There are events occurring in every community which, if reported in the local paper would create a commotion little dreamed of. What to report and what not to report often perplexes the editor; he is often unjustly accused of cowardice and favoritism when all the time he is looking toward the good reputation of the town where his lot is cast; he constantly finds himself, from necessity almost, between two fires, and which ever way he turns he is sure to be unjustly treated; but that cuts no ice, he's hardened to the chilly usages of the bloodless thinker.

Some people never hand in an item of news for publication, but if we happen to miss one, which they are interested in, they are sure to hand us a north pole stare that would freeze the liver of a polar bear.

Place all pullets in their winter quarters before they start laying; it gives them a good chance to become acquainted with their new home. Hon M A Moody's power and irrigation schemes on DesChutes river, so long in embryo, have at last unfolded into a \$9,000,000 syndicate, fully financed, and the project of light and power for Moro, Wasco, Grass Valley, etc., may now be turned from paper talk to the dead reality.

Howell Bros were two weeks devising a 'hitch' for their drills and harrows for the caterpillar engine, wrecking one drill in the endeavor; now they have perfected the hitch which enabled them to drill and harrow 125 acres last Saturday 72 feet to the "round." In three days last week they harrowed 1,200 acres. This may be called successful economic farming.

Monkland Correspondence.

Born: To Mr and Mrs Billy Reid, Sept 24th, a son; mother and son doing well.

Billy Reid has rented the Old Fredburg ranch.

Hugh Shull has bought the McPherson farm. He has 400 sacks of turkey red wheat scattered over the Hal and John Morrow farms, and a number of teams busy seeding 1,500 acres.

Wasco Day at the County Fair.

Thanks to the up lit sentiment prevailing in Sherman county at this time, the county will be well represented at the fair to be held here on the 10th 11th and 12th of this month. Wasco has chosen the 11th, to be here en masse, and the day will be catalogued Wasco Day. A special train load of the people of Wasco and vicinity, on a charter secured by themselves from the O. W. R. N. Co., and attended by a band of music their own, will be with us, setting an example for all the country about to compare results and methods to personal advantage.

Draft Horse Parade.

The fair managers have arranged for a parade of work horses, October 11th, hitched in teams of four to wagons. Three cash prizes will be awarded; \$15, \$10 and \$5, each for 1st, 2d and 3d prizes. Sherman county has the horses, bring them to the front. It is expected there will be a large attendance on that day, and an exhibit such as this may be made a great attraction.

TAKE A HOLIDAY WORTH WHILE

Your Presence at the County Fair will Encourage the Officers.

Our fair managers have this year surmounted a pyramid of obstacles too voluminous for specification, but that they have succeeded most admirably you all will say when the gates of this city and the new county fair grounds open next Tuesday. County fairs now are not as they once were. Instead of being places of amusement and incentives to vice, they have become educational institutions of powerful influence for the up-building of both city and country life. It cannot be questioned but that county fairs are improving each year, but they still lack in one very essential feature; they do not receive the co-operation of the community to which they are entitled, and which they must have, from both exhibitors and visitors, if success is to be commensurate to the energy expended by their promoters. The remedy for this lies in the hands of all good citizens of the county, and it always pays to apply it.

John L. Sullivan Invited.

Spokesman - Review: John L. Sullivan shows fine level-headedness; no congressional candidacy for him; being a farmer is infinitely better than being a congressman. John ought to migrate to the Inland Empire; he has the agricultural ideas that have done so much to make this region prosperous.
