Dr. C. Hartley, dentist, will be at Grass Valley 1 week of each month, viz. week following the 1st Sunday.

After 1 p.m. Wednesday, it is very difficult for us to handle copy that calls for changes in the form.

Mrs. G. E. James and children will visit in Linn county a while after the close of the Rose festival.

This years peach crop is likely to be so large that a lot of money will have to be expended for extra cans.

Gasolene stoves, the best made, at the Moro Hardware and Implement Co.'s store. They are money savers in their operation.

Superior round nickel tipped and rubber top pencils, two-for-5-cents and some for 10 cts per doz., at the Observer Book Store.

The beaten British court-tennis champion attributes his defeat in part to a cup of coffee taken by his rival as a stimulant before the last set. It is to be hoped that no dope scandal will arise as a result to cast a shadow on international athletics.

Mosquitoes have been subjugated in the Panama zone, and war will now be made by the health authorities there on rats and mice. Our sanitary representatives in outside territory have a very happy knack of accomplishing whatever they undertake.

Seattle promises that the turnstiles of its Alaska-Pacific-Yukon exposition will begin to click in exactly 12 months from last Monday. It has been decided to call its side-show department The Pay Streak, and is well advanced in all the preparations.

Panama and mens straw hats at the Moro Commercial Co.'s store arrived just in the nick of time. Call and sample the lot.

E. C. Davis, proprietor of the Grass Valley Barn, promptly attends all calls, day or night. Animals given the very best of care. Charges are right.

The inventor of the telephone says the problem of air navigation has been solved. Now if he will bring out the promised cheap runabout storage machines, the summer will pass trippingly.

An English lecturer asserts that trees grow in the coldest parts of Siberia, and will be found at the north pole. Now it is clear why the movement to reach the pole continues. Men like Pewter and his timber grabbing gang of thieves are in it.

Low rates East are now on by the OR & NCo for this season as follows: Round trip direct to Chicago \$72.50; St. Louis \$67.50; St. Paul \$63.15; Omaha \$60.00; Kansas City \$60.00. CAN you afford to trifle with so serious a matter as to neglect a bad cold or cough, when for a trifling amount you can secure a bottle of Hickory Bark Cough Remedy, that is guaranteed to cure or money refunded? Price 25c, 50c and \$1.00 per bottle. For sale at Moro Pharmacy, and dealers everywhere.

Grandma Robertson, mother of Mrs. Emerson Barzee, died in Wasco last week, after a lingering illness. The remains were taken to Linn county for interment. Deceased was highly esteemed by a large circle of acquaintances who mourn with her bereaved ones. Upon the loss of one like Grandma Robertson, how precious is the thought that there is no death; the stars go down to rise upon some fairer shore; And bright in heaven's jeweled crown They shine forever more. There is no death; but angle forms Walk o'er the earth with silent tread And bear our best loved things away And then we call them dear.

For sewing machine supplies call on L. W. Ross, Wasco Jeweler.

C. K. Cochran and family are taking in the Rose festival.

Mr and Mrs G. I. Rohr were guests of Mr and Mrs Berrian Monday and Tuesday.

Miss Ida Mowry is nearly cured of la grippe, which she brought from Portland.

L. W. Ross has moved into his new home, recently bought, remodeled and enlarged.

There should be a lot of money in it for the man who first opens an air ship repair shop.

We understand that the director's gown, like nearly all other gowns, was not built for fat women.

The perfidy of woman has had another illustration in the case of Mrs. Guinness, who was false even to her teeth.

Washing the face may cure headache; says one doctor. But in the case of the average small boy he would rather have the head ache.

People who have the money to spare no doubt would rather contribute \$50,000 toward finding the north pole, than go themselves in search of it.

When congressmen are accused of doing nothing last winter and spring they can point with pride to the fact they restored in God we Trust to the coins.

A spider eats 27 times its weight in one day. Among the things for which a man can be thankful, at the present prices of marketing, is that he is built on a plan entirely different.

Now is the time of year when town people want to get out in the country, and country people want to come to town. And it is all right so long as they don't try to pass on the same track.

From the Long Tom and its tributaries, trout this year have a red hair like worm in their flesh just under the skin, which is about an inch to an inch and a half long. The worm seems to be coiled up in a kind of festering sore, and is easily pulled out.

Thoburn Ross, one of the Portland bankers tried in Marion county on charge of venue, and found guilty, has been sentenced to five years in the pen, and also a fine of \$576,853 to serve at \$2 a day. This is unquestionably the heaviest fine ever imposed by any court. It would require Ross to serve 790 years to dig out at the per diem rate.

A visitor to the Panama canal zone can have the privilege of an introduction to not less than 83 species of mosquitoes. 30 of them found no where else. Fortunately, they do not all bite, and the contagion of yellow fever is carried by only one of them. Certain genera, technically called uegarhina, psorophora and autzia, are found which, instead of spreading any disease hostile to us, wage war on their weaker relatives.

Ever since Prof. R. F. Robinson, Multnomah county school superintendent, introduced farm labor for pupils, as an amusement and instruction combined, the idea is becoming more popular every day, not only in Oregon but elsewhere. The Eugene Register informs us that pupils of the 6th, 7th and 8th grades of the public schools of that city, are now selling vegetables from their amateur gardens, and are making good money, having already taken in many times the money expended for seed, etc. One party of little people have sold 20 doz bunches of radishes to hotels and private families where the demand is for more. Bro. Robinson may feel proud of the work he has thus established. It is excellent employment for the children, and besides teaching them the all important lessons of the field cultivates habits of industry and the art of saving, and of keeping accounts, which will be greater aids to them in future than that "vaunting" ambition which leads to the foot ball chase and "blowing in the bottom dollar."

