The Observer.

Moro City Official Paper.
OFFICIAL PAPER OF SHERMAN CO
MORO, OREGON.

D. C. IRELAND & SON.....EDITORS
C. L. IRELAND, MANAGER.

Send for advertising rates.

FRIDAY.....SEPT. 25, 1908

Church and Society notices FREE, except when for money making purposes. Such notices at regular rates at the option of the publishers.

Before coming to the city to trade readers are requested to examine The Observer advertising columns. Its the active, wide-awake business man who advertises, consequently he is the most accommodating, sells the cheapest, and deals the most liberally in every way

We will not be responsible for the neglect of subscribers to notify us of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

The sultan may soon begin to feel that there is no place on earth for an old turk.

When it comes to a matter of creating a precarious situation, Iowa "republicans" hold the record.

Send The Observer to your absent friends. It is better than a letter, and gives all the home news. Four months for 50c.

Heretofore the political campaign over in Spokane has been bloodless but now the announcement is made that Gore will be put into it.

Sales of special one way tickets from all points in the United states to all points in Oregon begins Sept. 1st, and continues until Oct. 31st. See adv.

Candidate Higsen was kissed by 20 women on the occasion of his formal notification, but otherwise his race for the presidency has seemed dull and uninteresting.

If it is true that the victories of Wellington and Nelson were won on the cricket fields of England, what a lot of incipient glory is piling up in the base ball arena of the United States.

South American financiers and railway builders, expect that at no very remote day travelers may land at Pernambuco and be taken across the continent to Valparaiso in four days, without change of cars.

The president wants congress to increase the standing army to 100,000. There is certainly 'standing' room in the country for a larger army, just as there is water enough to accommodate a larger navy.

The former sultan of Morocco will be permitted to keep his harem. Whether this is kind heartedness on the part of the new sultan, or because of the increased cost of living, the world may never know.

One of the Hiwaiian islands is to be elaborately fortified for a garrison of 15,000 men. The key of the Pacific is a great outpost, and it is no more expensive to keep a part of the army there than elsewhere.

Should the aeronauts hold a national convention this year it is probable that one of the Wright Bros., should either of them be spared from sudden death in some aerial flight, would be selected to head the ticket.

Long is the list of waifs who have become famous. It includes Sir Henry M. Stanley, Queen Catherine the Good, Alexander Hamilton, Rosa Bonheur, Edgar Allen Poe, Leonardo da Vinci, and dates back as far as Moses. All these were homeless children.

That was a dramatic scene in a Paris court when Capt. Dreyfus, on the witness stand to testify as to Gregori's attack upon him, reasserted his own innocence of the charge of treason long ago disproved thru the courts. The Bourbons rule no longer in France, but she has a people still who forget nothing, know nothing, learn nothing.

An agent of the Agricultural department, and an inspector of the postoffice department have been to Juliaetta, Idaho, to investigate the claims made by Abe Adams about Alaska wheat, reports that instead of yielding 200 bushels an acre, as asserted by the promoters, it yields only 25 to the acre and that the quality of the kernel is inferior, soft and white. It contains only 9 percent. of protein. The postoffice department will stop orders from coming for the seed, by issuance of fraud injunction.

DENMARK PROGRESSIVE.

The resignation of Alberti, Danish minister of finance, and his arrest upon charges of forgery have led to the resignation of the Christensen ministry, and to a season of excitement rare in a nation which has been happy of late in having no history. With the loss of Schleswig-Holstein, the Danes had had enough of military glory. They saw that at best a little nation in Europe lives at the sufferance of big ones which in war it may sting but cannot stun. They turned their attention to the encouragement of industry, and today Denmark is perhaps the country of all others in Europe where the average man is most prosperous. This condition is not unworthy the pride of the descendants of 40 generations of fighting Danes.

The Danish active army, 14,000 men, is the smallest in Europe. It is smaller than it was 30 years ago; while other armies have increased. Its navy is smaller than any in Europe except that of Greece. But the foreign trade of Denmark in 1906 was $20,000 for each square mile of its territory; $22,000 for each soldier in its regular army; $120 for each inhabitant. Germany, its military-mad despoiler, after a burst of prosperity that is the world's wonder, had a foreign trade of $54 for each inhabitant, $11,000 for each square mile, and only $5,400 for each active soldier. Denmark has little mineral wealth, but she has thriven by devoting attention to developing agriculture, brewing, and other manufactures. Denmark leads the world in dairying; American butter and cheese makers follow Danish methods. Danish butter holds the English market and tempts a host of imitators. It is no misfortune to have been born a Dane. Of our immigrants last year only 7,243 were of that fortunate race.

Portland will be a lonesome place next Sunday. No booze, cigarets, nuphin' in sight for the bums.

Since the New York corporations failed to nominate Wadsworth for governor, it looks as though the people didn't care as much as they used to for the wads' worth.

Studies of the upper air are going on at many different stations from the arctic to the equator. Some day science will run down the weather breeding area and get a fair starting point in the forecasting department.

