SPORTSMAN and TELEPHONE

EVERY TIME a man wants to get away from all connection with the busy world the telephone is an important helper.

The local service is useful in arranging his affairs at home and the Long Distance service of the Bell System helps him to decide where to go and what to take.

By means of his Bell Telephone he can find whether the fish are biting or the birds are flying and whether guides or horses can be secured.

After he has been out awhile, if he wants to get word from the city, the nearest Bell Telephone is a friend in need

The Pacific Telephone & Telegraph Co.

He came direct to Moro from Arizona, convinced that he could not live much longer, and it was well that he did so, as he was tenderly cared for until the final summons came.
