The books are at the Freeman store and all are asked to register before election; no one can vote unless they either register or be sworn in, which is an unnecessary trouble to go through on election day.

OREGONIANS LOYAL TO OREGON

Oregon's Home Company Leads the Eastern Billionaires

It is generally admitted that the financial supremacy of New York arises chiefly from the fact that the home offices of a large number of life and fire insurance companies are located there, and every state in the Union has in the past paid a constantly growing tribute in premium payments to New York and assisted in the upbuilding of the bank clearances of the city of New York.

Since the life insurance upheaval in 1905 among the so-called billionaire companies a wonderful change has taken place in the life insurance business of the country. Nearly every state now has one or more home companies, and these compete successfully in business getting with the billion-dollar companies. In Oregon 50 companies are operating, and it must be gratifying information for every loyal Oregonian to know that Oregonian Life Insurance Company leads every one of the 50 companies.

The sworn statements filed with Insurance Commissioner Ferguson at Salem show that Oregon Life, after deduction of all policies which ceased by reason of death or otherwise, still made a gain of \$1,141,384.00 in business in force during the year 1913, and that no other company made so large a gain as that in the state of Oregon.

That this is not the accidental happening of a single year is further evidenced by the fact that while in 1906, which was the year Oregon Life started business, its premium collections were but \$24,474, the sworn statements of 1913 show the premium collections of Oregon Life in that year were \$242,895.00, and that no other company had made so large a gain in Oregon.

Oregon Life is the only exclusively Oregon company, and makes all of its investments in Oregon securities. It is one of the great upbuilding factors of this state, and its wonderful prosperity is a source of congratulation to Oregon and Oregonians.

Local Amateur Theatricals

The presentation of Esmeralda by the High School Dramatic Company was an exceptionally fine amateur effort at the local opera house last Saturday evening. It would be too much to mention each one individually that composed the cast, but the lines were all entrusted to those who were temperamentally best qualified for the place assigned. Mention must also be made of the excellent music furnished by the orchestra and also for the "between acts" features which kept the program moving at all times; Possibly of the various extra "between act" features that of Mrs. C. L. Poley, in her versatile effort to please was the best received because so unexpected.

Receipts of the evening were close to \$140; the company expect to play at Wasco in the near future and also expect to entertain the Wasco high school dramatic company in a return engagement at Moro opera house; the two companies dividing the proceeds of the two entertainments.

Are not alone confined to Rural Free Delivery of mail and the Telephone. There is another convenience which all farmers should have -- and many do have -- a checking account with a good bank. The possessor of such an account avoids the risk of having his money on his person or about his home where it is in danger of fire and thieves.

His bills paid by check are not only a valid receipt, but also a convenience in his home transactions where very often the necessary change for concluding settlement is not at hand. Don't stop to think this over, but start an account now with
