HOLT HARVEST EXTRAS

Geo. N. Crosfield, Agent
Wasco, Oregon.

The Grain Growers Convenience

Are not alone confined to Rural Free Delivery of mail and the Telephone. There is another convenience which all farmers should have — and many do have — a checking account with a good bank. The possessor of such an account avoids the risk of having his money on his person or about his home where it is in danger of fire and thieves.

His bills paid by check are not only a valid receipt, but also a convenience in his home transactions where very often the necessary change for concluding settlement is not at hand. Don't stop to think this over, but start an account now with

The Wasco Warehouse Milling Co.
Bank, of Moro.

To The Farmer

Store your grain with **THE PACIFIC COAST ELEVATOR CO.**, where you have all the advantages of an independent house. Your storage rate is but 50 cents per ton to January 1st., and we will treat you right.

PACIFIC COAST ELEVATOR CO.

Reduced Rates on all Railroads. Send for Premium List and Entry Blanks.

FRANK MEREDITH
Secretary, Salem, Oregon.

READ THE OBSERVER ALL the time.
For County news

Grandma Powell has returned from her summer outing.

Well, hot old August is gone, now for some fall weather.

Rivalling Rutledge two Pocatello women had a real "gun play" over a faucet there.

For bargains in a wind mill, a tower and a gentle driving horse, address C A Nish, Monkland.

Leave your watch and jewelry repair work with M A Bull, who will forward it to L W Ross, the Wasco jeweler.

Mrs L Starnes, of Oakland, was the guest of Mr and Mrs M A Bull, last week, leaving for her home Tuesday; Mrs S is a sister of Mr Bull.

W L Dillinger and family were visitors Thursday at the home of Wm Morrison and family in this city, en route to their Rutledge home, from The Dalles.

Mrs H M Benson has returned to her home in Moro, which was a lonesome place to Harry while she was away on her summer visit to the old home in the Wrentham settlement.

County Clerk McPherson has returned from his summer saunterings, beneficially benefitted by contact with the great Pacific ozone wafted in upon Oregon with the roll of the breakers on our sea girted shores.

One of those four months old pullets of Amos A Case in this city laid six eggs in four days last week; two were double-yolks, as if the little hen was making an effort to produce quantity that would equalize the smallness of her beginnings.

The quality of the water which seeps into the new municipal well is pure, cold and soft. We are praying that a larger vein may be discovered as the shell rock is excavated, which seems probable from the appearance of the formation of the substance to be removed.

If you forget your collapsable when starting on a trip "peanuts" on the train will sell you one of aluminum or paraffine if you want to drink. All conductors have been instructed to see that the "butcher" does not gather up discarded cups and sell them again.

Hugh McIntyre, of Umatilla county, was down taking a look at Sherman county crops last week; he is satisfied with his crop, "because he has to be," and that is the proper way to look at things; where is the good of worry. We may get a soaker this winter and a bumper of a crop next year.

Fire caught in the house of Soren Hansen about 1 p m Tuesday, on one of the farms of Judge G B Bourhill, known as the Guinther place, near this city, and reduced nearly everything to ashes in the short space of one hour. The origin of the fire is supposed to have been from a defective flue.

Besides the county fair at Moro sometime this fall, there will be the usual number of district, county, and grange fairs as in past years many of which will provide generous premiums for exhibitors who are successful in passing the critical eyes of the judges. The semi-centennial of the Oregon State Fair, which opens at Salem on the 11th, will be a hummer.

The Harvest Ball given to his many friends at Rudolf opera house by Louie L Peetz Saturday night, was a fine affair; about 60 couples attended, and all present enjoyed the occasion very much. The ladies were neatly attired and the gentlemen quite attentive and decorous. Mr and Mrs Peetz were exceedingly well pleased, and were the recipients of many thankful expressions for the pleasures of a most agreeable evening.

