A trio of hobos, giving names of Hoffman, Tibbetts and Fisher, were arrested at Arlington with some of the goods from robberies at Celilo. They were locked up at The Dalles, confessed thieves, in hope, perhaps, of securing the comforts of a home in the pen until spring.

Clark Hardin, aged 61, and Mrs. Mary Darth, aged 74, were wedded at Portland last week. Each has been married twice before; they said the reason they had decided to wed was that they needed each other's society and help, their children having failed to take any filial interest in them in the declining years of the old people.

Don't kill the coyotes, says a Tumalo writer in The Bulletin, they kill field mice, rabbits, gophers and kindred pests of the farm! Yes, and also they kill and eat a young calf before it has had a sup of milk following birth; they worry the mother of the range colt to death, then eat both the mare and foal; they steal pigs, kill sheep, rob chicken roosts, Oh, no; make pets of the coyotes.

At Band Practice, Sunday afternoon, a complete surprise was sprung on the director and leader, Elmer Barzee, when W C Bryant in behalf of the members of the band, presented Mr Barzee with a beautiful \$8.50 couch cover in Indian design, made by the Salem Woolen Mills. Mr Barzee lives two miles out of town and during the past year no day has been too stormy and no night too dark to keep him from band practice, and the members of the band made him this present in appreciation of his faithful service as leader and director.

PRESIDENT TAFT'S PROCLAMATION

Names Thursday, November 24, as Day to Acknowledge Our Many Blessings.

The progress of the country as reflected by the records of population, and harvests, and the general conditions of international peace, are things for which Thanksgiving is especially due for the year 1910, according to the annual proclamation issued by President Taft, as follows:

"This year of 1910 is drawing to a close. The records of population and harvests which are the index of progress show vigorous National growth and the health and prosperous wellbeing of our communities throughout the land and in our possessions beyond the seas. These blessings have not descended upon us in restricted measure, but overflow and abound. They are the blessings and bounty of God.

"We continue to be at peace with the rest of the world. In all essential matters our relation with other people are harmonious with an evergrowing reality of friendliness and depth of recognition of mutual dependence. It is especially to be noted that during the last year great progress has been achieved in the cause of arbitration and the peaceful settlement of international disputes.

"Now, therefore, I, William Howard Taft, President of the United States of America, in accordance with the wise custom of the civil magistrates since the first settlements in the land, and with the rule established from the foundation of this government, do appoint Thursday, November 24, 1910, as a day of National thanksgiving and prayer, enjoining the people upon that day to meet in their churches for the praise of Almighty God and to return heartfelt thanks to Him for all his goodness and loving kindness."

When the bloom is rubbed from the purpling grape, man's art can never restore it; when the dust is rubbed from the butterfly's shape, the wings must be bare that bore it. The down on the peach you can never replace, though you are transcendently clever, and the thousand percent in the foot ball race, when lost is lost forever.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the tank.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.
