

The Observer.

Moro City Official Paper.
OFFICIAL PAPER OF SHERMAN CO
MORO, OREGON.

D. C. IRELAND, Editor.
C. L. IRELAND,MANAGER

FRIDAY, April 23, 1909

Church and Society notices FREE, except when for money making purposes. Such notices at regular rates at the option of the publishers.

Before coming to the city to trade readers are requested to examine The Observer advertising columns. Its active, wide-awake business man who advertises, consequently he is the most accommodating, sells the cheapest, and deals the most liberally in every way.

We will not be responsible for the neglect of subscribers to notify us of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

Did it ever occur to you that it costs no more to produce printing that is pleasing to the eye than the other kind. The Observer is equipped with all modern facilities for doing good work at the very minimum of cost. Try us with an order and if it is not executed to your perfect satisfaction you need not pay for it.

Send for advertising rates.

Nearly 50 dogs are killed by an authority of laws in Portland, every week, but the census keeps up.

Uncle Sams latest farce with the Stand Oil Company is to cost \$5,000,000, and contains 11,000,000 words.

Send The Observer to your absent friends. It is better than a letter, and gives all the home news. Four months for 50c.

Oregon city has a sensible common council. It refuses to save the rotten old shack that Dr. McLaughlin once lived in.

When the ambitious rot that has taken root in a class of republicans comes to a finish, the Grand Old Party will again assert itself in this state and nation.

Someone asserts that George Harrison, the Chicago aeronaut once lived in Sherman county. We do not think so. Sherman county has never had a resident fool like that.

The New York legislature is not disposed to be in a hurry to pass a state primary law; if it is waiting to find one that works with perfect smoothness the delay is likely to be prolonged.

Tobacco users appear to be the most contented of mortals; they've sent no lobby to Washington to oppose the increase of tax on what they admit is unquestionably a great luxury.

"Neither does Weston care anything about the school, and we will certainly do nothing further to maintain it," remarks the leader. "In the light of events, its location here was a curse to Weston."

The Emery girl and her Japanese hubby were about to be put off the train a few days ago, traveling to Salt Lake city from Seattle. What drift of the "seam of creation" appears to be following this happy couple.

Every "now and then" a drigable balloon or an aeroplane takes a sudden and unexpected dive to solid earth, just to remind the aero enthusiasts that the law of gravitation discovered by Sir Isaac Newton has not strayed afar.

At last Uncle Sams dam site fellows are side stepped, so far as "up DecChutes river" is concerned at least, and with this obstacle removed what next to prevent railroads being constructed forthwith from Celilo to all inland Empire points.

Speculators are buying up tea in Canada, in order to control the markets in case the article is taxed in the new American tariff. There are many reasons, this is one of them, why the new tariff tinkering should be handled with as little delay as possible.

Now California has a chance to set a new pace with respect to the disposal of criminals. Two thieves robbed the Thompson Bridge Co. of San Francisco of \$3,200 after shooting Mr. Thompson at his office, in flitting a serious wound; they grabbed the sack, made a dash for a near by buggy, which one entered. Pursued by policemen in an auto he was finally captured, and a clue secured by which the other one is sure to be caught. This will afford opportunity to bring forth another unwritten law: Hang the scoundrels without the farce of trial in the courts; make an example of them in an orderly manner. It is time for a change.

The world has just witnessed an excellent public ownership lesson in France. After a determined effort by organizations of employes of the government to prove that they were superior to their employer (the state), and to reduce it to obedience, the Paris strike has collapsed. Never has the inherent weakness of government ownership been more clearly revealed. On the one hand there are charges, virtually admitted to be true; that favoritism and other serious abuses have pervaded the French postal and telegraph service because politics has largely controlled appointments and administration. The conditions are not peculiar to the French people. The further any government extends its operations in the direction of public service or industry the greater danger of corruption it creates. On the other hand, the French postal employes and telegraph operators have not only utterly disregarded the public convenience but have openly defied the government's authority; led by political agitators they have undertaken to rule in their own way and for their own ends.

The death at the age of 73 years of Miss Josephine Wolf, a wealthy woman long a resident of Walla Walla, is announced. A resident of that city for full half a century, without special human attachments or interests, and with no known relatives, this woman lived her lone day and passed on into the shadow. The first impulse is to pity her for the joys of life that she has missed, the companionships of kindred and the loves of home; but, as suggested by The Oregonian, since she never knew these she could not miss them in the sense of those who are bereft. And as, according to report, she provided in her will a home for dumb animals otherwise homeless, she uncovered in her nature a woman's tenderness for helpless, lonely creatures, and gave evidence of the possession of the true feminine instinct of love and service.

According to reports received by Dr. Yenney, secretary of the Oregon state board of health, there threatens to be a serious spread of tuberculosis among poultry flocks of this state. Dr. McClure, chief of the state bureau of animal industry, advises Dr. Yenney that a flock of 59 chickens, bought at Eugene and taken to Forest Grove, was found to be affected with the disease and that 16 died at last accounts. He estimates that 80 percent of the flock was affected. Dr. McClure reported in addition that a large flock of chickens at Pendleton was found to be affected with tuberculosis but that no connection had been established between the districts named. At Pendleton it was found that the disease had attacked turkeys in an adjoining field, and also that pigs had been seized with the disease after eating dead chickens and turkeys.

The annual report of the department of Agriculture gives the value of farm products of 1908 at \$6,978,000,000, the most extraordinary amount in the history of the world. It is about four times the value of the products of the mines of the United States of America, including coal and petroleum. Corn is reported worth \$1,616,000,000; hay \$621,000,000; wheat 600,000,000 bu. worth \$620,000,000; oats 798,000,000 bu. worth \$321,000,000; cattle, sold and slaughtered, nearly \$3,000,000,000; dairy products \$800,000,000. Wish we could have confidence in Brother Wilson's reports that we always had before the recent confab with gambler Patten, whose \$5,000,000 windings were based upon better information than agricultural department reports.

