

SHERMAN COUNTY OBSERVER

Established 1887.

Moro, Sherman County, Oregon, Friday, June 16, 1911.

Five Cents

The Grain Growers Conveniences

Are not alone confined to Rural Free Delivery of mail and the Telephone. There is another convenience which all farmers should have — and many do have — a checking account with a good bank. The possessor of such an account avoids the risk of having his money on his person or about his home where it is in danger of fire and thieves.

His bills paid by check are not only a valid receipt, but also a convenience in his home transactions where very often the necessary change for concluding settlement is not at hand. Don't stop to think this over, but start an account now with

The Wasco Warehouse Milling Co.
Bank, of Moro.

GOING TO PAINT

If it's the house, barn, fence, kitchen floor, walls, or anything else, we will gladly tell you what kind to use, quantity required, the cost, and how it should be applied. We have

ACME QUALITY

Paints, Enamels, Stains and Varnishes for refinishing any shabby surface—indoors or outdoors.

Glad to show colors and offer advice whether you decide to paint or not.

Moro Paint Store
CASE & CASE Moro, Oregon.

A "WANT" ad in THE MORO OBSERVER will reach more people in Sherman County than by any other medium available.

NIGHTS OF UNREST

No Sleep, No Rest, No Peace for the Sufferer from Kidney Troubles.

No peace for the kidney sufferer—Pain and distress from morn to night. Get up with a lame back, Twinges of backache bother you all day, Dull aching breaks your rest at night, Urinary disorders add to your misery. Get at the cause—cure the kidneys. Doan's Kidney Pills are for the kidneys only—

Have made great cures in Moro. P. P. DeMoss, of Moro, Oregon, says: "I am just as willing to recommend Doan's Kidney Pills at this time as I was several years ago when I gave a public statement in their praise. A too frequent desire to pass the kidney secretions, especially at night caused me no end of annoyance and I was very anxious to get relief. When an acquaintance, who had taken Doan's Kidney Pills with benefit, advised me to try them, I did so, procuring my supply at the Moro Pharmacy. This remedy brought prompt relief and corrected the difficulty in a short time. I have taken Doan's Kidney Pills since then and they have always benefited me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

The Air Brake.

Contrary to the general impression, the air pressure used in the air brake on railroad cars is applied to hold the brake shoes away from the car wheels. The instant that the air pressure is released the brake shoes are forced against the car wheels, bringing the car or train to a stop. It is the releasing of the air or the passage of the air through the valves that causes the whistling noise heard under the cars.

Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when on board the cars or steamships. For sale by all dealers.

DO YOU NEED GLASSES?

If so, don't trust the most delicate organ of your body to pedlar or jeweler. I am an exclusive optometrist who has made a thorough study of the eye, and hold diplomas from the best schools.

Have Fitted 600 Patients in Wasco and Sherman Counties Right, and try to Keep Them Right.

My work cannot be excelled in Portland, and it is cheaper for you to come to me at The Dalles.

MANY AMERICANS TO BE AT CORONATION

Predictions Are That 100,000 Will Be Present and Will Spend \$25,000,000.

London.—Whatever anxiety existed in London a month ago regarding the probable size of the contingent from the United States during the coronation season is giving way to a comfortable belief that that country will be represented quite as liberally as originally predicted. Americans are already taking London by storm.

The latest estimate says it is likely that "as many as 50,000 Americans habitually passing half the year in Europe will be here during coronation week, and quite as many more will have crossed the Atlantic for the express purpose." This may prove an ultra-optimistic prediction.

According to the same authority the outlay in London of the average American will be "at least 50 pounds sterling." This prophecy is well within the mark.

Referring to the arrival of John Hays Hammond and the sailing of the Delaware, which will be the biggest battleship at the naval review, a London paragrapher remarked that, judging from the description of the battleship and from the history of Mr. Hammond in South Africa, Washington is "bent on complimenting us by sending a couple of first class fighting machines."

Judge Sustains Seymour. San Francisco.—Judge James M. Seawell annulled the suspension of Chief of Police Seymour and made permanent the writ of prohibition, preventing the trial of Chief Seymour by the police commission on the ground that the charges filed against Seymour by Captain of Police Harry O'Day were insufficient.

