Hugh M Shull has moved to the Brown farm, which he purchased some time ago.

Deep snow appeared on Grizzly mountain October 15th, ten days earlier than 1908.

The mole never waits for something to turn up; he goes right out and does it himself.

If corporations have no souls how about those of the people who constitute the corporations.

The truth is it isn't other people who make you angry; it is yourself who allows you to get angry.

Porter Bros, Oregon Trunk Line contractors, have established an extensive commissary in Grass valley.

Many women, after remedying a smoky old stove, or a stinking oil lamp, have to put up with a smoking husband.

The Eugene Guard, Capital Journal and The Astorian, three of our valued daily exchanges, are spoiled in their mailing rooms.

Men can be found who are willing to go to Africa as missionaries, who are not willing to care for a cross baby for half an hour for a tired mother.

If you have anything for sale, or if you want to buy anything, use the advertising columns of The Observer, and you will be assured of satisfactory results.

In order to replenish the depleted supply of corn in the republic of Mexico, the duty on that serial from the United States has been temporarily rescinded.

To do well we must think well. Water will not rise higher than its source, and human performance will not go beyond the reflection from which it starts.

There are people with natures so perverted that they are equally ready to shed tears over dead dogs, and let their families hunger and thirst after the staff of life.

The day becomes a second longer in every 460,000 years but the flight of time is so rapid that few would have noticed this fact if we had not called their attention to it.

Frank Miller, of the Goffin Stock Farm, accompanied his sister, Dr Marie M Goffin, to the Rose city on the 18th. Frank was well when he left here, but apparently was expecting a nervous shock.

The foreigner who prates about the impetuous haste of Americans, might have occasion to revise his opinions if placed in the position of a country newspaper man trying to collect his subscriptions.

"Don't you believe," queried the fair suffragette, "that man lives faster than a man?" "I sure do," he replied "I was just 10 months older than my wife when we married, now I am 42 and she was 30 last week."

Grass Valley Journal: Sheriff Freeman was a business visitor in Grass Valley Tuesday afternoon, on matters connected with his office. It is very generally admitted that Mr Freeman is making good as a officer.

A young woman who has been sued for the recovery of gifts made during courtship explains that she found she could not return the love that was offered her. But all she asked to return now is what she did take.

In woman we may admire beauty and pay homage to her talents, but virtue is her crown. With that she is rich, 'tho she live in humble circumstances, and without it she is poor, 'tho she live in a palace and has the dowry of a princess.

The survey of the Oregon Portage Ry, from big eddy to The Dalles, is now completed and work on the extension is expected to commence soon. The last legislature appropriated \$75,000 for the building of this road, but this is not enough by about \$10,000. The Dalles is expected to issue bonds at once for that amount.

Thirty thousand head of sheep, and 3,000 cattle, were held up the better part of a month at Shaniko, waiting for cars. Our Little Short Look, the C S Ry, is doing a more extensive business now than any other part of any other railroad system in the Pacific Northwest, mileage computed, but whether the traffic is paid for is another consideration, as the stuff that creates the congestion is railway-construction materials, from one line to another in the same business. Handling this immense business is very hard work because of the lack of power. The locomotives are small, leaky, wheezy old traps, that "go dead" or get sick anywhere, at any old time. One died two miles out of Moro on the open prairie, Saturday night, and was hauled there first to The Dalles and turned over to P W De Huff, the watch maker, for repairs.
