

To the Trading Public of Sherman county

I wish to thank all those who have given me a share of their patronage since my purchase of the Sherman Trading Co. in Moro.

I want to earn the good will and esteem of everybody in Sherman county, not simply by being a "good fellow," but by giving every one a chance to buy goods at right prices.

To do this I wish to announce right here that this is a cash store and will be run on cash principles. It is not one of the kind that takes the money from one and sells another on time, both at the same price.

Goods bought at invoice from the Sherman Trading Co. are now on sale at as low discounts as the goods will stand. These discounts are worth to you five and ten per cent and even better on some goods.

It is evident that it would take considerable effort to re-mark these goods, hence selling them by discount. But new goods purchased will be marked and sold at as low figures as similar goods may be obtained, not only in Sherman county, but in the Willamette valley as well.

Beside discounts as above I have a large number of articles which am going to sell for cost. They are goods which I will not carry in regular stock.

In conclusion I want to say to anyone wishing to take advantage of the prices set by my store that you can do so on a 30 or 60 day basis by calling and making arrangement

W. F. Schuller, Moro

Our town trade is not neglected in our rush of harvest trade. J. W. Messenger & Son.

Mr. McNeil, the combine repairer arrived on Tuesday from San Francisco to resume his regular annual service in the Sherman county harvest.

This will be a good year for some of our Sherman county farmers to stock up with pure seed of every kind. Grain and vegetables were never so good.

Mr. Dakin of Hood River, and his daughter, Mrs. Ina Dakin DeMoss, of this county, have purchased a fruit farm in Washington county, including crops, stock and tools.

L. W. Shanks is still in the harness business at Grass Valley and is now ready to compete with any prices in his line this side of San Francisco. Several sets of 24-hand harness on hand that will be sold cheap.

A weekly newspaper is to be established at Silver Lake, to fight whisky to the bitter end. F. M. Christmas is putting up the dough and Wm. Holder, former sheriff of this county will be the principal pencil pusher.

Three days after Hatfields camp broke up on Gordon ridge the boy east wind came tearing down upon us in its mad flight of ecstasy, and for the want of something mean to do lay half a dozen splendid shade trees prone in its path.

It has been decided that the North Bank Railway division point shall be located at Cliffs, opposite Rufus, and orders have been issued for the construction of yards there that will require the labor of a large crew at least six months to complete.

The New Bigge is certainly a most deservedly popular hotel, and mine host, J. J. Heckard and wife, are entitled to a very liberal patronage. The table is supplied with everything nice, and the rooms are new, neat and clean.

Councilman Cochran went up the Wind river fishing one day recently, going up farther than ever disciple of old Isaac had dared to penetrate, and was rewarded with a catch of 166 speckled beauties that would average 14 lb. J. O. Elrod helped him to carry them into Camp Cascade Locks.

That bride raffled for at Rudolf's was made by a convict in the Deer Lodge penitentiary. It is sent the bride to N. W. Thompson, with a letter explaining the matter, and Mr. Thompson did what he could for the man. It was made of 7 different colors of horse hair, and was very elaborately mounted with ornaments.

Journal: The barbers of Sherman county have adopted the prices now in vogue all over the state, while the price for a shave will remain as at present, 15c, hair cutting has been raised to 35 cents, and a neck shave at 5 cents. The barbers say that the price of every thing else has raised and it costs them something to live, the same as other people.

The San Francisco fire was a test of the strength and reliability of the fire insurance companies doing business there, only five companies paid their losses in full, without a discount, and without a law suit. Four of these five reliable companies are represented in Moro by M. E. Miller.

While in Portland Mrs. James Woods had the pleasure of attending a reception given by Hon. W. H. Moore and wife, to Mr. and Mrs. J. J. Thompson, who have returned to Oregon, after a brief and most unfortunate experience in California, the worst of which included the destruction of San Francisco. The Sherman county colony in the Rose city, warmly welcome Mr. and Mrs. Thompson.

