A Massachusetts lawyer has a notoriously treacherous memory for details. This failing occasionally leads him to garble a joke in repeating it. Recently he met a friend who, clapping him upon the shoulder said enthusiastically, "This is a fine day for the race, isn't it? What race?" Inquiringly replied the lawyer. The human race, said the friend, and fled. This was the first time the lawyer had ever heard the chestnut, so he determined to get it off on the next man he met, and he did, in this manner: Hello; Godfrey, isn't this a fine day for the trot? Trot, what trot! The lawyer stammered, Well, there was a joke in there somewhere, but I can't find it now.

A party of men, among whom was Col. Bryan, were one night waiting for a train in a depot hotel. The landlady was the only woman present. Talk turning upon the alleged inability of women to see the point of a joke as readily as do the men Mr. Bryan took the ground that a sense of humor was as much a part of the feminine make up as it was that of a man, but that it merely lacked opportunity for development. To illustrate said he, take the story of a party of excursionists in the Egean sea. When approaching the Grecian coast the party assembled about the rails to enjoy the beautiful scenery. One lady turned inquiringly to a gentleman at her right and said, "What is that whiff of there on the horizon?" That is snow on the mountains, replied the gentleman addressed. Well, that's funny, she replied, my husband said it was grease—All of the girls in the group laughed noisily at Mr. Bryan's story, but the lady looked puzzled. Finally she said, "But Mr. Bryan, how did the grease get on the mountain?" at which Bryan dropt further defense of women as born humorists.

Talks with the Doctor

HEALTH SUGGESTIONS.

A good dinner may bring joy or sorrow, according to the state of your stomach.

When overcome by bodily fatigue or exhausted by brain labor, no stimulant serves so well the purpose of refreshment and rest as milk. Heated as hot as one can take it, slowly sipped from a bowl, it is easily digested and soon feels its beneficial effects. Few persons realize the stimulating qualities of this simple beverage.

Do not use too much nor too strong perfume. It is an indication that some disagreeable odor lurks about your person that you wish to conceal. On the contrary, a delicate suggestion of perfume is very pleasant. Small sachets, filled with ones favorite perfume and placed inside the waist of the garment is much to be preferred to a stronger odor, and instead of pouring perfumed waters on your handkerchief, keep them in a box with a bit of orris root or a sachet of whatever you choose for your perfume—and do not have but one choice for this.

He who grumbles about his bad cold is finding fault with a measure of relief to which he owes his life. What he may justly grumble at is the undoubted misfortune that he is the subject of bacterial infection. It is hard to blame nature, as the patient proceeds to do, for successfully defending him against the effects of this casualty. Methods of treatment, whether carried by nature or art, are seldom pleasant, but they are not blame-worthy. The phenomena of disease are purposeless, and wantonly distressful, so that the victim demands from the physician a means for stamping the trouble out. These symptoms, however, are in the main the manifestation of a process of cure, and are so far benevolent that without them a common cold might be a fatal malady. The copious catarrh, the persistent sneezing, are practical means of dislodging the bacteria from the nasal passages, while the cough removes them from the wind pipe.

Stomach Trouble Cured.

If you have trouble with your stomach you should take Chamberlain's Stomach and Liver Tablets. J P Klotz, Edina, Mo., says, "I have used a great many different medicines for stomach trouble, but Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used." For sale at Moro Pharmacy.

As the lamented Gen. Harry Heth was passing through the country after his advance scouts he came up with a couple of them feasting on green persimmons up in a tree. The fruit was almost ready for the frost. Seeing his men thus he tho't of the condition their stomachs would be left in and called, Boys, what are you doing up there? Eating persimmons, general, came back the answer. They will draw your stomach all up, boys, returned the general. That's just what we want, general, something to draw us up to suit the rations we receive.

A Higher Health Level.

"I have reached a higher health level, since I began using Dr King's New Life Pills," writes Jacob Springer, of West Franklin, Me., "they keep my stomach, liver and bowels working just right." If these pills disappoint you on trial money will be refunded at Moro Pharmacy, 25c.

JOB PRINTING

Bring yours to THE OLD RELIABLE.

Good Printing
conveys an idea of success. You may never see the man himself. It's his letter head, his envelope, his business card, circulars or catalogue. You size the man up by these things. What impression of a man and his business do you get if he writes to you on wrapping paper or axle grease stationery? How does yours look? Is it neat, tasty and modern? It is if The Moro Observer Job Department prints it. Better bring in that next job!

DO A LITTLE MISSIONARY WORK IN YOUR idle days by telling your neighbors of the good qualities of The Observer.
