We will not be responsible for the neglect of subscribers to notify us of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

The reformer is usually the man who has gotten it in the neck.

John D. Rockefeller has been referred to recently as a socialist. But what good does it do to call him names?

Our polite friends, the Japanese, are well pleased with the honorable arbitration treaty just signed with Uncle Sam.

Though foreign counts may say they make only love matches, still, the dollars ring louder than the marriage bells.

There being 980 delegates to the Chicago convention, Mr. Taft will let other favorite sons have a few of them, as a matter of courtesy.

An 88-mile gale of wind put Chicago out of sight and hearing part of the 29th. Considerable damage was done, and many persons were injured.

If the Hoosier female Bluebeard survived, her defense would probably be that she was insane, with a hallucination that she was running a stock yards trust.

A lecturer in Boston declared that "our whole system of government is utterly antiquated and inadequate." He is supposed to be an escaped naval critic.

Japan isn't likely to seek war with the United States until after 1912. It has just seen congress hand out $500,000 for American participation in the Tokio exposition.

Zealous folks who are organizing crusades upon the fly, as "advance agents of death," do not agree with "My Uncle Toby," who thought there was room enough in the world for him and the fly.

E. H. Harriman has become an optimist as to the country's future. A practical man like Harriman has reason to be happy in being able still to enjoy the sunshine and the pleasant breezes of prosperity.

The Pacific Monthly for June is a special Rose Festival. Nothing proves the activity of Oregon and Washington communities so forcibly as a glance through a home periodical like the Pacific Monthly.

Of course it is not unnatural for members of the prohibition party to feel that they are responsible for the temperance movement that is spreading over the country. And, furthermore, it won't do any particular harm for them to feel that way.

The recent organization of an International Union for the extermination of rats, will be the first intimation many people have had of a menace to civilization that is extremely serious. It may be said to open a new chapter in the history of economic zoology. The formal launching, with so much influential support from scientists in all the great countries of this world wide campaign, means that the rat has been found guilty first of disseminating disease, and second, of impoverishing society. Every rat in this country, according to authentic data, costs 2 cents a day for its keep. In England from ½ a cent to 5 cents a day to the person upon whose property it preys. The Indian rat is the most expensive of all. There a rat consumes 3 cents daily on an average, in its mode of operations. If to the cost of board and lodging be added the expense of stamping out diseases spread by rats, the average specimen in civilized nations may be said to cost from 7 to 10 cts a day, making it not only the most expensive, but just now the most serious pest known to man.

A VERY WEAK ARGUMENT.

The New York Central Railway Company had a mile of dead locomotives photographed, at Elkhart, Indiana, last week, 121 in number, to be used as an argument for raising freight rates, a step which should logically tend to make still more engines dead. Meanwhile, the American Locomotive Co., of Schenectady, is building for the Central 135 new engines to be delivered this summer. As they are larger and stronger engines than the old, they will probably fill a mile and a half of track when completed. Why not photograph them?

Like other railroads, the Central pressed into service the past two years to carry a phenominal traffic, any old engine that would keep the rails. Being uneconomical in operation, these footsore veterans were bound to be retired at the first opportunity. They may, as piteously stated, represent a cost of $1,000,000, but they are worth now what they can earn as yard engines or will bring as junk. The way for a strong railroad to meet slack times is to cut its dividends. A weak railroads proper course is to become strong by passing through the water squeezing process of a receivership. To woo back prosperity by raising the cost of service is the very hight of folly.

Details of the election may be accurately stated next week.

Let us hope that the report that Secretary Wilson, of the agricultural department, will soon resign, is not true. Mr. Wilson can put more genuine poetry into his agricultural reports than any man who ever lived.

Gov. Haskell, of Oklahoma, has vetoed an anti trust bill because he "would not destroy the cow to kill the tick." The governor should take care. He will be condemned as a hireling of the corporations if he behaves in this way.

King Alfonzo is now 22 years of age, and has been receiving congratulations from President Roosevelt and other chiefs of states. Perhaps it may be worthy of congratulations when a ruler in the Iberian peninsula succeeds in passing another birthday.

Secretary Metcalfs statement that the battle ships of the Pacific fleet are better off as a result of their cruise finds a left-handed confirmation in the fate of the torpedo-boat Stiletto, which did not go to sea but was rammed and beached in Newport harbor.