George Thordike Angel, dumb animal best friend in America, and in whose interest he has continuously published the magazine, "Our Dumb Animals," since 1823, passed peacefully away March 15th. Who is there that can fill his place? Nothing counts you, nothing helps you, When you leave the sun; But the love that you have given And the love that you have won. Sorrow rises to exaltation sometimes and our thankfulness for such a life as his, nullifies our sense of what the loss of it will mean.

Announcement is made that in addition to the \$25 fare from Missouri river points; \$30.50 from St. Louis and \$33 from Chicago, a proportionate rate is good from every point in the United States, to this state. Say: From New York \$50; Boston \$49.75; Cleveland \$39.75; Birmingham \$40.25, etc.

The coyote scalpers say it is a skin game. Properly so, it beats the old style of scalpers graft.

If the house of congress would take a day off and dig up some new business The Old Reliable would suggest the subject of a cheaper parcels post and a greater utilization of the 4,000 rural deliveries whose wagons are running daily with light loads.

Judge T. A. McBride takes a seat on the Oregon Supreme bench vacated by Judge Bean who takes the new federal judgeship for Oregon under appointment by President Taft. Gov. Benson has appointed J. U'Ren Campbell of Oregon city, to be circuit judge in McBride's place.

A celebration commemorating the establishment of the first provisional government in Oregon territory will be held, for several years past, at Champoug on the 2d day of May. The event is worthy of the attention of new as well as of older citizens of Oregon, and should be largely attended.

Patten, the latest wheat plunger, has clearly whipped the humbug system of getting at crop reports, etc., in vogue by the department of agriculture, and Secretary Wilson may as well call in his 150,000 volunteer bum reporters and pick a few men competent for the service and pay them for it. Unless that is done abolish the farce altogether.

Up Before the Bar.
N H Brown, an attorney of Pittsfield, Vt., writes: "We have used Dr Kings New Life Pills for years and find them such a good family medicine we would not be without them." For chills, constipation, biliousness or sick headache they work wonders. 25c at Moro Pharmacy.

Before and After.
When a man in love
Sees him entrances,
And timidly
He makes advances,
But when they're wed
For all her fancies
He must put up
—And make advances—
—Vale Record.

Rheumatism.
More than nine out of every 10 cases of rheumatism are simply rheumatism of the muscles, due to cold or damp or crone rheumatism; in such cases no internal treatment is required; the free application of Chamberlain's Liniment is all that is needed and it is certain to give quick relief; give it a trial, see for yourself how quickly it relieves the pain and soreness. Medicine usually given internally for rheumatism are poisonous, or very strong medicine; they are worse than useless in cases of chronic and muscular rheumatism. For sale by Moro Pharmacy.

Balloon Accidents.
"The cause of so many balloon accidents," says Aeronaut William Kendall, of Philadelphia, "lies in the fact that the beginner doesn't realize what a delicate piece of mechanism a balloon is, and after having been employed about a balloon outfit for one season he imagines he knows it all. These people manage to get a balloon, usually an old, weather-beaten affair, and then secure an engagement at some amusement park. Statistics show that nine out of every ten such aeronauts meet with accidents. In one week seven parachute leapers were injured, some fatally, and during the season of 1906 no less than 47 aeronauts were killed. And this is done even out of it is all because they haven't mastered the intricacies of their profession."

Swept over Niagara.
"The terrible calamity often occurs because careless boatmen ignore the rivers warnings, growing ripples and faster current; Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies, drowsy, diastetic or Bright's disease. Take Electric Bitters at once and see back ache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J R Blankenship of Belk, Tenn. Only 50c at Moro Pharmacy.

Two Hours For Kisses.
She—Did you notice the chauffeur making eyes at the pretty waitress?
He—Yes. It's here undoubtedly that we'll have our breakdown.—Boston Globe.

"I'd Rather Die, Doctor."
"That's how my feet cut off," said M L Bingham of Princeton, Ill., "but you'll die from gangrene, which had eaten 8 toes away; if you don't," said all doctors. Instead, he used Bucklen's Arnica Salve till wholly cured. Its cures of eczema, fever sores, burns, boils and piles around the world. 25c at Moro Pharmacy.

Object to Strong Medicines.
Many people object to taking strong medicines prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of 10 cases of the disease are of one or the other of these varieties. When there is no fever and little if any swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief; try it. For sale by Moro Pharmacy.

They'd Better.
Now that Taft is going there
They of course
Must the presidential chair
Be in force.

"A poet is one who calls every brook a brooklet, isn't he?"
"No. That's just a poetist."—Kansas City Times.

Best Treatment for Colds.
"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, free perspiration, avoidance of wet and cold exposure after treatment, etc." While this treatment is simple it requires considerable trouble, and the one adopting it must remain in doors for days, or a fresh cold is most sure to be contracted and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, famous for its cure of colds and can always be depended upon? For sale by Moro Pharmacy.

Friendly Concern.
"When I married my husband there were three other men that I might have had."
"I hope you didn't find it necessary to flip a coin in making your decision."
—Des Moines Register.

For Constipation.
L H Farnham, a prominent druggist at Spirit Lake, Ia., says, "Chamberlain's Stomach and Liver Tablets are certainly the best thing on the market for constipation. Give these tablets a trial; you're certain to find them agreeable, pleasant in effect. 25c sample free Moro Pharmacy."
