**SCHOOL CHILDRENS' POULTRY CONTEST.**  
 A Statement of its Purposes.

List of Helpful Bulletins, Circulars, Pamphlets, General Information.

Prepared by P. M. Nash, Moro.

The state of Oregon imports each year more than 1 1/2 million dollars worth of poultry and eggs from other states in order to supply the local demand and at the same time our farms and village houses are without poultry in many, many instances. This condition can and should be changed.

State Superintendent of Instruction L. R. Alderman, in a recent letter, pointed out that we were spending \$9.60 per annum to educate each of our school children; he there asked if they could not each raise enough poultry to meet this expense. This is a modest sum and with co-operation of school and home such is possible. Let us of Sherman county show that it can be done.

The executive committee of the school fair has made arrangements with several of the best poultrymen of Oregon and Washington to supply the children with the best of eggs and stock at greatly reduced prices and any who are interested can get the names of such upon application and, also, breeds with prices.

It is not thought that any pupil or student will raise several breeds of poultry but is rather advised to direct his efforts in the raising of one or two strains that are known to be good general purpose fowls. Emphasis is rather laid upon raising the Plymouth Rocks, Leghorns, Rhode Island Reds, Orpingtons, Minorcas, Wyandottes, Brahmans, Anconas, and possibly a few others. Turkeys and ducks should also receive considerable attention.

Those who engage in this work need a good poultry journal. We do not desire to advocate any special one as there are many good ones, but possibly the American Poultry Journal is as good as any. The Country Gentleman also contains many good poultry articles.

Anyone who desires to acquaint himself with what constitutes a good bird should have American Standard of Perfection published by the American Poultry Association.

The Poultry Department at Corvallis has several good bulletins among them are: Housing of chickens, ext. series 7 number 2; breeds of chickens, ext. series 7 number 1; poultry contest bulletin number 7. Then by having your name placed on the college mailing list, others will be received as issued.

The ones that really mean "business" are especially requested to write to U. S. Department of Agriculture, division of publications, Jos. A. Arnold editor in chief, Washington, D. C. The Department of Agriculture exists for our benefit; use it. They will send any of the following bulletins on request; a postal card will bring any bulletin that appeals. B140 fattening poultry; B141 improvement of the farm egg; B176 a system of poultry accounting; B206 hints to poultry raisers; FB51 standard varieties of chickens; FB64 ducks and geese; FB200 turkeys; FB236 incubation and incubators; FB287 poultry management; FB357 poultry management, Maine experiment station; FB445 marketing eggs through a creamery; FB452 capons and caponizing; Ybk. September 584 the handling and marketing of eggs.

All teachers will lend all possible aid and any inquiries will be promptly attended to and all such are urged, if the inquirer is in earnest.

Remember that very substantial prizes are announced for this year and it is the desire of those heading the movement to make Sherman county as famous for its poultry as it is for its stock and grain.

A diploma of Merit will be issued to all poultry exhibitors in addition to the regular prizes, if such exhibit is accompanied by a record of receipts and expenditures from March or April to September or October, the period of such

record to cover six months and on a regular form to be supplied by the Committee.

Among those in the county who have good poultry and who we feel will offer courtesies to the children are: Granville Phillips, Kent; W.C. Guyton, Kent; Arnold Buhman, Wasco; Wiley Benefield, Klondike; I. N. Lemon, Grass Valley; Omar Sayrs, Moro; W. C. Rees, Moro; G. W. Hildebrand, Wasco; P. M. Nash and F. E. Fagan, Moro; and others.

Besides these, reductions are offered by E. S. Russell, Rhode Island Red, Centralia, Washington; Keim & Keim, Rhode Island Red, Ridgefield, Washington; J. M. Garrison, several varieties, Salem, Oregon; Mrs. Winnie Braden, Dallas, Oregon; W. Watbridge, Heppner.

Published by order of the executive committee of the School Fair Association.

**Northern County Schools Visited.**

County School Superintendent F.E. Fagan returned the first of the week from an official visit among the schools of Rufus, Biggs, and Sherman. He is well pleased with the time spent and reports that all the schools visited had fine school houses and good equipment. He was particularly taken with a new heating system in some of the schools. Superintendent Fagan also reports that at the Biggs school the teacher, Miss Fleck, has inaugurated a mid-week literary society and spelling class composed of the pupils and patrons of the district; he said that while eating lunch at the Wolfard Lunch Room at Biggs his attention was called to the society by the discussion going on in the room as to proper spelling of words and the reason why some failed the evening before at the meeting of the society.