John Holman is up from the Rose city, and is busy with the spring work at his farm.

Jack Gibson took a bunch of horses to Vancouver, this week, aided by Star Ruggles.

In Crook county, where the fight for saloons was thickest, the people voted 8 to 1 for prohibition.

Judge Littlefield and family are off for their summer outing in the classic shades of Old Yamhill.

Pencils, 10 cents per dozen, rubber insert, Observer Book Store.

L. Barnum and wife took in the rose festival. Mrs. B. has been away some time visiting in Marion and Polk.

C. M. Cady, Moro O. R. N. agent, has been relieved by J. G. Bradley, and with his family is taking in the Rose festival.

When strawberries can be bought at 8-cents retail, 3 boxes for a quarter, buy some. That's all they are ever worth for any use.

A program is being formulated for the DeMoss Springs celebration that will interest you from sun to sun without wearying you.

Mrs. Reed Hulse and daughter are among the Moro crowd at the Rose festival. The trip will be better than medicine for Mrs. Hulse.

The annual school meeting will be held in Moro school house, Monday June 15, at 1 o'clock p. m. Remember the date, and be there.

Dr. O. J. Giffin accompanied Mrs. Nelson to Portland yesterday, with her daughter who goes to a hospital for treatment for appendicitis.

E. H. Moore and family will live in Portland this summer, where Mr. Moore will take a course of medical treatment in hope of benefitting his health.

That live stream of water in the cellar of the Moro Opera House ought to be conserved. It is a pure live stream, of much value in a dry year.

J. G. Bagley, who came up to relieve Mr. Cady, who is taking in the Rose festival, is a son-in-law of C. H. Stranahan, formerly of Rufus, now of Hood River.

J. A. McNeil had to quit work on the brick to take up his Combine repairing. He is now at work on the Johnston Bros machine, for W. F. Weigands & Co, Grass Valley.

The following teachers have been elected for the coming school year in Moro district: Prof. John Blough, Miss Julia Woods, Miss Jessie Reese, Miss Minnie V. Blough. Prof. B. has had a great deal of experience, having taught 10 years in one place.

Mrs. L. W. Ross and sons, E. and Carlisle, after attending the Rose festival in Portland, will visit relatives in Albany and Salem. Elfin and Carlisle will spend their vacation with grandpa in the Waldo hills.

The bouquets of Gloria d' Lionaise Hermon's pink, and Moss pink and white, brought to us this week from Robt. Villa attests that whenever Portland is in need of roses it may successfully turn its attention in the direction of Sherman county.

Word from Francis C. Ireland informs us that his wife Abbie was on the operating table at Portland one hour and 20 minutes last Tuesday, but was (at time of writing), resting calm in bed. Her trouble dates back nearly three years to the birth of Baby Paul.

Now, see here. Stand up and take notice. You should come out to the school meeting in Moro Monday, June 15th. How can you expect to have a good school? not by staying at home and sulking about it! I come around and show your hand, this time; Monday, June 15th.

Harvesting will be earlier than usual in Sherman county this year, if warm weather gets in its work in time straw will be light, and heads will be heavy. Cold as it is the present weather is growing weather, and the "outrageous winds" are laden with moisture.

We have received a copy of the very pretty Class Roll and Program with an invitation to attend commencement exercises tonight of The Dalles High School, Wish we could. We are thus honored by Miss Jeune E. Mullikin, valedictorian, whose name is on the class role. It is pleasant to be remembered, Jeune; and we thank you.

In Portland, just as the world is well started in the war against rats they quit it on the score of economy. That tells you of the sincerity and business acumen of 120,000 people along the banks of the Wallamet, who dead head buy only Oregon made goods, but make nothing that they can afford to advertise.

Iowa papers say the 2-cent passenger rate in that state has increased railroad profits. It is best to give the balance sheets a chance, before opening a confiscation account.

L. W. Ross has just received a nice assortment of Watches, gold, gold filled, silver and silver case, that he is offering at prices that cannot be beat anywhere. Wasco jeweler.

Work is now well under way on the 2d story of the new Moro Opera House. The arch in the vestibule should be ornamented with words: "Nil Desperandum," in letters of gold.

A Chicago attorney has been sustained by the court in his argument that stock yards are hotels for hogs, etc. He possesses qualifications to fit him for the position of customs appraiser.

Mr and Mrs J. P. Strahl celebrated the 25th anniversary of their wedding on the 3d. What food for reflection there is in a retrospection of a quarter of a century of happy married life.

The mill value of lumber cut in the United States last year was \$621,000,000. Before bragging about this immense wad of prosperity, the size of the hole it left should be estimated.

Since the Lewis and Clark Fair, when successful ballooning was introduced by young Beechy, in the Baldwin balloon Portland, which event appears to have been forgotten by the press, the growth of ballooning has led to many curious investigations touching the atmosphere and its inhabitants. By the use of self-registering instruments attached to anchored balloons, some of the experiments of deep sea sounding have been repeated aloft. At Strangberg sounding balloons have been sent to a height of nearly 28,000 yds, and 19,000 to 20,000 yds is not an uncommon height. One of the most important things said to have resulted in the discovery, at the height of 14,000 yds, of an isothermal zone in which, contrary to experience up to that height, temperature does not diminish with recession from the earth.
