There are a veritable host of campaign orators now practicing the keynote.

The democratic convention will meet in Denver Monday next, to nominate W. J. Bryan.

The Nation 'pointed with pride' at Chicago. Will it 'view with alarm' at Denver, next week.

Send The Observer to your absent friends. It is better than a letter, and gives all the home news.

Cuba to start a revolution in order to perpetuate American control? That girl will be using Uncle Sam for alleged breach of promise next.

The biggest guns and bombs failed to sink the Florida, and it is no more than fair to say that the renaissance of the monitor type has begun.

The bar at the mouth of the Columbia river has moved away, and the entrance to Astoria has 34 feet of water at high tide for more than one mile across the channel.

In declining the vice-presidency Mr. Fairbanks said of it: "No one is obliged to step down to it;" a truth that should never be overlooked by any National convention.

Mr. Bryan has twice been beaten by an Ohio man, and may regret that he is again called upon to face another son of the buckeye state which has proven so very unlucky for him.

It is rather mean, we admit to call attention to the fact that the astrologers read it in the stars that President Roosevelt would be re-nominated at Chicago.

A wealthy Italian in New Orleans after parting with several thousand dollars to "Black Hands," invited four of the band to dinner and shot and killed three of them.

The Chinese minister to the United States, Wu Ting Fang, paid a notable tribute to American educational institutions when, speaking of Chinese students in the United States, he said: "If you ask me who will exert the greatest influence on China's domestic and foreign policy in the next few decades, I answer, our young men who have been and are being educated in the colleges of America."

Many in America are interested in the arrangements in Russia for the celebration of Count Tolstol's birthday, September 10. There was a time when Tolstol had more admirers than he now has.

INLAND EMPIRE FARMING.

Under the system of farming in the Inland Empire, which is to crop to wheat one year then let the land lie idle, or fallow it the next, takes 640 acres to farm 320, and big farms keep people poor.

The New York World is misinformed. The rooting out of that obnoxious bar at the mouth of the Columbia river, had no connection whatever with the vote for local option.

The Chamberlain boom has reached Denver, and our popular George may be Bryans running mate, with the prospect of becoming president some day.

Several of our best exchanges have fixed United States Senator Charles W. Fulton for a cabinet position next year.

Citizens of Burns have been in correspondence with the commercial organizations of Portland for the purpose of enticing a big delegation of its business men to make a tour of interior Oregon next fall by automobiles, from Shaniko through Crook, Lake and Harney counties, and there is a prospect that the effort will be successful.

John Minto, the Salem pioneer, 86 years old, while waiting in the Eugene library to speak to Prof. Young, was offered the morning papers, but declined them and took from his pocket a small volume of stories, saying that he is a great reader and has for many years read for two hours a day something entertaining, just for company.

The exploring expedition of Duke Adolf Frederick of Germany in the volcanic region of German east Africa was overtaken by a remarkable and hitherto unheard of disaster; half his men being frozen to death by a terrific snowstorm which stopped their progress in the crater of Branca, about ninety miles south of the equator.

By a new arrangement with Italy a parcel may now be mailed to that country from any postoffice in the United States for 12 cts. per pound up to 11 pounds.

In the Canadian parliament lately a member, protesting against the passage of an anti-cigarette bill, declared that at the age of 15 years he was earning his own living and smoked, thus contributing to the revenue of the country.

It is now Theodore Roosevelt, Jr., A. B.; the lad seems to be getting up in the world—by degrees.

Both fish laws voted by the imitative are to be enforced. That is a ripe rotten way of government by the people, for the people, etc.

The New York World is misinformed. The rooting out of that obnoxious bar at the mouth of the Columbia river, had no connection whatever with the vote for local option.

Our Inland Empire.

July Lippincott's.

The tide of migration across the continent in recent years has been divided into two waves. One moves from Europe, New England, and older Middle states into the so-called grain belt: Illinois, Indiana, Iowa, Minnesota, Kansas, Nebraska and the Dakotas.

The Chamberlain boom has reached Denver, and our popular George may be Bryans running mate, with the prospect of becoming president some day.

Several of our best exchanges have fixed United States Senator Charles W. Fulton for a cabinet position next year.

Citizens of Burns have been in correspondence with the commercial organizations of Portland for the purpose of enticing a big delegation of its business men to make a tour of interior Oregon next fall by automobiles, from Shaniko through Crook, Lake and Harney counties, and there is a prospect that the effort will be successful.

Death of Mrs. E. W. Ansen.

Mrs Anson, beloved wife of our friend B W Anson, died at their pleasant farm home near Klondyke on Sunday last, of pneumonia, contracted with a severe cold taken on a recent visit to Hood river valley.

After the shower the tranquil sun; silver stars when the day is done. After the snow the emerald leaves; after a harvest the golden sheaves.

RHEUMATIC FOLKS.

Are You Sure that Your Kidneys are All Right and Well?

Many rheumatic attacks are due to uric acid in the blood; but the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive; don't daily with "uric acid solvents;" you might go on till tomorrow with them, but until you cure the kidneys you'll never get well.

Carl Peets, living on Main street, in Moro, Or., says, "Kidney complaint and rheumatism troubled me for many years and I finally became so weak that I could hardly walk. I could not sleep on account of the lameness and pain through my loins and back, and the kidney secretions caused me additional suffering, as they were so frequent in action as to cause me to arise many times during the night. I went to the hot springs, and I consulted different physicians, but was unsuccessful in finding relief, and was gradually growing worse when Doan's Kidney Pills were brought to my attention and I procured a box at the Moro Pharmacy.

For sale by all dealers. Price 60 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