Mrs. J. H. Shearer died Sunday evening at their home at Shearer bridge, loved and mourned by all who knew her. To the bereaved husband and brother, and dear friends, left in sadness and deep sorrow, we extend our sympathy. The funeral took place in the Dalles Tuesday. Deceased was a pioneer of 1850, arriving in the Dalles when 2 years of age with her parents, Mr. and Mrs. Herbert. In April, 1863, was married to Mr. Shearer, and in 1871 they made their home at the beautiful DeChutes falls, which became one of the world-famous homes in Oregon, where the happily staid couple entertained thousands of visitors, travelers and tourists, who always held their host and hostess in grateful remembrance. But one of her 11 brothers and sisters survive, Geo. A. Herbert, of Cornucopia, former sheriff of Wasco, county, who was at her bed side during her last few weeks on earth. Hundreds in the inland Empire, particularly in the regions of her home, will sadly miss her.

What are you awaiting about? Isn't this summer?

Master Lloyd and Miss Hazel Dunahoo arrived home Tuesday, from a California visit.

Uncle Jas McMillin was a Moro visitor Monday. All are well and everybody up to their eyes in the harvest.

E. C. Davis, proprietor of the Grass Valley Barn, promptly attends all calls, day or night. Animals given the very best of care. Charges are right.

The Oregonian intimates that the scheme of the so-called rainmaker is to sell out to the government. Uncle Sam is an easy mark sometimes, but we have observed nothing about this proposition as yet, that calls for the surrender of the reclamation service.

Commissioner George Strubbe, an extensive wheat producer of the Eureka flat district, is authority for the statement that there is absolutely no danger from tumble weed mustard, so much dreaded by the farmers, if it is handled properly. He maintains that it is easily eliminated by the proper cultivation of summer fallow land, and cites a case to prove his contention, and asserts that "it is the negligent farmer who fails to cultivate his land that suffers most from noxious weeds of any kind which choke out the wheat."

Klondike school district has set an example for all other districts to pattern after, in building of a brick school house along modern lines for light and ventilation. H. A. Stuart, of this city, is the architect who has drawn the plans and specifications for this model structure, and without shocking his unpretentious ways and dislike of popular notice, we candidly assert that Klondike is going to have the best school house in Sherman county, in appearance, in style, and for the benefit of light for study, warmth for comfort and ventilation for health, and all within the limit of \$1,000.

Regular as The Sun

AN OFFICIAL ADDRESS.
Some Important Changes in the School Laws for 1907.
To School Boards of Sherman county, Gentlemen:
1. Every school clerk shall take the annual school census on the 25th day of November. See 1907 School Laws, p. 74, sec. 144.
2. Every teacher must file certificate and contract with the County Superintendent, or forfeit wages, p. 19, sec. 58.
3. Read carefully the new compulsory educational law, beginning on p. 67.
4. The County Superintendent may hold school board conventions. The chairman of the school board shall be a delegate to the convention. Each delegate shall receive \$2 for attendance, p. 30, sec. 61.
5. School boards shall purchase flags, and have them displayed during school hours when the weather is suitable, p. 71, sec. 134.
6. The County Superintendent shall require and receive monthly reports from the principal or teacher of each school, p. 29, sec. 57.
7. Hereafter, each school district shall receive \$7 per capita instead of \$6, p. 17, sec. 25.
8. School districts are required to have at least 4 months of school during the school year, p. 49, sec. 77.
In conclusion, permit me to say that I think it a good plan to make a written contract with some competent teacher as soon as possible, for the reason I fear there will be a scarcity of teachers this fall. Since Sherman county is prosperous this year I think it a step in the right direction to make a substantial raise in the salary of your teacher for the coming year. Salaries, not only of teachers but of all classes, are increasing rapidly throughout the entire state. Sherman county cannot afford to establish a low standard in anything. Let us keep up with the procession. Let us have better salaries, better teachers, better work, better schools.