DEMOCRATS OPPOSE WILSON

Ingratitude Is Charged and Secret Plans Made to Check Boom.

Trenton, N. J.—The regular Democratic organization of New Jersey is plotting secretly to check the Presidential boom of Dr. Woodrow Wilson, Governor of the state. Dr. Wilson has antagonized the old leaders—particularly James Smith, Jr., of Newark—and they will accuse him, among other things, of base ingratitude to the forces that elected him.

The movement is being conducted quietly. The anti-Wilson forces have been laboring to take from Dr. Wilson the prestige that the endorsement of his own state would give him in the National Convention, at the same time that Dr. Wilson has been making his tour through the West and South to let the people "size him up."

Thresher Sales Increase.

Walla Walla, Wa.—Three hundred and thirty threshing outfits will be supplied by Walla Walla manufacturers to the harvest fields of the Northwest this year. Indications everywhere point to big crops, and while there are practically as many machines in the field this year as there were last, 380 more will be sent out from Walla Walla.

Big Timber Transfer Made.

Portland, Ore.—One of the largest timber deals ever closed in Oregon was consummated when S. Benson transferred his holdings in Columbia County to the Benson Timber Company for a consideration of \$2,100,000. There are 15,000 acres of land in the tract, containing 800,000,000 feet of high-grade yellow fir.

LOVES ARE IN BAKER

Ex-Broker's Spouse and Her Mother Appear to Oppose Divorce. Baker, Ore.—That the decree of divorce granted Mrs. Marorie Burne Love from her husband, Sidney C. Love, ex-millionaire Chicago broker, in the Westchester New York Court is not thought by Mrs. Love and her attorneys to be very certain or binding is evidenced by the arrival in this city of Mrs. Marorie Burne Love, her mother, Mrs. Frances Burne and her attorney, Benjamin Tuska, of New York, to appear at the hearing of the case before Referee Charles P. Murphy Tuesday.

Heat Shrivels Middle States. Chicago.—The entire Middle West has suffered from the mercurial heat that has continued several days. Advertisers from various cities throughout the Middle West tell a story of unusual torridity and intense suffering. In the country districts the hot spell has continued so long that wells and streams are drying up and crops are shriveling.

RATES ARE RAISED

Southern Pacific Restores Former Tariffs on Interstate Shipments. Medford.—Medford merchants are up in arms because of an increase in freight rates from Portland to stations south on the Southern Pacific lines in Oregon upon interstate shipments, as announced by the Southern Pacific.

The new rates are a restoration of old rates in effect prior to February 8, 1911, when the reductions ordered by the State Railroad Commission went into effect. The present rates will be still in effect for state shipments. Heretofore, the interstate rate to Medford and other southern Oregon points has been the rate to Portland from the point of origin plus the local tariff from Portland to the point of destination. Hereafter it is to be the rate to Portland plus the old rate, in Medford's case an average of 20 per cent higher than the present local rate.

When the new tariff goes into effect it will be cheaper to consign merchandise to Portland and rebill it from there to Medford and other points than it will be to consign it directly to Medford.

Students Apologize and Are Reinstated

Eugene.—The 100 or more high school students suspended a few days ago for taking part in a "rally" in disobedience to the faculty's orders, have all signed an apology and the order that they will not be allowed to take their final examinations has been rescinded. A special examination will be conducted for them.

Wallawa Forest Sliced.

Wallawa.—Dividing the Wallawa national forest by cutting off 500,000 acres and naming it the Minam National forest, appointing Sherman A. Brown as acting supervisor of the new division and setting July 1 as the date for the change, the Department of Agriculture completes a change contemplated for four years.

MAY SAVE APPROPRIATIONS

Wholesale Fraud in Referendum Petitions Is Charged.

Salem.—The discovery of wholesale forgeries of names on the referendum petition attacking the University of Oregon appropriations may yet save those appropriations. Burns' detectives, working under the direction of ex-Supreme Court Justice Slater, declare that 3000 names are tainted with fraud and that at least 4000 are self-evident forgeries.

Otto Newman, who was indicted in Portland for forging signatures to the Ellis paving petitions, and is now out on bail, is named by Slater as being evidently connected with the alleged forgeries. Slater says that there are 20 more under suspicion.

