

# The Observer.

MORO CITY OFFICIAL PAPER.  
OFFICIAL PAPER OF SHERMAN CO.  
MORO, OREGON.

Entered as second class matter at the post office at Moro, Oregon, July 25, 1911.

D. G. IRELAND, Editor.  
C. L. IRELAND, Manager.

FRIDAY, JULY 21, 1911

If you do not read The Observer, why not?

We would like to have you take it, and we know it would be profitable to you to become a subscriber. We send it two years for \$2.50; one year \$1.50; 12 1/2 cts a month isn't much. Try it. Order by postal card, and pay for it when you can.

Church and Society notices FREE, except when for money making purposes. Such notices at regular rates at the option of the publishers.

We will not be responsible for the neglect of subscribers to notify us of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

Did it ever occur to you that it costs no more to produce printing that is pleasing to the eye than the other kind? The Observer is equipped with all the modern facilities for doing good work at the very minimum of cost. Try us with an order and if it is not executed to your perfect satisfaction you need not pay for it.

Send for advertising rates.

An investigation of pipe line rates, classifications and regulations has been ordered by the interstate commerce commission.

Mexicans who are rebelling against the Maderists appear to be impressed with the idea that there should be a bullfight every day since Diaz left.

Jay Gould, who worked all his life for a count, could now, if living, be the grandfather of a duke; in fact he got several things more than he ever worked for.

The field is said again to be against Hoke Smith in Georgia; it always is, and uniform results lead to a suspicion that the field is a very unpopular thing in Georgia.

That Archbishops Ireland and Farley will become cardinals when the next conclave is held is the assertion which is being made apparently upon good authority in Vatican circles in Rome.

The announcement that the John W Gates interests has gained control of the Mexican oil fields comes concurrently with the announcement of a new revolt in Mexico; it may be only a coincidence.

Another explorer has gone to Mt McKinley to find whether or not Dr Cook ever got to the top; what's the use? Everybody knows that whether the doctor ever got to the top or not, he is now at the bottom.

Denials are being made by the Venezuelan government that former President Castro has landed at Lake Maracabo. Precautions are being taken, however, against revolutionary movements in the vicinity of Goajira Peninsula.

On his return to Cordovia Saturday from an inspection tour of the McKinley mining district, Stephen Birch, manager of the Alaska Morgan-Guggenheim syndicate, announced the bonding of more than 50 gold quartz properties for \$200,000.

Because one of his servants watered his lawn with a hose, J Pierpont Morgan was notified Saturday that an additional tax of \$5 had been placed against his property at 36th street and Madison avenue. No report yet that the servant has been discharged.

"Billy" Sunday and Glenn H. Curtis were pals Saturday following an aeroplane trip of two miles. The evangelist, who is spending a few days at Warsaw, Ind., accepted Curtis' offer to make a trip and never flinched as the big air craft sailed over the lake at terrific speed.

Because his chauffeur allowed the auto to smoke and was arrested by the police, Charles W Partridge scheduled \$5,000,000 worth of property Saturday in order to secure the driver's release. Whether a cigarette or a stinkadora was smoked by the saucy auto, was left to conjecture.

## Trusts Welcome the New Situation.

The national government is the finest octelist that the American trusts have ever employed.

His services are often more enforced than invited, but he succeeds in restoring sight to the blind.

Thanks to his surgery, they have seen a great light.

Ten years ago they would have suffered convulsions at the idea of regulation from the government. Now the greatest of them have begun to welcome it.

President Vail of the American Telephone company proclaimed this new gospel of welcome last winter. Now Elbert Gary, chairman of the steel corporation, declares that control of corporations by the government must come, and in addition is quoted as having even said that this control should extend to the prices for their products.

The latter statement verges so far toward socialism that it sounds incredible from Mr Gary.

But let that pass.

The nub of the business is that the steel corporation, as huge a trust as there is in the world, shows signs of an inclination to stand on President Taft's ground and to endorse his cure for the evils wrought by the trusts.

Mr Taft thinks, there is urgent need to put the steel trust under the control of the government, and Mr Gary "thinks it of the greatest importance to determine how the people may be protected against great organizations of capital."

Now is the Scripture fulfilled that "Saul also is among the prophets."

## Proaic Poultry Verses in Prose.

It is reported that E H Brown, formerly pulisher of the Stanfield Standard, is about to take up life on a chicken ranch near St. Paul, Oregon. Bro B. has heard of an ex-preacher who is making \$1,500 a year by raising poultry on a three acre tract near Portland; more money and perhaps does more good than formerly; at least he sets a good example. The Journal tells of an old woman who lived near Fairview, and she had so many hens that she didn't know what to do; but she fed them and set them, and tended them well; and so always had eggs and chickens to sell. In a few years so rich this old woman became, that her daughter, and heiress, Susan by name, was courted a while by a 'foreign' count, but she couldn't pungle the required amount.