Very truly yours,
W. C. BRYANT,
Superintendent.

Endorsed by the County.
The most popular remedy in Oregon county, and the best friend of my family, writes W. M. Dix, editor of the Oregon, N.Y. Journal, is Dr. King's New Discovery. It has proven to be an infallible cure for coughs and colds making short work of the worst of them. We always keep a bottle in the house. I believe it to be the most valuable prescription known for lung and throat diseases. Guaranteed to never disappoint the taker by Moro Pharmacy. Price 50c and \$1.00. Trial bottle free.

HEALTH SUGGESTIONS.

Never get cold feet, especially in politics.

A good way to treat appendicitis is to cut out the surgeon.

For palpitation of the heart quit reading market quotations.

Avoid late hours. When the clock strikes 23 it is time to go to bed.

Maladies which fail to respond to any other treatment should be treated with silent contempt.

If you are fat get thin; if thin get fat. Nature never meant you to be satisfied with your weight.

Be stinging is good for rheumatism. Those who have hives are seldom troubled with sciatica at the same time.

Remember, that care once killed a cat, and the man who has no more than nine lives cannot afford to worry.

Nose bleed is often caused by not minding your own business. It may be cured by calling the police and diving into the nearest drug store.

Scientific American: At the first indication of diphtheria in the home make the room close, take a tin cup and put in a quantity of tar and turpentine, equal parts. Then hold the cup over a fire so as to fill the room with the fumes. The patient, on inhaling the fumes, will cough up and spit out all the membrane matter, and the diphtheria will pass out. The fumes of tar and turpentine loosen the matter in the throat and thus affords the relief that has baffled the skill of the physicians.

The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed.

The critical period that determines its duration seems to be between 50 and 60 and proper care of the body cannot be too strongly urged during this decade; carelessness then being fatal to longevity.

Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Moro Pharmacy; 50c.

Colonist rates in effect Sept. 1st, continue until October 31st. This is the rate that brings the actual settler to Oregon, and means that people can come here from Kansas city, St. Paul, Minneapolis, and all the great territory between the Missouri river and the Rocky mountains, for \$25; to all points east of Umatilla, \$22.50. From St. Louis \$30, from Chicago \$33. The most important thing about this to remember is that these people must buy their tickets direct to the towns they want to reach. This is true with regard to Moro, The Dalles, Eugene city, Astoria, and any other city or town in the state. Many get the impression that they can go thru to Portland, and then continue their trip to point of destination, and it devolves upon each and every community to correct this erroneous impression.

It is with pleasure that I give you this unolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time, and if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not possibly have lived but a few hours longer, but thanks to this medicine I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy. Sam H. Gwin, Concord, Ga. For sale by Moro Pharmacy.

Avenarius Carbolinum is a germ destroyer. Decay being a germ, it destroys the cause of decay in posts or timber. The U. S. Government, the ORNCO, Multnomah county, and city of Portland, are making general use of it on bridge timbers, etc. It is the best chicken lice destroyer on the market, and will sweeten and preserve a water trough, pig pen, stable, etc., and keep away flies. It is a guaranteed article. The Observer Book Store is distributor of the pure article in Sherman county.

If human sympathy and brotherly love could avail to alleviate the bitter pang of such a sorrow as Mr. and Mrs. C. W. Moore experienced in the loss of their son Raymond, by drowning in the Columbia last Friday at the Dalles, says the Chronicle of Monday evening, their burden would have been greatly lightened yesterday, as they were surrounded by a multitude of sympathetic friends, besides a score or more of immediate relatives, and heard the words of consolation expressed. Not only did they recently acquired friends gather about them, but the high esteem in which they were held in their former home, and the love of true and tried friends, was expressed more deeply than words could tell, by the arrival of 50 neighbors from Grass Valley and 25 from Moro, to attend the funeral. In closing the sermon Rev. Poling commended to the sorrowing ones the great Comforter who makes it possible for all to say, "It is well."