Build Macadam Road.

Medford.—The Clark & Henry Construction Company has been awarded a contract to build an asphalt macadam road between this city and Central Point. The road will be 16 feet wide, the asphalt macadam four inches in thickness, and laid hot. The contract price is \$12,000 a mile.

Dalles Men to Visit Interior. The Dalles.—An excursion of The Dalles business men who desire to see the newly opened central Oregon country and become acquainted with conditions existing there will leave here June 23.

ITEMS OF INTEREST THROUGHOUT OREGON

Chronicle of Important Events of Interest to Our Readers.

Farmers Hit Middlemen.

Gresham.—The farmers of all eastern Multnomah are planning the organization of a produce association and called a meeting at the Commercial Club hall to perfect their plans and elect permanent officers. It is for all producers of farm produce and its purpose is to eliminate the middlemen and commission houses.

Institutes in Eastern Baker.

Baker.—Dr. James Withcombe, head of the experiment station; Professor H. D. Scudder, soil expert; Professor F. L. Kept, of the dairy department of the Oregon Agricultural College, and R. W. Allen, superintendent of the experiment station at Hermiston, have been holding institutes in this district.

Harvesters Are Not Scarce.

Pendleton.—Umatilla county growers of hay and grain are not to be bothered with labor famine troubles this year, according to present indications. Hundreds of idle men are already lining the shady sides of streets "looking for work."

RECIPROCITY BILL IS READY FOR ACTION

Senate Committee Votes to Report Measure Without Recommendation.

Washington, D. C.—The Canadian reciprocity bill is ready for consideration by the Senate. The finance committee voted, 10 to 4, to report the bill without recommendation and with the Koot amendment to the wool, pulp and paper clause tacked on.

This amendment provides that wood pulp, paper and board shall not be admitted free of duty into the United States from Canada until these products are admitted free from this country into every province of Canada.

Opponents of Canadian reciprocity are now actually talking about defeating the bill in the Senate, and they expect to do so by talking it to death. It is asserted that President Taft has the assurance of 47 senators that they will pass the Canadian bill without an amendment. That will mean success, for he would have one vote to spare.

Will Be Called Back.

The administration, it is claimed, will not consent to an adjournment, and if the two houses should adjourn the president will immediately call them again in session. But there is a scheme to avoid this kind of complication. It can be done by a recess. Both houses can agree to a recess for any length of time they desire, and the president would be powerless to summon them again under such conditions.

But the Democratic House will not consent to either a recess or an adjournment until there is a vote on the Canadian reciprocity bill. That is the present determination, and unless the Democratic mind changes the opponents of the Canadian agreement will have to give up or talk the rest of the session.

Troops Ordered Home.

The curtain has been rung down on the great international war drama which culminated in the mobilization of troops in Texas, and held the attention of all the world powers for many weeks.

The signal that the performance had ended came with the issuance of formal orders for the withdrawal of 2200 marines from Guantanamo, where they have waited since an instant's notice, through Vera Cruz, the gateway to the capital of Mexico.

At the same time, it became known definitely that the 3000 troops at Galveston, Texas, and a similar number of San Diego will be withdrawn about June 18. This will leave the 12,000 troops forming the division at San Antonio and about 3000 forming a cavalry patrol of the northern boundary of Mexico. These may remain all summer.

Welching Frauds Before Committee.

Henry A. Wise, United States District Attorney of New York, frankly admitted to the House committee on expenditures in the Department of Justice that he could not say why the government had been content merely to collect duties in the sugar fraud cases and had not seized and confiscated the millions of dollars worth of sugar involved in the frauds.

"The policy of the government," he said, "in those cases was fixed before I became district attorney. I do not wish to reflect upon anyone, but I may say that I have exacted my pound of flesh in every instance in which I have been concerned."

Senators by Popular Vote.

The Senate by 64 to 26 passed the Borah resolution providing the constitution to provide election of Senators by direct popular vote. The Bristow amendment giving to the Federal government supervision of such elections was adopted 45 to 44, the vice-president casting the deciding ballot. The House already had passed the resolution.

Adoption of the Bristow amendment, which omitted the House provision transferring supervision of senatorial elections from Congress to the state legislature was made possible by Mr. Clarke of Arkansas, casting the only Democratic vote for the proposition.

