blood Herford cattle, English Berkshire swine and single comb White Leghorn and Black Langshan poultry. If you are in need of pure eggs for setting see advertisement.

The S T Co are this week stocking up largely on staple goods, and have added the entire hardware stock of Carmody Bros. to their Moro business. The S T Co is not like a monopoly that don't give a continental for anybody or anything but themselves, and has built up a wonderful good trade here by showing a spirit of accommodation, of which we are proud. The merchants of Moro, who enjoy the confidence of the people, think as we exactly, about a hideous monopoly with a gang of "the people be d—" behind it.

An extra flue, guaranteed not to smoke, is to be placed along the outer wall of the S T Co building after the style of the good old homes of New England, in Colonial days. In the modern days, structures are put together with less regard to draft of chimneys than is paid to the suction of an ordinary Missouri meerschaum. Coal has much to do with sooty flues. If one can get canal coal no soot will choke the flue; anthracite is 2d choice, bituminous is never good. Remember this classification if your architect has bonused you with a make-shift for the smoke to get through.

Ed Sharp is not a resident of Moro however he picks up lots of business in Sherman county.

Mrs Adolph Heydt left Monday for an extended visit with relatives and friends in Portland.

Miss Hattie Lanphear visited over Sunday with relatives in Moro en route from Kent to Portland.

Mayor J O Elrod has been over into Gilliam making arrangements to have his Booths farm plowed and seeded.

As soon as the legislative assembly kindled that 25 per cent graft was hurriedly restored by the insurance corporations.

Chronicle: Miss Lee Littlefield, who has been visiting her uncle at Moro, stopped over for a visit with Judge and Mrs Bradshaw on her way home at Newberg.

Ladies of the Dorcas Society anticipate much pleasure from the announcement of the arrival here perhaps within a week, of Christian Hansen, the Scandinavian Violin Virtuoso, who is to give one of his grand concerts in the Presbyterian church.

The district fair bill for Sherman Gilliam and Wheeler counties, was vetoed on the 26th. We are astonished that our governor should keep on feeling "like a Jackass between two piles of straw," with reference to Inland Empire affairs, as expressed by himself at the Dalles open river association congress. Well, we are sorry, Governor; that's all.

The new postage stamps, with Moro printed in, will be a detective, as they cannot be sold elsewhere without creating a strong suspicion that the seller had stolen them. But how about offices interior, deprived of money orders, etc., where a lady sends a dollar to N.Y. City for a shirt waist? Then it is that Uncle Sam sleuth in the department of justice gets in his work.

G L Rohr, with the aid of Hon M T Nolan, has opened the road from The Villa to Free Bridge, and passed over it with teams to Rock Out yesterday, after supplies from the Dalles, via G S Ry. When work begins on the DesChutes Ry supplies will all have to come that way, cutting Sherman county out, unless the Harris grade is fixed. It is only 7 miles from The Villa to Rock out.

H F Hailey and Ella Rose were married on the 10th, at the home of B F Hailey.

Hon Joseph Gaston has a valuable contribution to the literature of Central Oregon, truthfully describing a region 200 miles square, watered with living streams and springs of pure water, rich in minerals and all that go to sustain a populous country; but wholly without railway transportation. We have "had an eye" on that country for over 40 years, and had hoped to see it opened to settlement next year possibly, but this infernal war against railroads by the hypocritical masses, destroying the credit of builders, and turning over their existing structures for somebody else to run upon the agrarian system, make us doubt if we ever will see Central Oregon as we had fondly expected to see it, and so we regretfully dismiss the subject—about as Mr Hill parts company with his noble ship Dakots.

To Patrons and Correspondents.

All locals will be run till ordered out, unless otherwise specified.

Don't send us for free publication anything of an advertising character.

Don't ask us to send you names and addresses of correspondents. That is a private matter between them and us.

Cops for ads, changes, etc., must be in the office before 2 o'clock p. m. Wednesday to insure proper care and attention.

Don't send us articles on politics, temperance or religion. Discussion of such topics only leads to violent and abusive language in the end.

Avoid personalities. Compliments delicately given are always acceptable, but even they must not be overdone, as the charge of incincerity is apt to follow a shower of pretty nothings spread broadcast.

Before coming to the city to trade readers are requested to examine The Observer advertising columns. Its active, wide-awake business man who advertises, consequently he is the most accommodating, sells the cheapest, and deals the most liberally in every way.

The Observer has been established nearly 21 years, and it has some subscribers who have received it regularly for more than half a score of years. Many of these object to having the Old Reliable discontinued at the time of expiration of their subscriptions, and for their benefit, as for other reasons, we discontinue subscriptions only when notified to do so, except by agreement made at the time the account is opened, when it is noted upon the calendar to be discontinued promptly at the time specified. All persons paying in advance at the time of subscribing, will have the benefit of the \$2.50 rate for two years, or the \$5.00 rate for five years. We send The Observer to any responsible person who orders it, though they may not send the money with the order, with the understanding that they are to pay 12 1/2 cents per month for it, until such time as they may wish to take advantage of the above liberal discounts. From this date we are prepared to discount rates to all leading Weeklies and Magazines published in the United States, to any prepaid reader of The Old Reliable Observer. Come with the money—as that is indispensable.

INVITE YOUR FRIENDS

To Come West this Year and See The Wonderful Oregon Country.

Hon J H Ackerman, superintendent of public instruction for the state of Oregon, has requested the Oregon Development League to supply the details of its work, and especially facts relative to colonist rates, to each county superintendent in Oregon. He believes that the splendid opportunity afforded the people of the Middle West to visit almost every point in Oregon, at the low rate of \$25 should be put before the schools, and that all teachers in the state should not only inform themselves of the facts but impart those facts to the students. This rate of \$25 includes all Missouri river points, St Paul and contiguous territory. The rate from St Louis is \$30 and from Chicago \$33. Tickets will be on sale from March 1 to April 30th. See article in this paper, from Gen. P. A. McMurray, on the subject.

There is an absolute hunger for information about Oregon throughout portions of the United States, which the country press is doing much to supply, freely and cheerfully as a general thing, while other sources, charging by the line for such work, get all the glory. However, it is a grand work we are engaged in, calling attention to this golden opportunity to increase the population and wealth of the state and we take pleasure in keeping everlastingly at it, as we did the "Made in Oregon" campaign, the Lewis and Clark fair, and the Jute Mill Endeavor.

MANY A \$20 WATCH

Is of no use because it needs a dollars worth of repairs. A watch in that shape represents money that isn't working, and money that does not work doesn't do its full duty.

If you own a helpless, useless timepiece, why don't you bring it to our repair department? We are well equipped to change it into an article that you can again depend upon.

Of course we charge for this service according to the extent of the repairs that are necessary. But in any event the amount will be very small, very small indeed, compared with the advantage of having a "stopped" watch turned into a reliable timepiece.

JOB PRINTING

Good Printing

conveys an idea of success. You may never see the man himself. It's his letter head, his envelope, his business card, circulars or catalogue. You size the man up by these things. What impression of a man and his business do you get if he writes to you on wrapping paper or axle grease stationery? How does yours look? Is it neat, tasty and modern? It is if The Moro Observer Job Department prints it. Better bring in that next job!