By authority of John C. Young, private secretary to Senator Bourne and state organizer of the National Republican League Clubs, under direction of John Hayes Hammond National President, a Taft club has been organized in Moro with 50 members, officered as follows: L. Barnum president; Otto Peetz vice president; Fred J Meindl secretary.

A discharged laborer in a black forest mountain tunnel has cost the Baden government $875,000 by removing a surveyors pin so that the two gangs of tunnelers did not meet by 26 feet. Complex modern life offers many opportunities for disgruntled men to square their grudges with society. Look at the late horrible forest fires in Michigan, Wisconsin and Minnesota, which was not a cecidental, as at first supposed, but was part of a concerted plan of 125 desperate foreigners discharged from the mines near Hibbing, scattered over three states by previous agreement, who set the fires in order "to get even" with the mining company. Their intention was to wipe out the entire section of forests and many of the towns.

What is a deposit on which a bank pays interest? Nothing less than an actual investment. A man puts $1,000 in a bank, instead of buying a house, a bond, or shares of some corporation. He hires his money out to the bankers; that's plain, isn't it? Why guarantee him in such a transaction and withdraw the guarantee when he purchases land or a stock of merchandise? If the government is to insure great manufacturing corporations against loss through deposits made in national banks, and if states are to insure individuals against loss thru deposits made in savings banks and trust companies, why shouldn't the farmer be guaranteed in his field of corn, wheat, or potatoes and pumpkins, the merchant in his stock of goods, the teamster in his rig, etc., ad infinitum? Why create a special class of guarantees, of persons holding free insurance policies, against the loss of their personal investments? It should be remembered in this connection that thruout 42 years of our present banking system the loss to depositors of national banks has not exceeded 1-26th of 1 percent. per annum.

NEWS AND NOTES.

The rate from Moro to Kings'hill Idaho, on account of the land opening, October 12th, and return, is $20.20, good for 10 days from date of sale. Children half fare. Tickets on sale October 9th and 10th.

THE grandmothers of old Dutch Dunkard families of western Pennsylvania have made and used Hickory Bark Cough Remedy and reared their families on it for a 100 years. Now you can buy it of your dealers Ask for it and use it, because it is pure; because it will stop your cough; because it is the best cough remedy made. Try it. For sale by Moro Pharmacy and dealers everywhere.

Newspaper Railway Building.

Silver Lake Leader.

Active construction work will be begun in earnest, without a doubt, and dirt will fly as fast as money and men can do it. In the meantime Hill is not idle, and has his surveyors in the field, and we look for a neck to neck race as to who will get into Central Oregon first.

Prineville Review.

The long-looked-for day of deliverance is near at hand, and soon that day will be upon us like a beautiful spring morning, when the sun peeps forth in all its magnificence and glory, spreading beauty and good cheer everywhere. That day will be one of rejoicing, and a day never to be forgotten.

Political Information.

Registration opened Sept. 20 for Presidential election, and closes on October 20.

All who are 21 years of age and citizens of the United States, are entitled to register, providing they have resided in the state six months. If not a natural born citizen the voter must have been naturalized, must have had his first papers for at least one year.

Electors are voted on the first Tuesday after the first Monday in November.

Electors meet at the state capitol the second Monday in January and vote by ballot.

The votes are counted by congress the second Wednesday in February.

The president-elect is to be inaugurated on March 4 next.

ACT QUICKLY.

For as You Know Delays have Been Dangerous in Moro.

Do the right thing at the right time.
Act quickly in times of danger.
Back ache is kidney danger.
Doan's Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

Isaac Ford, Hood River, Or, says, "I used Doan's Kidney Pills about 4 years ago while living in Iowa, and the results obtained were most satisfactory. At that time I was suffering severely from Kidney trouble, lumbago, and rheumatism and in spite of the use of many remedies, liniments and plasters, I obtained no relief. Severe pains would dart in my kidney regions and radiate to all parts of my body. At night there was a continuous dull aching which greatly interfered with my rest and as a consequence I would arise in the morning tired and worn out. Whenever I bent over or stooped severe pains would cause intense suffering. The kidneys were in a disordered condition and caused me much annoyance. Doan's Kidney Pills completely banished my trouble. Since coming here I had a slight attack of rheumatism but again appealed to their use and the pains soon disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

THE SCIENTIFIC FARMER.

Tells all About the Dry Farming Process, Profitable Reading.

Here is a publication that we can consistently recommend. A publication that should be in every farm home: Campbell's Scientific Farmer. And only $1.00 per annum. Subscribers to The Observer will be served at 75c a year, where they are up to date, and a year ahead. Campbells' Scientific Farmer is devoted entirely and solely to subjects along lines of tillage of the soil with special reference to securing results in regions where the rainfall is deficient or irregular. It is for the farmer in the dry country, but at the same time the principles which Prof. Campbell puts forth are applicable to good farming anywhere. The Scientific Farmer is edited by Prof. H. W. Campbell, father for the new movement for successful semi-arid farming which has taken such deep hold in recent years. The first number is illustrated and filled with readable articles on the subject.

Don't borrow The Observer. Subscribe, and have it your own.
