"Exterminate the fly," but you will never accomplish the feat by swatting the straggler; go to Balboa, Cristobal, Colon, and other leading Panama hotels, and there learn something. There are no flies in Panama cities to swat; the fly, and its nasty breeding haunts, have all been destroyed through a thoroughly disciplined sanitary system, which, if adopted here in Moro, or in any other northern city, would effectually do away with the fly and many other pests of similar nature. Oil spray is used to destroy the larva, filth, or refuse of any kind. Swatting is foolish, and has very little, or no effect, farther than to advertise the business of selling screens, that only warp out of shape and do no good whatever.

This remedy effected a cure." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

The Heart-felt Good Night.

I say, Good night, an old and simple phrase,
And spoken by mankind in countless ways;
Some with a careless, cold formality,
Some with a falseness speaking cheerfully,
Some tenderly, with meanings deep and true;
What think you that my goodnight has for you?
Good night; that means I wish you sweetest dreams;
Such as the roses have by purling streams;
Good night; that is my prayer that all the night;
Beside your sleep, shall watch an angel white.
Good night; that means you can not guess how dear
This day has been because I had you near;
Good night; that means just as I close the door;
That I shall love you more and more; and more.