A man named Lippert bought some horses from a Wasco man, and gave his check; after his departure with the horses the Wasco man got nervous and 'phoned to the bank, mis-spelling the man's name to Littard, and the answer came back: "no money here to that name." Mr Lippert was then detained at The Dalles and Sheriff Freeman was called in. After re-addressing the bank with the name spelled properly, the reply was: "That man's credit is good for the amount." Seeing that he had caused all the trouble Mr Rich paid the expenses, and everybody went home satisfied; the old adage is a good one: "Be sure you are right, then go ahead."

Up to October 15th the SPRCo expect to drop 6,000 men from its rolls.

House your machinery against a hard winter; whether or not be prepared.

The new term of school will begin at Boardman Monday, with Miss Denny as teacher.

Mrs Clara Belshe is at her home in this city for a few days respite from her position in Portland.

Mesdames Chris Andersen, Ira K Axtell and Perry Axtell returned to this city from their summer outing on the 26th.

Mrs J W Woods and son James left this city Wednesday, on a visit of 60 days in Iowa. This will be Mrs Woods first visit to her old-time home in 19 years.

G O Warfield, local agent for the Kerr-Gifford Co., grain buyers, has fitted up a suite office in the bank building apartments recently vacated by WH Ragsdale.

A consignment of tea valued at \$20,000 was confiscated at San Francisco Saturday, by the custom house officers claiming that the tea has been artificially doctored and therefore impure.

Mrs Strahl has concluded to remain for the fall season, has hired a trimmer, and is now located at the well known G W Brock Restaurant building Main street, Moro, and has ordered a choice stock of Millinery.

Birth of the 5th generation in the family of Mrs Palmyra Eliza Price, is reported at Grants pass. Mrs Price was Mrs Geo Masiker, at Poplar grove, Sherman county, west of Wasco, where Mr Masiker died in 1863, and she afterwards became the wife of Samuel Price.

Mrs W D Wallan arrived home on the 27th, from a very pleasant visit with relatives in eastern Washington. An incident of the trip worthy of the attention of the tourist, was the return by steamer down a long stretch of the majestic River of the West from the stirring Kennewick metropolis.

According to the meter in the pipe that leads to the O-W R and N tank in this city, Moro water company is furnishing the locomotives with 80,000 gallons of water monthly. The new well, it is hoped will furnish up town folks with enough for a drink, and keep a supply in the mains for emergencies: fire for instance.

Richard Conroy, aged about 28 years, herding sheep for Lefe Penland, 25 miles south of Heppner, was recently found with his face blown off, lying on one side of a log and his shot gun on the other. The chin, cheek bones and eyes were gone when found, and he was still alive, but unable to tell how it happened and died before medical assistance could reach him. His father lives in Vancouver, BC, and he leaves a sister here, Mrs J Tonkins, of Monkland.

GW McClelland, father of Mrs J C McKean of this city, died at his home in Wasco on the morning of the 28th, in the 59th year of his age. Deceased had been ailing for several months, and some time ago was thought to be on his dying bed, but he rallied and after that was able to attend to business and visited with his daughter and family in Moro. When the final summons came, though anticipated, it caused a shock to many of the closest friends of the family. The funeral took place Tuesday p m, at Wasco, Rev A J Adams of this city officiating, and was largely attended by sympathizing friends and neighbors. Deceased is survived by his loving companion of 31 years, one son and a daughter, Mrs McKean of this city.

Judge Wm Henrichs and E E Barnum returned from their hunting and fishing outing on the 26th, rejuvenated. They got all the fish they wanted but no bear, cougar, elk, not even a deer; even the beaver have left their dam houses. The pine needles in the dense forest covering the earth with a mass too thick for traveling and destructive of all vegetation for animal subsistence, is not attractive to game, and out on the burns the network of fallen logs and trees, "a mass of ruin," prevents even an approach to any grass that may be in sight. The wonder and mystery of the forestry system of the government is worthy of deep study by sober and intelligent men, and then a sheep herder can learn them some things.

HARVEST EXTRAS