It may be called a billion dollar congress, but there is some satisfaction in knowing that the largest increases in appropriations are found in postoffice, pension, army and naval bills. The people want to see the army and navy on the best possible footing. They will be benefitted by improvements and extensions in the postal service; and they are willing to provide for the veteran soldiers and the widows of veterans.

Excavations now going on near Thessaly, Greece, reveal some Doric columns evidently having formed part of the facade of a temple, which, however, had entirely disappeared, and given place to an early basilica, dating probably from the 6th century. The mosaic floor of this building, which represented various christian symbols, was found to be in a very good state of preservation. Among the minor antiquities discovered were some coins of Justin II, A. D. 570, found at about the same depth as the pavement.

DRY FARMING.

What has Been Done in Colorado may Be Done in Sherman County.

Great progress has been made in dry farming the past year or two. That is, a great deal more land is now being cultivated by the dry farming method than a year ago. As showing the advance of the work in Colorado, the Denver Post gives the following:

Total acres dry farmed in Colorado	300,000
Total acres dry farmed in Eastern Colorado	200,000
Increase over last year for the state	100,000

This shows that the increase in the acreage under dry farming during the year in Colorado is 50 per cent. We quote this to show what is being done in the semi-arid sections of other states, in order that those who live in the semi-arid sections of Oregon, may be encouraged to take up the work which has been very successful in Colorado, and which may prove beneficial in this county, by well directed effort.

CHAMBERLAIN HAS 1100 PLURALITY

With That Exception the Entire Republican State Ticket Has Been Elected.

CARRIES FOURTEEN COUNTIES

Counties Vote Dry and Cities Wet in Nearly Every Case—Prohis Make Great Gains.

Portland, Or., June 3.—Governor Chamberlain, Democrat, has carried the state of Oregon for United States Senator over H. M. Cake, Republican, by a majority ranging from 1000 to 1200. Chamberlain has been successful in 14 out of the 33 counties as follows: Baker, Clackamas, Douglas, Jackson, Josephine, Lincoln, Linn, Malheur, Marion, Multnomah, Polk and Union, and probably Lake. Mr. Cake has carried the remaining 18 counties, but his average pluralities are much smaller than his opponent.

Aside from the Senatorial fight, the Republican ticket made a clean sweep from Supreme Judge to Railroad Commissioner. W. R. Ellis was elected Representative from the Second Congressional District by an immense majority. J. W. Bailey was again re-elected to the office of State Food and Dairy Commissioner. Clyde B. Aitchison has been elected Railroad Commissioner, with A. N. Hamilton, who was defeated in Republican primaries for the nomination, as second.

Prohibition carried in many counties which were already dry and in which the question was resubmitted. The prohibitionists gained in a number of counties which had been partly wet, but in places like Portland, Salem, The Dalles and other important centers where the question was submitted, the local option people were defeated. In Lincoln county, formerly dry, the wets captured several of the larger communities.

Reports from the following counties show that they have carried as a whole for Prohibition:

Lane, Lincoln, Linn, Tillamook, Curry, Yamhill, Sherman, Wallowa, Crook, Douglas, Jackson, Josephine, Morrow, Polk, Umatilla, Union, Malheur, Wheeler, Gilliam and Grant.

Counties which voted against prohibition are: Marion, Clackamas, Coos, Washington, Columbia, Wasco, Harney, Klamath and Lake. Four counties did not vote on prohibition: Benton, already dry, Multnomah, Clatsop and Baker.

In Clackamas county, where the closest fight of the series was enacted, the wets lead with about 50 votes.

The appropriation for the State University has carried, and so has the appropriation for the armories. Equal suffrage has lost again, but the recall is running well, also the amendment to the constitution to increase the number of Supreme Judges. The corrupt-practice act to limit the amount of money spent by candidates in election has probably carried. Information on the amendments, however, is unsatisfactory and there will be nothing definite on these questions until the complete returns are in.

Line From Hanford Down to Pasco.

Pasco, Wash., May 31.—That the Great Northern railway has purchased the Hanford project near Priest Rapids and will immediately begin construction of a road from that point to Pasco, also from the rapids to Trinidad, connecting with the main line of the Great Northern, is the report brought to this city by George Armstrong, vice-president of Columbia Orchard Development Co.

Both the Northern Pacific and the Great Northern, as joint owners of the North Bank, will draw the bulk of wheat shipments from the Big Bend country by the construction of this road. The Great Northern, as soon as the road is completed, will be able to handle all traffic from that section to Pasco, thence over the North Bank to the sea.