Secretary of State Olcott's propensities for economizing received a stunning shock Saturday when he received from practically every official in the state house requisitions for electric fans; the railway commissioner wanted a fan of three-horse power; the tax commissioner desired cold drinks served hourly, while others requested ice; the governor's private secretary even ordered fans for himself and his stenographers. Olcott was in the midst of a pile of letters and at the same time trying to figure out a plan to submit to the governor whereby the state could be kept within limited appropriations; when he read the orders, he prespired for the whole state house.

One of our pleasant days abroad was spent with the family of J W Leonard, at The Dalles. Mrs L was a Miss Ireland, and has two relatives visiting her from Salisbury, Mo., Mrs R W Agee, and Mrs J R Mason, and Mr C W Leonard, of Monmouth, brother of J W, all connected with the broad and loyal family of the Irelands; and amongst whom, at latest accounts we have, Father Ireland, Bishop of Minnesota, had never yet found one "undesirable" and he has made it his business to seek all of us.

James Pettit, president of the Peavy grain company of Chicago, was only a kid, he carried \$500,000 life insurance, made way with \$1,500,000 of the company "paper," and died so mysterious a death that it has not yet been decided whether it was suicide or natural. That's going some along the get-rich-quick lines.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by all dealers.

## News Notes From Tropical Cities.

Society notes: The Keep Cool club will now take up the study of Dr Cook's imaginary trip to the north pole.

Shipping notes: As rapidly as the schooners come in men stand at the dock ready to unload the cargoes.

Sporting notes: The pitchers are warming up to their work as the season progresses.

Railroad notes: No 56 was delayed two hours yesterday by a hot box.

Musical notes: The band kept on playing The Good Old Summer Time.

Theatrical notes: The leading lady was warmly received.

In other words, it is hot.

Thirst parlor lingo: From the open door of many a thirst parlor yesterday could be heard the orders coming thick and fast: Draw two about so high.

## Summer Lake Well Drilling.

Silver Lake Leader: The well drilling outfit has been moved to Fred Klipple's where they will drill a well; Mr Small's well has a good flow of water. The drillers found gas, fish bones and shells, and also struck a tree which they drilled through for 24 feet. When the casing arrives they will finish the well.

## Raspberry Shrub.

Select the best and ripest of black-capped raspberries and pour over them just enough of pure cider vinegar to cover. Let the fruit stand in this for a day or more in a cool place, then strain through a cheesecloth bag, squeeze hard to extract every bit of juice. Measure and to every pint of juice allow a pound of sugar. Boil five minutes, skim carefully, then bottle, sealing tightly. When ready to serve add two tablepoonsful of the shrub to each glass of cold water.

## Before And After.

Mrs Pinhead—You said, before we were married, that my word should be law.

Mr Pinhead—That was before I found out that the law was unconstitutional.

## Ice Cream Without Ice.

This receipt has sold for \$5, and after using it you will say it is well worth \$10. We give it to you free; with the compliments of The Old Reliable. Save it.

Anybody can freeze his own ice cream in five minutes and for the expenditure of about 10 cents. If the preparation desired to be frozen is placed in a tin bucket or other receptacle it can be readily congealed by putting it in a pail containing a weak solution of sulphuric acid and water. Into this throw a handful of common glubber salts and the resulting cold is so great that a bottle of wine immersed in the mixture will be frozen solid in a few minutes, and ice cream, or ices, may be easily prepared.

## Donts For Incubators.

Don't use the incubator for a wash basin.

Don't have dirty, oily lamps or short wicks that smell up the incubator room.

Don't lend your machine. Let the other fellow invest in one; it will do him good.

Don't worry about the hatch on the last day. Just see that the temperature is O K and forget it.

Don't put the thermometer where the first chicken that comes out of the shell will knock it down.

Don't shake your incubator or the incubating eggs, as it ruptures the embryos and cause the chickens to die in the shell.

Don't forget that the brooder must be ready for the chicks, so don't wait until the last moment before getting it cleaned and warmed up.

When you take the eggs out of the machine to air, it does not mean to cool them; although they do cool in the airing, the incubator or door should be closed in order to keep the egg chamber warm. It often takes an hour for the eggs to reheat after being aired.

## The Portland Markets.

Berry receipts are very light at Portland; there is more demand for watermelons than supply. Oregon potatoes are in freer supply, stock remains firm. Reported breaks in the markets in California left no effect here and commission men are inclined to believe that early potatoes will continue to bring good prices. Every precaution against damage by hot weather should be taken in shipping veal or pork. Last week a number of carcasses had to be condemned as unfit for food. The loss falls on the shipper and it is therefore for them to see that every precaution is taken against loss if they have to ship during the hot spell.

