That excursion of 100 Astorians is not coming up to Celilo today; they don't want to see any canal, perhaps; what do they care for an open Columbia river from the British Columbia boundary to old Fort George? It would be creditable to Astoria to take a hitch in its sensibilities and realize where she is at.

I have just received direct from the factory the nicest line of cut glass ever shown in Sherman county. Come and let me show you the difference between good cut glass and the ordinary kind that is usually sold. Prices are less than poor cut glass has usually sold for in this locality. L. W. Ross, Sherman county jeweler.

Mr and Mrs Geo W Jordan of Wasco county, enjoyed a week with relatives and friends in this city and vicinity and returned home Wednesday. After the ceremony the table with its burden of good things, was surrounded by all present and lightened it burdening themselves. Those present were the father and mother and the two brothers of the bride, and the family of the minister. The bride looked lovely in a cream messaline gown. The bridegroom wore black broad cloth. No praise is needed to aid this couple as their lives speak out for themselves; they have the best wishes of all who know them.

Moro has had a jewelry store before the advent of L. W. Ross; one maintained separate from any other business; but the stock now carried by Mr Ross easily surpasses any previous stock carried in the county, it is up to the minute in every respect. In cut glass there is one of the best displays to be seen anywhere, of absolute good goods at reasonable prices, and of cut glass that differ in proportion from the ordinary as a plate glass window differs from the usual window glass. Mr Ross has also a supply of Elgin Watches that for long wear are cheap in price as well as a choice assortment of jewelry of all kinds.

Brother DeMoss displayed nearly 100 varieties of farm products grown on 35 acres, he has 135 acres capable of cultivation, but only 35 are cleared. In the past few years he has been operating under the direction of C. L. Smith, agriculturist for the O-W-R & N Co., with the agreement that the railroad guarantee him a profit on all his crops if he but follow Mr Smith's instructions. The report says, "it is due to the Ry Co, and to Mr Smith, to mention the fact that Mr DeMoss' results always have exceeded the standard."
