If you do not read The Observer, why not?

We would like to have you take it, and we know it would be profitable to you to become a subscriber. We send it two years for \$2.50; one year \$1.50; 12½ cts a month isn't much. Try it. Order by postal card, and pay for it when you can.

Church and Society notices FREE, except when for money making purposes. Such notices at regular rates at the option of the publishers.

We will not be responsible for the neglect of subscribers to notify as of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

Did it ever occur to you that it costs no more to produce printing that is pleasing to the eye than the other kind? The Observer is equipped with all the modern facilities for doing good work at the very minimum of cost. Try us with an order and if it is not executed to your perfect satisfaction you need not pay for it.

Send for advertising rates.

Two sorts of men never see the hand writing on the wall—the corporation magnates and the manipulators.

A man never realizes how foolish sweet nothingness can sound until he hears them sworn to in a breach of promise suit.

The price of carrots has slumped, but still there are many people who wouldn't eat carrots even if they were being given away.

It must be a sad and uninteresting trip for a leviathan of the deep to return to the outside of the Atlantic after bringing Roosevelt home.

Speaking of new parties, what has become of the liberal republicans, the greenbackers, the mugwumps, the populists and the sixteen-to-ones?

One difference between an aeroplane and a submarine is that the former very often comes down too fast while the latter occasionally stays down too long.

Mr. Justice McKenna is especially glad to have Governor Hughes come to the supreme court bench, for Mr. Justice McKenna wears a few whiskers himself.

Crop scares are beginning to appear. Some time they will be real, but this year, as heretofore, we hear them only as the cry of "wolf" by the boy of the old story.

Georgia estimates that it will take 4,000 cars to move its peach crop. Imagine how many yards of pink netting will be required to make the red blush of ripeness seem real.

Statistical authorities which are "viewing with alarm" the falling off in bank clearings ought to be told that the decline is in New York chiefly, and is largely due to shrinkage in speculation. In the rest of the country clearings are gaining.

The ostrich buries its head in the sand and believes its self hidden; man shoots the ostrich and sells its plumes, some women wear the plumes and think that frills, feathers and daylight cosmetics conceal her frailty. Life's a funny circle, after all.

Secretary Knox informs the Nicaraguans that this government "has refused to permit vessels illegally and clandestinely fitted out in American waters to interfere with American commerce." The Madriz armed vessel that slipped away from New Orleans under false pretenses must be on good behavior.

Circuit Judge R. R. Butler of this district, under the new law which allows the judge of one district to help out another when he is crowded with work, held court in Portland last week. Quite a number of judges have been called in from the country this spring to assist the Multnomah judges, who since the baseball season opened have been utterly unable to keep up with their work.

Attention is called by the Oregonian to the growth of the livestock industry in the Pacific Northwest. On one day of last week it says that ten carloads of wheat were received at Portland and 40 carloads of livestock. It is maintained that the stock grower will become a more important factor in the prosperity of the state than the wheat grower within the coming ten years. Then there will be more wheat grown than at present but the livestock industry will have expanded to a remarkable degree by that time, due to Portland having the greatest stock yards and packing plant on the Pacific coast.

"Them that does gets," in the King's English means that stirring towns like Medford wins. Uncle Sam has given Medford \$110,000 for a federal building, and another \$100,000 to help them build a road to Crater Lake.

"Pure drugs and pure water" is the boggy topic at Hood river by pros. and cons. Dr. E. Z. Mark, The Glacier, The News and rival druggists are contestants. It is worse for the valley and the town than pear blight or apple blind-staggers.

The czar fears, now, the falling of a bomb from an airship. But progress can not for feudalism. Let the czar be modern and modern life need not appall him.

For Rest, and A Coat of Tan.

Long Beach, Wash., June 20th. The fine weather prevailing at North Beach, is bringing hosts of visitors to the Ocean shore, intent on securing rest, and a good coat of tan. The outlook is particularly bright for a remarkably busy season this summer, the number of visitors now being far greater than ever before at this time of the year.

The march of progress is evident throughout the entire length of the beach, and development being assured, prosperity is a matter of course. Work on the automobile boulevard is rapidly progressing, beach houses by the score are being erected, and new rooming houses, and old ones, are being put into shape to take care of the hosts of summer transients soon to be down upon us.

The North Beach Push Club, with its combined effort, shouldering the wheel of progress, has awakened an era of activity, which will undoubtedly secure the proper recognition of the unsurpassed advantages of North Beach for enjoyable outings, and at the same time all the comforts of home.

Negotiations are pending with Portland capitalists, for the installation of a water system to supply the beach and surrounding countryside with excellent mountain water. With the success of this project one of the obstacles to an otherwise incomparable locality is obviated.

Sure of Himself.
"I'll give you a position as clerk to start with," said the merchant, "and pay you what you are worth. Is that satisfactory?"
"Oh, perfectly," replied the college graduate, "but—do you think the firm can afford it?"—Catholic Standard and Times.

WEAK KIDNEYS MAKE WEAK BODIES.

Kidney Diseases Causes Half the Common Aches and Pains of More People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking down.

Overwork, strains, colds and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help.

Doan's Kidney Pills acts directly on the kidneys and cures every kidney ill. More cures are the proof.

Mrs. P. H. Buxton, of Moro, Oregon, says: "A member of our family used Doan's Kidney Pills for backache and trouble with the kidneys and great benefit was received. I have often heard other people speak highly of this remedy."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

THE FOURTH AT DeMOSS.

DeMoss Springs Entertained a Record Crowd. Something Doing All The Time.

The day was beautiful and the celebration fully equaled the expectations of all. With the speakers stand, the trees, and the booths of the different concessions decorated with red, white, and blue bunting, and the national flag flying from all parts of the grounds, DeMoss Springs early in the morning of the 4th started in to give the record celebration for the fourth annual affair, now looked forward to each year by all of Sherman county.

The morning and afternoon musical and literary program was of exceptional merit and rendered in pleasing effect amidst the exploding din of firecrackers strewn aimlessly about by the irresistible small boy.

Rev. D. V. Poling, of The Dalles, was orator of the day, speaking extemporaneously on the duties and obligations of later day American citizenship, and the awakening of our national life to past short comings and the stirring of desire for better and more substantial results to accrue from duty performed to nation, state and county.

The baker in charge of the clams failed to be present, the

clams being divided among any who cared for them.

It was voted toward the close of the day to hold a celebration at DeMoss again next year.

Below in this column we present a financial report of moneys received and expended towards proper celebration of the day at DeMoss.
