FRIDAY.....JUNE 7, 1907

Don't send us articles on politics, temperance or religion. Discussion of such topics only leads to violent and abusive language in the end.

To insure publication, articles for The Observer must reach the office before noon Wednesday. The mail comes daily.

When you remit for The Observer use an express or postoffice money order, registered letter, or bank draft, payable to D. C. Ireland & Son.

A Blue Mark here will answer an inquiry, when entered upon our calendar, giving the date of the paper as the date at which your current subscription expires.

Difficulty in having your Observer changed may be avoided by sending the desired alteration to this office. Always give the name of the office from which you want it changed, as well as the one to which it is to be sent.

We are here to do printing, and if you want some done bring it to us or let us know and we will see you. If you think we are not extensive enough for your consideration—oh, go 'long.

We will not be responsible for the neglect of subscribers to notify us of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

Did it ever occur to you that it costs no more to produce printing that is pleasing to the eye than the other kind. The Observer is equipped with all modern facilities for doing good work at the very minimum of cost. Try us with an order and if it is not executed to your perfect satisfaction you need not pay for it.

There is a scarcity of teams to haul wool into Shaniko for baling and shipment.

Hon. C. W. Moore is writing several sketches for the press of the Inland Empire. These sketches are thrice welcome to the boys who were about out of copy and low in finances.

Unusual interest is being taken in the development league convention to be held in Portland June 21 22. The chief plans appear to be a co operative system to acquire full advantage of the colonist rates beginning Sept. 1st, and capitalization of the Live Stock Association. Both are commendable efforts.

Thousands of people are leaving San Francisco daily, in consequence of the complete disorganization of business conditions, owing to the brutal strike and the horribly outrageous civic troubles thru which the city is passing. The supervisors (so called) are about to revoke the franchises of the United Railroads on the ground that the company failed to operate cars 15 days! a movement favorable to the wealthy backers of the striking carmen, and nothing could be more discreditable than that the supervisors should seriously consider such a proposition as that, in view of the efforts the company has made to operate the system in the face of a most difficult situation, including a police force disloyal to law and order. That is the situation, precisely.

PORTLAND CEMENT AT HOME

We have been largely interested this week in a very handsome book of Denver building illustrations, showing the surprising extent to which Colorado 'Portland Cement' has of late years been applied to building in that state, and one might never know how much of the home product is used but for such strong reminders as this Denver booklet, filled with pictures of the most beautiful buildings in that city, hotels, library, churches, business blocks, court house, state capitol; in short, all the fine buildings of the city, in or about the construction of which Colorado 'Portland Cement' and Colorado Plaster have been used. It is an attractive lesson for us, as we have right here in this county, inexhaustible supplies of the very same kind of materials the Portland Cement Co. are using in Colorado, to manufacture an article equal in every respect to that which our builders are importing from foreign countries at enormous expense annually, freights and tariffs added.

As Oregonians we point with pride to the upbuilding of our own beautiful Atlantis restored; but cannot help thinking that it would be far more profitable and creditable to our Portland neighbors did they stimulate the production of home produced materials that so greatly enter into the construction of their new 'Rose City,' instead of so frequently suspending operations awaiting the arrival of another British tramp steamer from some foreign nation with another limited supply of cement on board. Did not the raw materials exist here in great abundance there might be reasonable excuses for the cent per cent capitalist to with hold any support from outlying enterprises, such as this, and others equally meritorious, to which The Observer has frequently reverted only to be looked upon disdainfully, as if to inquire, "What do you know about it?" Ask Thomas Edison. He has tested Sherman county hard pan, and we had no development league to back it up. "Seek and ye shall find."

Wide awake Idaho appreciates the information, and in less than 90 days after receiving it, Lewiston hustlers announce the completion of plans for the installation of a $300,000 cement plant for the Snake river, 25 miles above Lewiston, and a $35,000 pressed brick plant. The brick plant will be installed right away, and the cement plant will be installed in time to place its product on the market next year. The company have made ample investigations and tests and have reports from chemical laboratories and from practical demonstrators showing the product of the upper Snake river (practically the same as here) to contain all of the necessary elements in the proper proportions for the manufacture of a cement equal to the best imported product.

If you want to keep posted on all that is doing in Sherman county, you want The Observer. Terms $1.50 per year

The Observer has been established nearly 21 years, and it has some subscribers who have received it regularly for more than half a score of years. Many of these object to having the Old Reliable discontinued at the time of expiration of their subscriptions, and for their benefit, as for other reasons, we discontinue subscriptions only when notified to do so, except by agreement made at the time the account is opened, when it is noted upon the calendar to be discontinued promptly at the time specified. All persons paying in advance at the time of subscribing, will have the benefit of the $2.50 rate for two years, or the $5.00 rate for five years. We send The Observer to any responsible person who orders it, though they may not send the money with the order, with the understanding that they are to pay 12½ cents per month for it, until such time as they may wish to take advantage of the above liberal discounts. From this date we are prepared to discount rates to all leading Weeklies and Magazines published in the United States, to any prepaid reader of The Old Reliable Observer. Seemingly every politician in the United States, from Roosevelt to candidate for coroner, took advantage of Decoration day to inform people where they stood. The decadence of the loveable characteristics of the memorable day is seen in the dawning.

The Magic No. 3

No. 3 is a wonderful mascot for Geo H Parris, Cedar Grove, Me, according to a letter which reads: "After suffering much with liver and kidney trouble and becoming greatly discouraged by failure to find relief I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best remedy for stomach, liver and kidney troubles, by Moro Pharmacy; 50c.

Hon. Harry Lane was re elected Mayor of Portland on the democratic ticket Monday. Not because of his democracy, but because republicans permitted undesirable citizens to pilot the G. O. P. into meshes of pollution.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment which can only be had when suitable medicines ar kept at hand. ChamberlainsRemedies have been in the market for years and enjoy a good reputation. Chamberlains Colic, Cholera and Diarrhoea Remedy for bowel complaints. Chamberlains Cough Remedy for coughs, croup and whooping cough. Chamberlains Pain Balm, an antiseptic liniment, for cuts, bruises, burns, swellings, sprains, lame back and rheumatic pains. Chamberlains Stomach and Liver Tablets for constipation, billiousness and stomach troubles. Chamberlains Salve for diseases of the skin. One bottle of each of these five preparations costs but $1.25. For sale by Moro Pharmacy.

Pasteur is one of the very best draft horses that ever left France. His physical proportions are perfect, and he possesses in an extraordinary degree the high finish and great activity which has made the breed of Percheron horses so famous. His pedigree, like his individual merit, is the best that can be found in France, his ancestors on both sides being the most noted prize winners and breeders in that country. His sire Scipion, was a prize winner at the Universal Exposition at Paris in 1900. He also won 1st prize at the two greatest shows in France in 1901.
Pasteur, on account of his great individual merit won 1st prize in Collection, at the greatest Horse Show in the history of the world, at the Worlds' Fair at St. Louis, in 1904.
TERMS—$15 single leap, payable at the time of service. $20 the season, payable at the end of the season. $25 to insure, payable when the mare is known to be with foal. Mare and colt will stand good for services. Care will be taken to prevent accidents but will be responsible for none. Trading, selling, or removing the mare from the neighborhood, forfeits the insurance, and the money becomes due.