Crook County Dairying.

That dairying will become an important industry in Crook county was evidenced last week by the sale of 117 Jersey cows which were driven across the Cascade mountains from Albany. The cattle came from one of the finest stock farms of the Willamette valley.

Dairying around Bend has been greatly hampered by the fact that the ranchers have been unable to buy good stock. They have the pasture and have been waiting for the opportunity to purchase cows at reasonable prices. With the bringing in of such a large number of good animals it is expected that some steps will be taken towards establishing a creamery there.

## New Hotel for Portland.

J R Kaseberg has commissioned Morgan, Fleidner & Boyce to erect for him a four-story brick hotel and store building at Washington and Lucretia streets, Portland, which will cost about \$40,000. There will be 20 rooms to each of the upper floors, every room being provided with hot and cold water and other conveniences for hotel uses. The exterior finishings will be in pressed brick, and the type of construction mill. In ground space the new hotel building will have 73 feet on Washington, 71 on Lucretia and a width of 78 1/2 feet at the rear. The stores on the ground floor will be made attractive. A hotel lobby will also be put on the lower floor.

## DeMoss Correspondence.

Roy Hunter is working at the Moro livery stables.

G G DeMoss has moved to the park for the summer.

D R McGregor was up from his Rufus home last week.

N P Gleason and wife were recent visitors at the Alex Hunter home.

L J Gates attended the services Sunday; coming from Kent by automobile.

There was quite a turn out to the basket dinner and union Sunday school services here Sunday. The speaking was excellent.

Among those who attended the union Sunday services in the grove were our old time friends, I D Pike and family of The Dalles.

Nick Kansas, foreman for this railroad section, knows a good thing when he sees it. He recently secured eighty shares in the Tourist Bed Company.

## A Fraudulent Concern.

Evening Telegram: Revelations of fraudulent transactions of the most astounding character, dating practically from the time the Commercial Bank of Vancouver came under the control of United States Land Register Hugh C Phillips and the Aldrich interests, February 17, 1906, up to the very day the institution was forced by State Bank Examiner Mohundro to close its doors, December 17, 1910, as shown by the books and records, have impelled expert accountants S W Ferguson and John Y Richardson to declare that the bank appears to have been maintained only for the purpose of obtaining money by false pretenses.

## Union Church Services at Demos.

About 350 attended the union services of the different Sherman county churches and basket dinner at Demos last Sunday.

Dr Granville Lowther occupied the morning with an excellent address entitled Power.

Beside the instrumental and vocal numbers on the afternoon program addresses were made by Rev Geizler of Wasco, Rev W L Dellinger of Grass Valley, and Dr Lowther of North Yakima.

One of the most interesting episodes of the day was the report by G A Simon of his observations at the international Sunday School convention, recently held at San Francisco. He said that 16 million men, women, and children unite every Sunday in the study of the same lesson; that 40 per cent of the Carnegie medals are acquired each year by boys under the age of 20 years; he also said that 95 per cent of the conversions to Protestant churches was by those who were less than 20 years.

Mr Simon stated that at the convention statistics were shown the United States spent yearly for Foreign Missions. \$ 10,000,000 Public schools . . . . . 27,000,000 Church work . . . . . 150,000,000 Tobacco . . . . . 800,000,000 Liquor . . . . . 1,500,000,000

## Horses For Sale.

Eight good work horses weighing 1300 and over for sale. Call on or address me at Klondike, Oregon, box 36. FW MATHIAS. (f.101)

## Camp Outfit For Sale.

At very reasonable price: 1 camp wagon, fully equipped with cooking utensils, folding table, chairs; 300 ft. 1/2 in. wire cable; 2 tents; 1 team of horses and harness; 1 single harness; 2 saddles; 1 new roller-top desk and chair; 3 sleeping bags, and numerous other articles. Act. E. O. L. Co. GEO. W. BERRIAN, Moro, Or. \$26tf.98]

## To Buy, Sell or Exchange.

Any person or persons having horses, cattle, houses, lots or household goods for sale or exchange, or parties desiring to buy such property, will find The Observer a good medium for advertising and securing a customer. Try THE OBSERVER, Moro, Or.

### The Grain Growers Conveniences

Are not alone confined to Rural Free Delivery of mail and the Telephone. There is another convenience which all farmers should have — and many do have — a checking account with a good bank. The possessor of such an account avoids the risk of having his money on his person or about his home where it is in danger of fire and thieves.

His bills paid by check are not only a valid receipt, but also a convenience in his home transactions where very often the necessary change for concluding settlement is not at hand. Don't stop to think this over, but start an account now with