Begin Steel Band Down Snake River

Huntington, Or., June 1.—The Northwestern railroad is about to begin laying steel. A carload of mules for the Utah Construction Company arrived last week. Men and teams are busily engaged hauling material and establishing camps along the route. Twenty-five miles of steel will be laid as fast as possible. Grading will be commenced at the same time on the surveyed grade at the end of Blake's Spur. No grading was done at this point last fall, when work ceased, as the old grade was used for a temporary track to Nagel, headquarters for the U. C. Co.

Marion County Remains Wet.

Salem—Returns from 29 precincts give Cake a lead over Chamberlain in Marion County of 49 votes and Cake is gaining gradualy. Indications are that he will carry the county by about 125. The same returns give a majority in the county against prohibition of 160, and in the city of Salem against prohibition of 97. Indications are that the county will go wet by 600 and the city by 200. Bushey, Republican, will carry the county against Frazier, Democrat, for County Judge, by 300, and the entire Republican legislative ticket, three Statement One and two anti-Statement One, will be elected. The armory bill will carry, but the university appropriation bill and single tax and woman's suffrage amendments are defeated.

Clackamas for the Governor.

Oregon City—Complete returns from 21 precincts in Clackamas County give Cake 1316 and Chamberlain 1545. The vote on prohibition, with 40 per cent of the vote to hear from, is dry 1512, wet 1510. The entire Republican county ticket, with the exception of Assesor and Sheriff, is elected. The county high school measure will be defeated, as will the University of Oregon appropriation bill, though it may not lose by more than 400.

Governor Carries Linn.

Albany—Chamberlain carried this county by a maority of 365, with three small precincts not reported. The entire Democratic Legislative ticket is elected. The Republicans will get the county offices with the exception of Sheriff. The county goes dry by an estimated majority of 450.

Union Dry by a Big Vote.

La Grande—Full returns from 10 precincts in Union County give Cake 557 and Chamberlain 621. Prohibition won in every precinct of the county, except one, and that one in the City of La Grande. There the majority was small, and the county will go overwhelmingly dry. Many estimate the lead to be about 500.

Cake Leads in Douglas.

Roseburg—Full returns from 26 precincts give Cake 1325 and Chamberlain 1291. Although the county is 1000 Republican, the Democrats have elected the Sheriff, Clerk and probably School Superintendent.

Columbia for University of Oregon.

St. Helens—Incomplete returns give Cake a lead of 75. Ellis will carry the county by 500. The university appropriation will carry by a large vote. The woman's suffrage is defeated.

Astoria Against Cake.

Astoria—Clatsop will give Chamberlain at least 250 majority over Cake. The other Republican state ticket carries the county by at least 500.

Cake Ahead in Lane.

Eugene—Partial returns from 24 precincts out of 50 give Cake 1235 and Chamberlain 978. The county goes dry by about 300.

Tillamook Favors Cake.

Tillamook—Fifteen out of 18 precincts in Tillamook County give Cake 534 and Chamberlain 453. Local option will carry the county by 70 votes.

Chamberlain in Malheur by 100.

Ontario — Chamberlain carried Malheur by 100. The Democrats elected the county judge, assessor, treasurer, surveyor, school superintendent and county clerk.

Cake Leads in Washington.

Hillsboro—Cake has 1250 and Chamberlain 1169 from incomplete returns. Dilley precincts went dry by 10 votes and the county result on prohibition is not yet known.

Jackson Boosts the Governor.

Jacksonville—Cake has 211 and Chamberlain 340. For prohibition, wet 277, dry 311. Except in the cases of Judge and Sheriff, the entire Republican ticket is elected.

Cake Ahead in Umatilla.

Pendleton—With one-half the entire vote of the county totaled in Umatilla County, Cake is 257 ahead. County precincts generally are being reported in Cake's favor.

Crook County Goes Dry.

Prine ville—Partial returns from 23 out of 30 precincts in Crook County give Cake 500 and Chamberlain 664. Local option wins in every precinct 3 to 1.

A Keen Retort.

"I am at a loss what to say!" shrieked the angry Mrs. Baktawker.

"Your loss is my gain," muttered her unhappy husband.—Cleveland Plain Dealer.

The Rev. Charles F. Aked, imported from England to take the pastorate of the Rockefeller Baptist church in New York, says ministers are "out of touch with the times," and have become a laughing stock. Is it possible that the 'commercialism' which he criticizes in the world is showing itself in a failure of StandardOil money to flow as freely in his direction as he was led to expect?