Mr. Morgan to Be Called.

The steel trust investigating committee resumed its inquiry Tuesday. Many inquiries are reaching the committee as to when Mr. Morgan is to be summoned as a witness. Chairman Stanley and other members decline to commit themselves, but it is reported that Mr. Morgan will be subpoenaed and asked many questions relating to his interests in steel and railroads, his banking connections and influences, and his part in the organization of the United States Steel Corporation and its absorption of the Tennessee Coal & Iron Company during the 1907 panic.

NEWS PARAGRAPHS FROM OTHER CITIES IN OREGON

The eighteenth annual assembly of the Chautauqua at Gladstone will convene July 4 for a two-week session.

About 100,000 bushels, or less than 3 per cent of last year's wheat crop in Umatilla county, is yet held by the growers.

Out of 80 applicants for admission to the bar who took the examination before the supreme court, 73 passed successfully.

Prison-made brick will be used in the construction of new buildings for the state institutions, announces Governor West.

More than 1,000,000 pounds of wool has been sold at Ontario in the last ten days and as fast as cars can be obtained it is shipped.

Definite plans have been made for the construction of the water pipe line from Clatsop Falls to Redmond. The work will cost about \$25,000.

The fourth annual convention of the Oregon Association of Title Men met in the governors' room of the Commercial Club at Portland last week.

Appointment of 12 supervising fire wardens in the state has been made by State Forester Elliott. Between 20 and 25 wardens will be appointed.

On Monday morning the Pendleton postal savings bank opened for business, but the postmaster does not anticipate much business for the present.

The Seventh Day Adventists of western Oregon have gathered at Forest Grove to the number of 500 for their annual conference and camp-meeting.

Representatives of 130,000 acres of privately owned timber lands in Jackson county met and organized the Jackson County Forest Fire Protective Association.

Three Umatilla county postmasters share in the salary increases recently announced by Postmaster-General Hitchcock. They are those at Free-water, Hermiston and Milton.

Park Corn, who struck Ed Louis with a bottle at North Powder, from which shortly afterward death followed, will go free, for the grand jury at La Grande has returned a not true bill.

Work has been completed on virtually a reconstruction of the historic suspension bridge connecting Oregon City and West Oregon City. All the woodwork of the structure was renewed.

As the result of an altercation between members of the Roseburg Fire Department and the city council, the members of the former organization held a special meeting and disbanded the organization.

The delayed report of the United States Geological Survey on production of gold, silver, copper, lead and zinc during the year 1909, shows the output of these five metals in Oregon aggregated \$327,001.

Condemnation proceedings by the state against President Homan of Willamette University at Salem may be instituted in a few days to complete possession of a block of land east of the capitol building.

V. L. Colman, rear-admiral at the Bremerton Navy Yard, has notified Governor West that the cruiser Boston, for the Oregon naval militia, will be in readiness to be manned by Oregon officers on June 15.

Whether the methods of making stock shipments on the O.W.R. & N. lines are reasonable and adequate will be the subject of a hearing called by the Railroad Commission to be held at the Union Stockyards at Portland June 29.

It has been announced that cars will be run regularly over the Mount Hood road as far as Gresham in about six weeks. The first service will be given by two locomotives and a gasoline motor, making hourly trips from Portland.

The Commercial Club of Baker complained to the Interstate Commerce Commission that the Oregon-Washington Railway & Navigation Company, the Oregon Short Line and the Pacific & Idaho Northern Railroad were discriminating against Baker in joint rates to points in Idaho and Oregon.

State Tax Commissioner Eaton has left for Eastern Oregon, where he will investigate the complaint made to the tax commission by the legislative committee of the Baker-Union Woolgrowers' Association. In this complaint it was declared that sheep were being assessed out of proportion to their market value and that the sheepmen of Baker have been paying more than their proportion of taxes on the county and state.

Great activity is marking efforts in Baker county to rid the timber of the pine beetle, which in the past few years has made serious inroads not only in Oregon but in all parts of the country. There are eight camps of "bughunters," as the men engaged in exterminating the pests are nicknamed. Seven of the camps are under the jurisdiction of the government bureau of entomology and the other is maintained by the Baker Forest Protective Association.
